**9. Adjournment. Duty of Each House.** Joint conventions may adjourn from time to time as may be found necessary and it shall be the duty of the house of representatives to prepare to receive the senate and of the senate to proceed to the hall of the house of representatives at the time fixed by resolution or to which the joint convention may have adjourned.

**10. No Business to be Transacted Except That Specified in the Call.** In all joint conventions it shall be incompetent for either house or the members thereof, or the joint convention to engage in the transaction of any business other than that for which they were assembled.

#### JOINT MEETINGS OF COMMITTEES

**11. Standing Committees May Meet Jointly.** Whenever any bill has been referred by the senate to one of its committees, and the same or a like bill has been referred by the house of representatives to one of its committees, the chairmen of the respective committees, when in their judgment the interest of legislation or the expedition of business will be better served thereby, may arrange for joint meetings of their committees for the consideration of such bill.

**12. Preference Given to Bills of Other House.** During the third and fourth days of each week the House shall give preference to the consideration of Senate bills appearing upon the House Calendar, and likewise, the Senate shall give preference to House bills appearing on the Senate Calendar.

When a bill is referred to the Committee on Appropriations of either house such committee shall report it out within three days from the receipt thereof with the committee's findings and recommendations.

#### BILLS AND RESOLUTIONS, ETC.

**14. Scope of Word "Bill."** Whenever the word "bill" is used in these rules it shall include con-

stitutional amendments, joint and concurrent resolutions and memorials.

**16. Procedure on Joint and Concurrent Resolutions and Constitutional Amendments.** Joint resolutions and memorials, concurrent resolutions and memorials and constitutional amendments shall be treated in all respects as bills.

## PREPARATION AND INTRODUCTION OF BILLS

**17. Size, Number of Copies. Folding Form.** All bills shall be typewritten or printed on paper eight and one-half by thirteen inches, shall be in triplicate or in such additional numbers as each house may require respectively, shall not be folded, and shall have the arrangement and wording prescribed by the following:

**18. Form of Bills.** Every bill shall have (a) a designation; (b) a title; (c) an enacting clause; (d) subject matter disposed in one or more sections; and (e) an emergency clause, if necessary.

**19. Designation.** The designation shall be a heading preceding the title:

S. B. (or H. B.) No.                   By Mr. \_\_\_\_\_  
S.J.R. (or H.J.R.) No.                By Mr. \_\_\_\_\_ etc.

**20. Title.** The title of every bill introduced shall convey an accurate idea of its subject and shall be expressed in the fewest words practicable. In amending a section of an existing law, the mere reference to the section by number shall not be deemed sufficient.

**21. Enacting Clause.** The title shall be immediately followed by the enacting clause, the form of which is prescribed by the Constitution, Article VI, Section 22, viz: "Be it enacted by the Legislature of the State of Utah."

**22. Subject Matter.** The subject matter of the bill shall follow the enacting clause, and shall be set forth in one or more sections.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repealing sections of unnecessary length.

No law shall be revised or amended by reference to its title only, but the act as revised, or section as amended, shall be reenacted and published at length. (Const., Art. VI., Sec. 22.)

Except general appropriation bills, and bills for the codification and general revision of laws, no bill shall be passed containing more than one subject, which shall be clearly expressed in its title. (Const., Art. VI., Sec. 22.)

In the preparation of a bill amending an existing law, and in the printing thereof, all omissions must be shown by the insertion of heavy parenthesis, without including the omitted matter, and all additions must be shown by underlining the new matter, except in new laws and where new sections are added to existing laws.

No section sub-heads shall be included in any bill. In case of a bill amending an existing law the black-faced sub-heads shall be omitted.

**23. Emergency Clause.** An emergency clause is not required in a bill unless it is desired to make the act take effect at a time other than that prescribed by the Constitution, Article VI., Sec. 25.

Whenever an emergency clause is inserted in a bill, it shall constitute the last section of the bill, and shall be in substantially the following form: "This act shall take effect upon (approval) (or given date)."

A bill containing an emergency clause can only be passed by a vote of two-thirds of all the members elected to each house (Const. Art. VI., Sec. 25); provided, however, that if such bill receives a majority vote but less than two-thirds, it shall nevertheless be deemed passed, and the emergency clause shall be omitted from the bill as finally enrolled.

## RECORD OF BILLS

**24. Printing of Identical Bills.** When a bill has been printed in one house, an identical bill shall not be printed in full in the other house, but shall be printed by designation and title only and with reference to the corresponding bill of the other house, except upon specific vote of the majority of such house.

The Secretary of the Senate and the Chief Clerk of the House shall confer at the close of each day's business regarding the printing of bills to avoid duplication.

**25. Bill Referred to Committee.** Neither house, except upon vote of a majority of such house, shall give consideration to a bill unless such bill have been referred to the appropriate committee of the house in which it was introduced, examined by such committee, revised if necessary and reported back.

**26. Secretary and Chief Clerk to Keep Register.** The secretary of the senate and the chief clerk of the house of representatives shall keep a register in which shall be recorded every action taken by the senate and house of representatives on every bill, concurrent or joint resolution, or constitutional amendment.

**27. Endorsement of Bills.** The secretary of the senate and the chief clerk of the house of representatives shall endorse on every bill a statement of every action taken by the senate and house of representatives.

Senate amendments shall be inserted in the bill in blue and house amendments in red.

**MESSAGES**

**28. Message to Accompany Bill.** While bills are being transmitted between the two houses they shall be accompanied by a message signed by the secretary of the senate or the chief clerk of the house of representatives, as the case may be.

**29. Notice to Other House of Rejection.** When a bill which has passed in one house is rejected in the other, notice thereof shall be given immediately to the house in which the same has passed.

**30. By Whom Sent.** Messages shall be sent to the other house by an officer or employee to be designated by the secretary of the senate, if it be a senate message, or by the chief clerk, if it be a house message, and all such messages shall be in writing, signed by the secretary of the senate or clerk of the house, respectively.

**CONFERENCE COMMITTEES**

**31. Concurrence in Amendments.** In case the senate amend and pass a house bill, or the house amend and pass a senate bill, the senate (if it be a senate bill), or the house (if it be a house bill) must either "concur" or "refuse to concur" in the amendments. If the senate concur (if it be a senate bill), or the house concur (if it be a house bill), the secretary or chief clerk shall notify the house making the amendments, and the bill shall be ordered to enrollment.

**32. Disagreement. Conference Committee.** If the senate refuses to concur (if it be a senate bill), or the house refuses to concur (if it be a house bill), the secretary or the chief clerk shall notify the house making the amendments of such refusal, and ask that it recede from its amendments. If it refuses to recede, the presiding officer shall appoint a committee of three on conference, and the secretary or chief clerk shall immediately notify the other house of the action taken, and request the appointment of a like committee, which committee shall thereupon be appointed by the presiding officer of the other house. The first senator named on the conference committee shall act as chairman of the committee from the senate, and the first representative named on such committee shall act as chairman of the committee from the house, and the chairmen thus selected shall arrange the time and place of all meetings and prepare or direct the preparation of reports. The committees shall report in writing and shall be authorized to report such modifications or amendments as they think advisable. But no committee of conference shall consider or report on any matter except those directly at issue between the two houses. The papers shall be left with the conferees of the house having possession of the bill, and they shall present the report of the committee to their house. When such house shall have acted thereon, it shall transmit the same, and the papers relating thereto, to the other, with a message, certifying its action thereon. Every report of a com-

mittee of conference shall be read through, in each house, before a vote is taken on the same.

**33. Either House May Recede.** It shall be in order for either house to recede from any subject matter of difference existing between the two houses at any time previous to conference, whether the papers on which such difference arose are before the house receding formally or informally and on such vote to recede, the same number shall be required to constitute a quorum to act thereon and to assent to such receding as was required on the original question out of which the difference arose.

**34. Failure of Conferees to Agree.** In case of a failure of the conferees to agree a report of such failure may be made and a further conference may be had either by the same or new committees appointed for such purpose. After each house shall have refused conference and shall have adhered to its disagreement the bill which is the subject of difference shall be deemed lost and shall not be again revived during the same session in either house. The report of the committee of conference shall not be subject to amendment.

**ACTION ON BILLS AFTER PASSAGE**

**35. Enrollment.** When a bill shall have passed both houses, it shall be duly enrolled by the revision and enrolling committee of the house in which it originated, and the fact of its origin shall be certified by the endorsement of the secretary or chief clerk which endorsement shall also show the dates upon which it passed the senate and house of representatives, respectively, and the number of votes cast for and against it in each house, and the number of absentees.

**36. Examination of Enrolled Bills.** When a bill shall have been enrolled it shall be examined by the Committee on Revision and Enrolling of the house where it originated. The Committee shall carefully compare the enrollment with the bill as passed, correct any errors therein, and make report thereof forthwith to such house.

**37. Presiding Officers to Sign Bills.** Every bill reported to have been duly enrolled shall be signed first by the presiding officer of the house in which it originated, and then by the presiding officer of the other house, in the presence of the respective houses, after its title has been publicly read immediately before signing, and the fact of such signing shall be entered upon the journal (Const., Art. VI, Sec. 24). Three copies, or more, of the engrossed bill shall be made, one of which shall be filed with the secretary or chief clerk, one given to the author of the bill and one given to the secretary of state.

**38. Transmitted to Governor.** After a bill shall have been signed by the respective presiding officers of the two houses, it shall be transmitted without delay by the secretary or chief clerk of the house in which it originated, together with a written message to the governor for his approval.

**39. Governor's Action on Bill Reported to Other House.** When the governor has informed either house that he has signed a bill, or taken any other action affecting both houses, the house to which his action is reported shall inform the other house of the governor's report.

**40. No Adjournment for More Than Three Days Without Consent of Other House.** Neither house shall, without the consent of the other, adjourn for more than three days.

**41. Adjournment Sine Die.** Adjournment sine die shall be made after a committee from each house has notified the opposite house that they have completed their work, and after a joint committee has notified the Governor of their respective reports and that the Governor has informed the Joint Committee that he has nothing further to bring before the Legislature.

**17. Calling a Senator to Order for Transgressing Rules.** If any senator in speaking (or otherwise) transgresses the rules of the senate, the president shall, or any senator may, call him to order, in which case the senator so called to order shall sit down, unless permitted to explain and the senate it appealed to shall decide the case without debate. **28. Motion to Adjourn Always in Order; Exceptions.** A motion to adjourn shall always be in order except when the senate is voting, and except when a previous motion to adjourn having been defeated, no intervening business has been transacted; but this rule shall not authorize any senator to move an adjournment when another senator has the floor.

What Questions to Be Decided Without Debate.** A motion to adjourn, to take a recess, to lay on the table, or to take from the table shall be decided without debate, and all incidental questions of order arising after a motion is made for either of the questions named in this rule, and pending such motion, shall be decided whether on appeal or otherwise without debate.

**36. Division of Question.** If the question in debate contains several points, any senator may have the same divided; but on a motion to strike out and insert, it shall not be in order to move for a division of the question, but the rejection of a motion to strike out and insert one proposition shall not prevent a motion to strike out and insert a different proposition.

### RECONSIDERATION

**42. Senators Not to Speak More than Twice.** No senator shall speak more than twice in any one debate on the same day, and at the same stage of the bill without leave; and senators who have once spoken shall not again be entitled to the floor (except for explanation), so long as any senator who has not spoken desires to speak.

the secretary. A copy of the printed bill with all proposed amendments entered thereon shall accompany the committee's report. Such committee amendments shall be inserted in the senators' files before the bill is considered on its second reading and the amendments shall be acted upon by the senate in the same manner as though offered from the floor.

On an amendment being moved, a senator who has spoken to the main question may speak again to the amendment.

# REGULAR SESSION

OF THE

## TWENTY-EIGHTH LEGISLATURE

---

### FIRST DAY

---

SENATE CHAMBER,  
State Capitol,

Salt Lake City, Utah, January 10, 1919.

Pursuant to the provisions of the Constitution of the State of Utah, the holdover Senators and Senators-elect of the Twenty-Eighth Legislature of the State of Utah convened in Regular Session in the Senate Chamber at twelve o'clock noon.

Secretary of State Heber Bennion Jr., in the chair, called the Senate to order.

Prayer by Rt. Rev. Arthur W. Moulton, former Episcopal Bishop of Utah:

In the Name of the Father and of the Son and of the Holy Ghost Amen. Let the words of my mouth and the meditation of my heart be always acceptable in thy sight, O Lord, my Strength and my Redeemer. Almighty God, the Fountain of all Wisdom, whose Statutes are good and gracious and whose Law is Truth; We beseech Thee so to guide and bless these thy servants assembled as the Senators of the Legislature of our beloved State that they may ordain for our government only such things as please Thee, to the glory of thy Name and the welfare of the people. Thou has given us this good for our heritage. We humbly beseech Thee that we may always prove ourselves a people mindful of thy favour and glad to do thy will. Bless our land with honorable industry, sound learning, and pure manners. Save us from violence, discord and confusion, from pride and arrogance, and from every evil way. Defend our liberties, and fashion into one united people the multitudes brought hither out of many kindreds and tongues. Endow with the spirit of wisdom those to whom in thy Name we entrust the authority of government, that there may be justice and peace at home and that through obedience to thy law, we may show forth thy praise among the nations of the earth. In the time of prosperity, fill our hearts with thankfulness, and in the day of trouble suffer not our trust in Thee to fail.

All these things we ask in the Name of our Lord Jesus Christ.

Amen.

On motion of Senator Fowles the Senate adjourned.

### JOINT CONVENTION

Roll call showed a quorum of both Senate and House members present.

Prayer by C. Clarence Neslen, Chaplain of the Senate:

Our Father in Heaven,

We stand humbly in our places this morning as we resume our legislative duties for another day.

We have been told and we believe that Prayer is the soul's sincere desire, whether spoken or unexpressed. Forgive us for thinking of Prayer as a waste of time and help us to see that without it our labors are a waste of effort.

We desire to be near unto Thee and discharge our full duties in these chambers and elsewhere as becomes True Christians.

Create within us clean hearts and renew our spirits and give us fully of Thy Wisdom, Thy Intelligence, Courage and fairness.

Touch these Thy servants with Thy Holy Spirit that their faith may be revived, their hopes renewed, their wisdom made clear and challenging.

May we be careful, thoughtful, humble, and honest and forbid that any of us here by ill temper, selfishness, or revenge or thoughtlessness, should add to the problems of the hour, but rather may we resolve that with Thy help we may become part of the answer to these problems.

Out of the depths of our needs, out of the depths of our hopes, and out of our failures we come to Thee for help, for inspiration, and courage.

May we be prompt, diligent, humble, prayerful and studious, and courageous that our work this day may please Thee and may it be right and proper for the best permanent good of the people of the State, who have entrusted us with great honors and responsibilities.

Bless our Presiding Officer and all those Legislators both individually and collectively.

Bless their families and those of our commonwealth who are in distress or sorrow. Give them Thy comforting and encouraging Peace.

As members of this Legislature and as citizens of our great Commonwealth we unitedly invoke Thy choicest blessings and Thy constant help upon our respected and honored Governor.

May he be a pioneer of today as his forbearers were pioneers of yesterday.

Give him Wisdom, Intelligence, Courage, Foresight and a renewed faith in Thee and Thy plans and wishes for our great State.

May he and his associates ever remember that Parties, Groups, and Societies should have as their objective the development and Salvation of the State, not their own successes.

May Governor Lee be Thy Servant in very deed and under Thy inspiration furnish a leadership that will bring unity, happiness and prosperity to our beloved Utah.

Let Thy Will be done here as it is in Heaven. We ask it all in the name of Christ our Redeemer.

Amen

On motion of Senator Melich, the President of the Senate appointed a joint committee consisting of Senators Day, Gibson and Marsden and Representatives Cazier, Baker and Patterson to notify the

Governor that the legislature is in Joint Convention and ready to hear his message.

The joint committee returned escorting His Excellency, Governor J. Bracken Lee, who was presented to the Joint Convention by President Hopkin.

The Governor then delivered the following message:

*Ladies and Gentlemen of the Legislature:*

The Constitution of our State requires that your Governor address you at your regular sessions, to review conditions of the State and make recommendations which he deems necessary or advisable for the welfare of the people of the State. In speaking to you today, I do so as the representative of the Executive Branch of our Government, and as such I have not had, and do not now have, any desire or inclination to influence the selection of personnel or the procedure to be followed by the august bodies of which each of you is such an important part. Separation of the three branches of Government is not only fundamental in our system, but is fundamental in my heart. I am unalterably opposed to any policy, past, present or future, that includes the extension of favor by the Executive to any member of the Legislature for any purpose whatsoever, good or bad. Such a policy weakens not only the structure upon which our great State is built, but tends to weaken the foundations of our national edifice. Not only should the Chief Executive attend to his own duties alone, — he should in no manner engage in any business or activity where the State is a principal with a view toward reaping private and individual gain. This inhibition should extend to the Governor's family and close friends, and I pledge obedience to this principle. To insure maximum service to the people of this State, members of the Legislature and members of the Judiciary should, and I am sure will, adhere strictly to such a principle.

I have said many times, and I repeat, that the two-party system of government is the best yet devised by man. Likewise, I have stoutly maintained that although partisanship is essential in the selection of government officials, once they are chosen by

the people, partisan politics should never dominate or interfere with the general welfare of those people. They are our masters, we their servants, and so long as this great truth remains crystal clear in our minds, we will never fail those to whom we owe our present positions. The people elected us and we are obligated to reflect our gratitude by giving them an honest and efficient government, designed truly to serve all the people. We must turn a deaf ear to selfish pressure groups and individuals whose personal interests outweigh the general welfare.

Let me quickly and earnestly remind you that we are faced with demands from our various agencies for revenue that far exceed our potential or anticipated income, even though the latter must come from our citizens and industries already burdened with taxes dangerously threatening our whole economy. The Constitution requires, and good business sense demands, that we live within our income. Recommendations in this message will be directed toward a sound economy, a business-like administration, and an efficiency in government, which might well result in favorable appraisal of your actions and mine by those to whom we are indebted.

## FINANCE

Living within our income brings us face to face with the present status of finances of the State, alarming as to expense as it is distorted as to revenue. We cannot anticipate our obligations on the basis of the easy income of the past few years. The last fiscal year saw a colossal \$57,000,000 income from all sources, \$32,000,000 of which was collected in taxes. This latter figure is about double the figure of eight years ago. Such income invites temptation to create new services and extend those we have. I am no prophet of adversity, but can visualize its possibility, necessitating a sane and intelligent approach to the future. No imagination can dispel the fact that a national decline in prices or even a slight increase in unemployment would result in a sharp reduction in State revenues, simultaneously calling upon the State for created employment and expansion of its welfare program.

The amount appropriated during the last bi-ennium for welfare exceeded the total amount collected by the State of Utah from all sales tax sources in any bi-ennium to date, except for the last two years. Yet previous Legislatures have determined, and wisely so, that a portion of this sales tax revenue is vitally necessary for other functions of government. We must face the problem squarely. Operations of the State must be placed on a basis which can be met in a normal year with reasonably normal income. For whatever period the abnormal income of the past few years may continue, we must create a reserve to cushion our State and our people against possible recession in prices and employment.

Unless our present taxes and expenditures are stemmed, the State in a more nearly normal economy, well might wreck itself financially by attempted spending in excess of revenues it reasonably could hope to anticipate. The Legislature and the Governor must have the courage and the ability to say "No."

Only two ways present themselves to build the reserve of which I speak. New and greater taxes can be levied, or expenditures can be curtailed through efficiency and economy in our Government. The first course is suicidal in view of present burdensome taxes, which, in no event, could be paid in a normal economy. The alternative — curtailment of unwise expenditures, with elimination of extravagance, is the only solution that will give to our people this reserve to which they are entitled.

### EARMARKING

One of the factors that has led to the distortion in financing has been the practice of earmarking funds. This practice over a period of years has resulted in an abnormal situation where only 20% of the State's income is available for the general fund. Sales, gasoline, income, and franchise taxes, registration funds, liquor profits, fees, licenses and other revenues have been earmarked for specific purposes. Earmarking of public funds has become a practice so common as to inspire in the departments to which they are allocated an air of proprietorship, which almost

invariably results in a determined effort to spend all such funds whether needed or not. Instances have been known to exist where a department has wasted unused earmarked funds because of a fear that failure to spend them all might reflect a lack of need and result in a curtailment for the ensuing period. Others have been known to spend unused funds wastefully, simply to convince the Legislature that a greater fund must be earmarked for the future. A thorough examination of present laws providing for earmarking of funds should be made, and such practices should be eliminated to the greatest extent possible.

In this connection, let me say that we have certain necessary functions of Government, such as administration, roads, health, schools, relief and so forth. I believe it to be elementary that the Legislature should hold absolute control over the amounts expended for these functions, and should determine to what extent the income of our State is appropriated for each function. Since the income of our State comes from all the people, since the State's functions are for the common benefit of all, and since you are their chosen representatives and closest to them, I urge that you exercise the control I have mentioned. I say this in all sincerity and candor, even at the expense of eliminating certain controls over such funds that I might inherit if past practices were continued. The last Legislature made some progress in restoring to itself the control over public expenditures which I believe is rightfully yours. I strongly urge this Legislature to go further in restoring to it this control and authority.

## NEW AND ENLARGED SERVICES

Along with the custom of earmarking has grown the practice of a department of Government setting forth amounts needed for normal functions of the department, then supplementing these amounts with requests for specific appropriations for specific items, which, upon analysis, prove to be nothing more than normal functions themselves. This presents an illusion of economy to the public, obscuring the true picture with camouflage of specific

appropriation. Once such earmarking becomes a part of our budget, it generally becomes fixed, only to grow to a point where the specific appropriations far exceed the so-called basic appropriations and produce the illusion I have mentioned. This is illustrated, for example, in the State Engineer's basis appropriation of \$155,000 for the last bi-ennium, with special supplemental appropriations of \$356,000. Other departments have adopted the same practice. In my opinion, whatever a department needs to carry out its function, is basic, not special, and should be publicly requested as such.

We also must guard against apparently harmless creations of new services initiating with a minor appropriation, conceived perhaps, out of a desire to extend a gesture of good will toward an experiment in Government, or to some group. Almost invariably, these innocent looking appropriations result in a demand for an increase, becoming in a short time unwieldy and burdensome.

Every department or function of State Government which has been created by the Legislature, is entitled to the same equitable and fair consideration. It should not be allowed to increase its activities and expenditures to the point where we find ourselves financially on the horns of a dilemma, necessitating curtailment or elimination of other necessary activities in order to support one operation, the growth of which is nurtured on pressure.

## WELFARE AND WELFARE INSTITUTIONS

The State of Utah is obligated to care for its aged and needy. This obligation must be conditioned upon our ability to provide necessary funds for that purpose. As I have already stated, Welfare Department requests substantially exceed a normal year's sales tax collections. Funds should be allocated to this department with due consideration for the equitable allocation of funds for other necessary functions of state government. I therefore recommend that the Legislature carefully study the entire field of public welfare and assistance. Those who are really in need are

those who should be assisted, — not those who through their own efforts could assist themselves.

There have been abuses in the welfare practices. Without expressing any opinion as to the merits or demerits of the Lien Law, but simply to illustrate my point, such abuses were evidenced by the fact that after enactment of the Law, more than 1900 recipients of benefits voluntarily removed themselves from the assistance rolls, few to have returned a year and a half after its passage.

In the discharge of our solemn obligation to those in need because of adversity, we should shun partisan politics. To interject politics into relief, and to exploit old folks and those in need for political purposes, are, to me, reprehensible practices. To strike fear perennially into the hearts of the aged and infirm, by threat of withdrawal of benefits to which they are entitled, is cruel and inhuman. If you can devise a method that will completely divorce relief from politics, it will have my blessing.

Some years ago Governor Dern was instrumental in procuring a survey prepared by specialists, in which it was recommended that such institutions as the State Hospital, the State Training School at American Fork, the Tuberculosis Sanatorium at Ogden and the Industrial School be placed under the control of a non-partisan board of capable, community-minded citizens, whose duty it was to administer the affairs of each institution for the benefit of those residing at the institutions. In 1941 our Legislature removed the control from these boards, placing it under a politically bi-partisan Welfare Board. I believe that this change in administration has not been to the interests of the institutions or their residents. Politics have filtered into these institutions, and in many cases personnel has been assigned because of political consideration, rather than on a basis of competence and efficiency. I therefore recommend that you place control of these institutions under non-partisan boards, consisting of patriotic citizens appointed by the Governor by and with the consent of the Senate, who shall meet periodically without com-

compensation, except as to necessary travel expense. It is recommended further that such boards, with the consent of the Governor, select a director of each institution, purely on the basis of ability and training and without regard to partisan politics. The director shall have, with the consent of the board, authority to select personnel of competence and ability. I further recommend that our Statutes be amended to allow for appointment of the director of such institutions on the basis of business ability, not necessarily requiring expert medical training.

### STATE ENGINEERING DEPARTMENT

One of the major functions of our State Government is the maintenance and construction of highways. The amount of money expended by the Highway Department is second only to that of Welfare. Opportunities for assistance through federal aid are directly contingent upon the ability of our State to match funds.

The condition of our highways is either an asset or liability to our State. In some of our outlying areas not served by railroads, economic existence depends on good feeder roads for easy interchange of business. No more important problem confronts us than an intelligent, efficiently planned, long range highway program, keyed to our ability to pay, and developed impartially for the benefit of every section of the State.

I believe everyone will agree with me that the past history of our highway program has been unsatisfactory. I believe this is due to a mistaken method of administration. My recommendation to this Legislature is that the present commission be abolished, to be replaced by a seven-man commission, one member to come from each Judicial District of our State, to be appointed by the Governor by and with the consent of the Senate. Such commission should meet at least once each month, its members to be compensated on a per diem basis for actual meetings attended, plus actual and necessary travel expenses. The Commission and the Governor shall formulate and supervise the general policy of the department and should develop a master

plan for a highway program to extend over a period of years. The commission should select an Engineer, with the approval of the Governor, on a basis of experience and competence. He would be compensated adequately in accordance with his abilities and responsibilities.

## EDUCATION

### HIGHER EDUCATIONAL INSTITUTIONS

Chapter 79 of the 1947 Session Laws ostensibly was passed to provide for distribution of available funds among the various junior and senior colleges. A formula was devised to arrive at what is known as a basic budget, providing for retention and use by the colleges of dedicated credits, such as tuition, fees, federal grants, and so forth.

While the law itself merely provides a yardstick to determine distribution of the total legislative appropriation for the support of the institutions, a construction has been placed on the formula calling for an appropriation to the full amount arrived at by the basic budget formula, plus all fees and dedicated credits. I am convinced that the Legislature did not intend such an interpretation. Such construction is basically unsound, and would have the effect of increasing the appropriation to our junior and senior colleges by \$4,200,000. The basic budget formula is a tempting invitation to acquire additional properties, buildings and floor space for no other reason than to increase the amount to be appropriated to an institution.

I recommend the repeal of the entire Section as being basically unsound. A Section calling for appropriations based on efficient need and limited by the ability of the State to finance that need should be substituted. It is further recommended that provision be made whereby the Legislative and Executive branches assume complete control of the so-called dedicated credits, so as to adjust appropriations according to actual need. In addition, I recommend that the same financial and budgetary control be exer-

cised over these institutions as is exercised over every function of our State, and that any attempt to divorce this matter from Legislative or Executive control be strongly resisted.

### PUBLIC INSTRUCTION

Utah enjoys and has enjoyed a high standard of public instruction for many years. In the last few years a tendency has crept into our school system to depart from basic principles of public education. I therefore recommend that you carefully investigate the tendency to experiment in new fields of education, and also to investigate the excessive supervision costs which I believe presently exist.

While I realize that many plans of education have merit, I am wondering whether these so-called special school plans might not take a greater portion of our tax dollar than we can afford, thereby jeopardizing our whole basic public school system. This tax dollar, considering present available funds for education, must be spent on fundamental and basic training where it will do the most good.

### UTAH LIQUOR CONTROL

May I respectfully take this opportunity to report to you, that because of the unsatisfactory administration of the Liquor Control Act, reflected in recent Grand Jury investigations, I deemed it proper to install temporarily a new bi-partisan Liquor Commission on January 4th, 1949. Arrangement was made with two leading auditing firms of the State to conduct an independent inventory of liquor stocks in all stores, agencies and the warehouse of the Commission. In order to accomplish an orderly inventory, it became necessary to ask that all stores and agencies be closed for 72 hours. Sound business practice prompted this action, which I hope meets with your unqualified approval.

The administration of our Liquor Control Act has been a troublesome function in the past, and has been the subject of special investigations by your Legislature, resulting in startling

findings by the Committees appointed. As I have said many times, there is no good way to handle liquor, — only a best way. In a sincere effort to find the best way, I have appointed a non-partisan, representative committee of 20 citizens, chosen from various religious, business, labor and other interested groups, and geographically coming from all parts of the State. I am satisfied that this committee is composed of persons whose only concern is the ultimate welfare of the people of the State. This committee has been requested to study the entire liquor problem as it affects our State and its citizens. The committee has instructions to report to you, with a view toward recommending its findings as the best solution to the question. I sincerely hope that you will approve this course of action on my part. Also, I hope you will support my opinion that the function of the Liquor Control Commission is one of merchandising, to be run, like any business, on a practical business basis, devoid of any partisan politics or outside pressure.

### INSURANCE COMMISSION

At present the operation of our Insurance Department is conducted under the Business Regulation Commission. It is consolidated with such activities as registration, securities, trade commission problems, public service control, and so forth. In my opinion, the office of the Insurance Commissioner should have the dignity, as it does in other states, of an independent agency, with authority to act without subservience to or fear of reprisal from any superior.

I therefore recommend that the Legislature set apart the function of the Insurance Department as an independent agency to be administered by an Insurance Commissioner or Director, who shall be a man qualified and trained in the field of insurance, appointed by the Governor by and with the consent of the Senate.

In doing this, the Business Regulation Commission should be retained to be administered by three Commissioners for flexibility and proper administration of this department. Two of these Commissioners should act as ex-officio members.

## DEPARTMENT OF PUBLICITY AND INDUSTRIAL DEVELOPMENT

A study of our Publicity and Industrial Development Department convinces me that benefits resulting from its operation have not been commensurate with costs of operation. I am also convinced that our financial situation being as it is, the funds expended, with relations to benefits received, would have better served a more useful and necessary purpose. The appropriation for operation of this department for the bi-ennium exceeded \$600,000. Requested funds for the next bi-ennium exceed \$1,186,000. I recommend that this department be abolished and that in lieu of the suggested appropriation, \$100,000 per year be appropriated for direct advertising of our State, the fund to be administered by the Governor, or any other department of government which you may decide can best handle the funds.

## OTHER DEPARTMENTS

With respect to other departments, it is recommended that study be given to the advisability of reducing the number of Commissioners, where possible, retaining a three member Commission only where the Legislature deems it essential and advisable.

## AUDITING

The State of Utah has substantial trust funds, such as State Insurance Funds, State Land Board, and Compensation Funds, which I have been informed have not been audited independently for many years. I understand also that substantial losses have been suffered which should be written off. It is my recommendation that this session of the Legislature investigate this matter thoroughly and make provision for an independent audit of each of these funds, to the end that the people of the State may clearly know the extent and nature of the funds involved.

## BUILDINGS

New building construction requests from various departments of the State exceed \$12,000,000. With the exception of the State Prison, a matter of primary importance, I recommend that no new construction program be inaugurated until (1) normal and efficient needs of the State and its various departments and institutions have been provided for, and (2) until provision has been made for the cushioning reserve about which I have heretofore spoken.

After these two mentioned requirements have been met, any surplus would be available for building construction, keeping in mind the selection of buildings on the basis of greatest need.

## UTAH WATER AND POWER BOARD

Chapter 111 of the 1917 Session Laws created the Utah Water and Power Board for the development and conservation of water assets in our State. Such purposes are not only laudable, but necessary for the future welfare of this State, and should be retained. However, the section mentioned merely provided for a lump sum appropriation for the use of this Board, without consideration as to plan or project being first submitted to the Legislature for examination. The Board was authorized to make surveys and estimates of projects and to thereafter enter into binding construction contracts, with the approval of the Board of Examiners, within the limit of the appropriation. Frankly, I believe that such procedure represents a reversal of sound, business-like methods. I also believe that the Legislature should have the prerogative of examining all plans and projects before State funds are committed. It is my recommendation that the Legislature amend this section in a manner that will retain unto the Legislature complete control over this function and of the funds expended for its operation, requiring that the Utah Water and Power Board submit to the Legislature and to the Governor all specific requests for funds, supplemented by detailed plans and specifications justifying the expenditure of such funds.

## STATE PRISON

The existing condition at the Utah State Prison is a disgrace to the citizens of our State, denying to those who are confined a decent opportunity for rehabilitation. I suggest that the Legislature make a special investigation of these conditions and take immediate steps for the completion of the new prison at the Point of the Mountain.

## TAXES

The present tax burden being as it is, it is my recommendation that no new or additional taxes be imposed upon our citizens.

Income tax laws should be amended to eliminate the necessity for notarizing tax returns. In lieu thereof, the signature requirements and attendant responsibility should be made to conform to those now used by the Federal Government. Likewise, the Statute of Limitations on additional assessments on income tax returns should be increased to conform to that found in the Federal Statutes.

## STATUTES OF LIMITATIONS ON PUBLIC OFFICIALS

A public official is charged with a public trust. The seriousness of his relationship to the people who permit him to handle their affairs and their funds is such that he should be accountable for derelictions until such time as his activities can be investigated. Otherwise, he should not run for office. Present statutes of limitation relating to public offenses committed by public officials are entirely too short. The period of time over which a public official shall be held accountable for misappropriation of public funds or other similar derelictions in duty should be doubled or trebled. It is my recommendation that such statutes of limitation receive your careful attention with a view towards their extension.

## GRAND JURY AMENDMENT

The people of the State endorsed a Constitutional Amendment at the last election, looking toward a revision of the Grand

Jury system. Since this was a mandate of the people, it should, and will no doubt, receive your attention. It is a problem for the Legislature, which I merely mention as being your prerogative, without recommendation from the Executive branch. The same observation applies to the matter of non-partisan selection of the Judiciary which the people endorsed in a previous election.

### REAPPORTIONMENT OF REPRESENTATIVES

It has been brought to my attention that some study should be given to reapportionment of State representatives based on population. During recent years, population shifts have been numerous and varied, but generally speaking, the population of Utah has increased. There may be a need for increase of representation throughout the State, depending upon the increase in population. It is my recommendation that attention be given to the Constitutional provision so as to more nearly adhere to the letter and spirit of the law.

In this connection, the present Legislature should take whatever steps may be necessary in order that reapportionment can be effected by the next regular session of the Legislature, perhaps taking advantage of the next Federal census so as to minimize the cost of such reapportionment.

### COLORADO RIVER COMPACT

Our future industrial and agricultural growth is substantially dependent upon the development of projects upon the Colorado River, which when fully and finally completed will provide us with much needed power and water. To you will be presented for ratification the upper Colorado River Basin Compact.

Last October, the Compact was signed by all five of the upper basin states. If ratified by these states and the Congress of the United States, it will become the law of the River. I urge you to give to the compact your most careful and studied consideration, for upon its final ratification you will have fixed for all time Utah's rights to the waters of the Colorado.

## JUVENILE COURTS

Except in some few instances, particularly in populous areas, our present Juvenile Court system now costing the State approximately \$260,000 biennially, is expensive and too frequently inefficient, and unproductive of the benefits for which it was initiated. Recommendation is made that a complete study be conducted with respect to this system. Serious consideration should be given to return the functions of these Courts to the District Courts, which are composed of experienced jurists chosen by the people and who are fully competent to sit in judgment on juvenile matters. These district Judges are equally capable of surrounding themselves with limitations on publicity, cooperation with local police, parents, welfare groups and others for the ultimate benefit and welfare of our children.

## STATE OFFICIALS AND EMPLOYEES

In the past, a few members of our State Government have accepted fees from individuals, groups, or corporations for services rendered in writing, sponsoring, or supporting Legislation. Likewise, departments of government have created pressure lobbies to gain an undue advantage over other departments. I believe such practices to be wrong and savor too much of using the prestige of position with the State to influence the Legislative branch of government. The evil of such practices should receive your very serious attention.

I believe it is false economy to underpay those who serve the State, the same as is true in any other organization or business. If we are to get and keep qualified people, we must pay them adequately. It is recommended that a survey be made as to compensation paid to elective and appointive officials and employees, and that increases in pay be provided in cases where salaries are below the standards in industry generally. In my opinion, the attraction of competent workers always reduces the number of personnel and thus accomplishes an ultimate saving in cost.

## CONCLUSION

I have endeavored in the foregoing message to direct your attention to some of the matters which I feel important to the welfare of the people of this state. No doubt, as your session progresses, I will find it necessary to solicit your indulgence in bringing other matters of importance to your attention.

Many of us are new in the field of State government, and we should move forward carefully and cautiously. Every proposal should receive thorough and thoughtful consideration, with emphasis placed on the elimination of haste. Far better that we defer Legislation than to pass laws that will not be for the benefit of all the people of the State. Legislative sessions are all too short, considering the magnitude of the job you are undertaking. I am sure you will survey every possible phase of suggested legislation. If time does not permit a searching inquiry, I am prepared to ask you to return in Special Session next fall, and in this connection may I respectfully suggest that no law at all is better than a bad law.

I can assure you that I have taken office with humility, and with but one desire. — to give every ounce of energy I have to the people of this State, — ever mindful that my duty to them is greater than to self or Party. I pledge myself to extend every effort to enforce the law, — firmly but fairly, regardless of personality and without fear or favor. There can be no compromise with any law, and winking at it only breeds disrespect for all laws. If there are violations of existing laws during my administration, I shall expect all those charged with law enforcement to do their duty in bringing to justice those who offend against our laws. Many laws have been violated openly, flagrantly and continuously. Some seem to have little public support. Without public support, they should be eliminated either by the Legislature or by the people themselves under accepted Constitutional and statutory procedures.

Many requests have come to me urging support of specific legislation desired by certain groups. I have not endeavored to

cover any of these in this message, principally because some are unrelated to the common welfare. Any and all suggested legislation of interest to the people is of interest to me, and may be the subject of future messages from time to time.

I assure you the fullest cooperation from me personally and from my office and all of the departments and agencies of our State. Let us join together in mutual cooperation, without regard to partisan politics, influenced only by our mutual obligation to give all the people of the State a sound, careful, efficient and honest administration of their affairs.

The Joint Committee then escorted Governor Lee to his chambers.

On motion of Senator Fowles the President of the Senate announced the Joint Convention dissolved.

The Senate reassembled at 11:25 A.M. with all Senators present except Senator Bailey, excused.

January 24, 1949

Mr. President :

We, your Committee on Revision of the Journal, respectfully report that we have read the Journal for the eleventh day and find it correct with minor amendments noted on the final copy.

Respectfully,

P. S. MARTHAKIS  
LEWIS H. LARSEN

Report adopted and filed.

On motion of Senator Marthakis, the Senate recessed to meet with the House in Joint Convention, to receive the Governor's Budget Message.

### JOINT CONVENTION

Roll call showed a quorum of both Senate and House members present.

Prayer by the Chaplain of the Senate.

On motion of Representative Larsen the President of the Senate appointed a joint committee consisting of Senator Brockbank and Representatives Brotherson and Cullimore to notify the Governor that the Legislature is in Joint Convention and ready to hear his message.

The Joint Committee returned escorting His Excellency, Governor J. Bracken Lee, who was presented to the Joint Convention by President Hopkin.

The Governor then delivered the following message:

### GOVERNOR'S BUDGET MESSAGE

*Ladies and Gentlemen of the Legislature:*

Today I have the honor of addressing you for the second time. My remarks will be directed toward a frank discussion of budget matters — matters which are so vital to the future welfare of our people. To discuss them is not an easy task. In the nature of things, such a discussion in all probability will fail to receive universal approval or acclaim. You may rest assured, however, that what I say will spring from an intense desire to suggest to you an over-all budget plan which I believe to be most beneficial to all the people of the State in light of anticipated income.

As I have said many times, government should live within its income. Certain fundamental and essential functions of government must receive priority in the expenditure of our revenues. If, in satisfying these essential and universally beneficial functions, the income of the State is exhausted, other less important functions, must be deferred until such time as the State can afford to pay for them. Those suffering from unfortunate circumstances or adversity must receive assistance to the exclusion of less pressing demands on government, if we are to satisfy our obligations to those whom we represent.

You and I would like to have more and better trains, houses, churches, educational facilities, cultural undertakings, relief measures and other advantages for our citizens. We would like to have more of everything good for our people generally. But just as a family income determines the volume and quality of the necessities of life which can be given to such members, so must government income determine how far we can go in furnishing community necessities. Let us be mindful of the fact that per capita we are not a rich state. Our taxpayers already are burdened to the point where we must give them one hundred cents worth of administration for every dollar entrusted by them to us — and such administration must be directed toward the welfare of all of the people of the State.

Many groups and individuals have honestly, conscientiously and for the most part very thoughtfully created and fostered meritorious plans for the betterment of our people. This is true even though at first blush they may appear to be beneficial only to a class. Some of these plans require the expenditures of funds which, if encouraged, may seriously affect the infirm, the aged, or the normal and necessary functions of government. Current funds requested aggregate a staggering \$81,520,000 compared with \$49,520,000 for the last biennium. No stretch of the imagination can anticipate a State income the size of the current request. Of neces-

sity, therefore, my remarks must be directed toward pointing out the impossibility of committing our taxpayers to such a colossal figure. Of necessity, also, my recommendations will disappoint the proponents of what I know are spendid and desirable projects. But I am convinced that considering the common welfare, these proponents will bear with me when I suggest curtailments necessary to eliminate impossible individual and collective demands.

I know the maximum we can anticipate in the way of income, so I know approximately what we can spend. Constitutionally, we are prevented from spending more than our income, so that the pieces in our budgetary jig-saw puzzle must be so fashioned as to drop into place in order to form a clear picture of financial stability. I earnestly hope that wherever I have recommended an amount less than that requested by a department, those vitally interested in such request will understand clearly that such recommendation is motivated by a belief on my part that such reduction is imperative in view of my often repeated assertion that the people of Utah cannot bear an increase in their tax burden at this time. Common sense dictates that we simply cannot spend \$81,520,000 during the next biennium. To do so, in my humble opinion, would constitute failure in our obligation to the taxpayer, and a complete refusal to adhere to the wishes of the people.

For your information, there is submitted with this address a detailed summary of actual expenditures made by various departments of State government for the years from June 30, 1945 to June 30, 1948, plus an estimate of expenditures for the year ending June 30, 1949, based upon appropriations authorized by previous sessions of the Legislature. The requests of the various Departments about which I have spoken, also are detailed for your information. In addition, the actual General Fund revenues for the same years are presented, out of which expenditures were made; also estimated revenues for the ensuing biennium.

The amounts which are recommended to be appropriated to these various departments and institutions aggregate a figure beyond which there is danger to our financial structure, in the light of our ability to pay, and in the light of recommendations made in my initial message to you that a cushioning reserve be created for a possible economic rainy day which might result from decreased revenues, increased demands for employment or other unforeseeable circumstance. The wisdom in preparing against such circumstance is illustrated clearly in the action of the 27th Legislature, which required that the Mine Occupation Tax should be administered so as to create a reserve against potential decrease in revenue from that source. The prolonged work stoppage at the Utah Copper Division of the Kennecott Copper Corporation has imperiled dangerously the receipts for this year from that source, and were it not for the foresight of the last session of the Legislature in creating the reserve device of which I speak, the impact upon our revenues for the forthcoming biennium would have been substantially increased in seriousness.

In making my recommendations to you, I earnestly have in mind strengthening our financial structure against the day when adversity may strike by continuing the policy already initiated by your Bodies of creating and building necessary reserves.

## DEPARTMENTAL AND INSTITUTIONAL REQUESTS

It appears to me that there has developed over a period of years a situation wherein departmental and institutional requests are based on the theory that the more they request the more they will receive.

This fact is driven home when you consider that such requests for the next biennium total \$81,520,000, as compared with \$49,520,000 for the last biennium appropriations. This is a staggering increase of \$32,000,000. Obviously, the departments and institutions have no hope of obtaining such substantial increases. It is incoceivable to me that the individual or collective thinking behind such aggregate requests could remotely picture the ability of the State to meet them.

I strongly recommend that when you study the appropriations bill that you impress upon these departments and institutions that future requests must be made upon a basis of reasonable need commensurate with the ability of the State to pay.

I am advised that our Finance Department estimates there will be a General Fund surplus at the end of the present biennium of \$1,520,000. This surplus will be reduced, however, by any General Fund deficiency appropriations which the Legislature may see fit to authorize. The estimated General Fund revenue for the next biennium will amount to \$11,776,000, making a total of General Fund revenue available for the forthcoming biennium of \$13,280,000. In passing, I might comment that we entered upon this present biennium with a General Fund surplus of \$1,700,000, and during the biennium in addition to appropriating all current revenues have reduced this surplus to \$1,500,000.

The recommended expenditures in the budget document call for general fund appropriations of \$12,580,000 which will produce at the end of the next biennium an estimated surplus of only \$700,000. This is too dangerously close to provide a margin of safety for the recommended expenditures without even considering a cushioning reserve.

However, I have hopes that during the ensuing two years necessary and proper savings can be made by requiring all departments to live well within their budgets and substantially increase, rather than deplete, this estimated surplus. Broadly speaking, our General Fund is the only source of revenue available to maintain the usual and normal departments of state, the prison, state courts, public health, and the institutions of higher learning. Practically all the other revenues of the State have been earmarked for such specific activities as welfare and welfare institutions, highways, and public schools.

## EARMARKING

In harmony with my previous message to the Legislature, wherein I suggested a careful scrutiny of the practice of earmarking public funds, may I direct your attention to the fact that out of my total recommended expenditure in excess of \$43,500,000, only \$12,500,000 is available for the General Fund. The remaining \$31,000,000 will come from earmarked funds. To my mind, this creates an undue restraint upon the Legislature and Executive branches of the government; and one which cannot help but create serious financial distortions in the foreseeable future.

## ADMINISTRATIVE DEPARTMENTS

Your attention is directed to the fact that in every instance my recommendation for the appropriation to administrative departments is substantially less than the appropriations for the last biennium. I am satisfied that with the installation of proper efficiency and the elimination of waste and extravagances those administrative departments which are under the direct supervision of my office can operate within the amounts which I have requested.

## DUPLICATION OF SERVICES

In the brief opportunity which has been afforded me to examine into the administrative affairs since January 3, it has been forcibly demonstrated that there are substantial and expensive duplications of service within our State. Those that have so far been brought to light, I have endeavored to adjust in my budget requests. As a noteworthy example let me cite that we have at least four separate departments under separate administration dealing with highway safety. These are a department in the State Road Commission, a department in the Tax Commission, a department in Highway Patrol, and a separate and individual department in the Utah Safety Council. In my budget request I have theoretically created under the jurisdiction of the State Highway Patrol, a department of Safety, Drivers' Licenses, and Inspection. For this consolidated department I have requested an appropriation of \$200,000 for the biennium. Such a consolidation will result in a saving of at least \$200,000 for the biennium. Some statutory amendments, which I shall submit to you, will be necessary to affect this. In addition to incorporating this \$200,000 saving the proposed legislation will bring highway safety and all related subjects under a single control and will eliminate substantial duplications now apparent. I would suggest that in the consideration of this matter the State should retain the extremely effective and valuable advice of the present Safety Council, which is composed of patriotic, interested citizens.

In passing, there is unquestionably substantial duplications existing in our vocational education program, our agricultural activities, and the Extension Division of the Utah State Agricultural College. It occurs to me, that all of the educational activities directed toward livestock and agriculture should and can be concentrated under our college extension division. This division is set up for the specific purpose of exploring new

and better agricultural and farming methods, the teaching of accepted and new practices and the dissemination of pertinent related agricultural information to our citizens. This will eliminate the conflict, which invariably follows overlapping authority, and will effect a substantial saving to our citizens.

## FEDERAL AID PROGRAMS

I have recommended certain reductions in appropriations for some so-called Federal aid programs and suggest a careful scrutiny of such programs now and in the future. The State, in some instances, has been lead into these jointly participating programs on the assumption that practically all of the cost will be carried by the Federal government with the State paying only a minor share. However, as the program develops, the Federal participation often is reduced and the State is faced with the necessity of using more of its own funds to continue the work. A specific example of this is the Rehabilitation program wherein the last Congress reduced the Federal appropriations substantially and thus forced the State of Utah to either carry an additional portion of the total cost or restrict the activities. Unfortunately, the tendency is always to maintain and even increase the activities under these programs and throw the resultant burden on our citizens. Another example is the purely Federal program of "Veterans-on-the-Job Training." In this case the State was merely requested to exercise a nominal supervision over this program, the Federal government carrying the brunt of the activity. Although in the budget document you will notice that an increase of 70% is being requested from State funds to carry on the nominal supervision which the State was originally requested to assume.

## NEW SERVICES

I have no quarrel with the philosophy of the many new and worthy services which our State has embarked upon. In fact, were our citizens able, I would say that we should extend to the handicapped every conceivable service and advantage. However, the duty of the Legislature and myself is to fairly and equitably consider every citizen of this State. I have recommended certain definite curtailments of recent new services and the elimination of increased expenditures for them. No matter how meritorious these services are it is beyond the ability of the people of Utah to pay for them. For example, in the biennium ended June 30, 1945, we expended only \$65,000 for the Rehabilitation program under the Superintendent of Public Instruction. The request for the next biennium is \$410,000. For vocational education under the Department of Public Instruction we expended in the 1944-45 biennium \$86,000. The request is now \$171,000. In the biennium ended June 30, 1947 \$275,000 was appropriated to the Salt Lake Area Vocational School. All of this money was forwarded without expenditure into the present biennium. As of June 30, 1948, only \$4,000 had been expended. Nevertheless, the present request for this activity is \$1,555,826. I have recommended no appropriation for this activity not as an expression of its lack of merit but because there is no money in the General Fund for such an activity. Such monies must of necessity be provided for by new taxes, which, in

my opinion, are unthinkable. The Legislature has set up in Utah County the Central Utah Vocational School which in the light of Geneva Steel Company and other industry has been most effective. But this request represents an amount beyond our ability to pay. The initial appropriation made in the present biennium for this activity was \$100,000. The requested appropriation, based upon an extensive building program and enlarged services, now is \$325,000. I have recommended the same appropriation as was allowed by the previous session, and respectfully suggest that this activity not be permitted to expand beyond our ability to pay.

Another case in point is the Utah Institute of Fine Arts. For the biennium ended June 30, 1945, the Legislature made an appropriation of \$20,000 for this highly creditable activity. However, in keeping with the mushrooming growth of these new services the appropriation request this year is \$355,000. I have recommended going back to the initial amount of \$20,000.

In the biennium ended June 30, 1945, an appropriation was made to the State Health Service of \$15,000, with a Federal grant of \$16,000. In the next biennium the appropriation was \$405,000, with a Federal grant of only \$7,000. The last biennium saw an appropriation of \$580,000, without a Federal grant. I recommended that this be cut back to \$500,000, simply because we cannot afford to pay more.

#### UTAH VETERANS AFFAIRS

In the biennium ended June 30, 1947, \$15,000 was appropriated to the Utah Veterans' Administration under the theory that it would serve as a liaison agency between the State and the various veterans' organizations. The last Legislature appropriated \$150,000 for this operation. The present Legislature is requested to appropriate \$147,000. A personal investigation into this department indicated to me that its work largely duplicates that conducted by various recognized veterans' organizations. It now represents a wasteful extravagance of State monies, and is not being wholly directed for the purpose for which it was organized. I have recommended to you that this amount be reduced to \$25,000, and that the functions of the department be restricted to that of liaison only.

#### UTAH WATER AND POWER BOARD

As I recommended to you in my initial message, necessary changes should be made in the statute covering the Utah Water and Power Board to permit you to exercise control over the planning of projects and the appropriating of State Funds for them. In harmony with this, I have recommended no appropriation for the revolving fund for this board. I do not believe this will render any hardship since only about \$500,000, of the appropriation of \$1,000,000, for construction made by the 1947 session has been allocated to specific projects. This leaves at the end of 1½ years an unallocated amount substantially equal to that expended so far. In passing, I might say that I have reduced by \$38,000 the approp-

riation for administration of this fund to \$160,000, this administration cost still seems somewhat excessive in comparison with the amounts actually allocated. I feel I should not pass up this subject without saying to you again that the functions and theory of the Utah Water and Power Board are highly laudable and should be continued. But the proper functioning of our government requires they be subjected to control and scrutiny of the Legislative branch.

## JUVENILE COURTS

No recommendation is made for an appropriation to the Juvenile Court System, it being my hope that the Legislature will make a study of the system, and the recommendations made in my initial message, with a view toward correcting the present inadequacies of the system, and of transferring to the District Courts whatever functions of the Juvenile Court system the Legislature deems advisable for the welfare of our children. Should the Legislature not see fit to abolish this activity then necessary provisions must be made for its continuance upon whatever scale you deem wise.

## DEPARTMENT OF PUBLICITY AND INDUSTRIAL DEVELOPMENT

I have made no recommendation for an appropriation to the Publicity and Industrial Development Department. This is in harmony with my suggestion that this department be abolished and in lieu thereof, a modest advertising appropriation be substituted. Actual expenditures for this department during 18 months of the present biennium were in excess of \$882,000, which, in my opinion, did not in any measure produce comparable benefit to our State. Should you adopt my recommendation as to the abolishment of this department and create a new advertising agency at much less expense, it will be necessary to provide Legislation and an appropriation for that agency.

## INSTITUTIONS OF HIGHER EDUCATION

I have suggested to you the repeal of Title 79, 1947 Session Laws, carrying the so-called basic budget formula and which also gives to these institutions exclusive control over dedicated credits. However, as long as this Title is the law, it is necessary for me to recommend to you a lump sum appropriation for all senior and junior colleges. I have so recommended the amount of \$5,700,000, plus each institution's departmental collections or dedicated credits, the total of which for last year was \$4,200,000.

I am firmly grounded upon the theory that appropriation to any department or institution should be based upon reasonable need limited only by the ability of the State to pay. Their requests were made solely on a mathematical calculation of an amount arrived at using the basic budget formula. After the answer was arrived at through this formula each institution then broke down that amount and arrived at a theoretical detail of personnel services, current expenses, travel, and so forth:

the total of which agrees exactly with the total determined under the basic budget formula. To my mind, this means that neither the Governor nor your respective Appropriations Committees will have before them any itemization as to the needs of the institution, but rather an arbitrary guess resulting from the application of an arbitrary formula. This leaves both of us without any information as to the actual need of the institution or as to the comparative need between institutions due to special or unusual circumstances.

The interpretation placed upon that section of Title 79, which reserves to these institutions use of their dedicated credits and autonomous use of funds, has resulted in a situation whereby it required a special request of your Finance Department to determine the actual departmental collections or dedicated credits received by the various institutions for the last fiscal year. This information disclosed the interesting situation wherein one institution granted an appropriation in the last biennium of \$3,050,000 (based upon an estimated departmental collection of \$3,074,000), actually will collect almost \$3,700,000 from departmental collections, or \$700,000 in excess of the amount considered by the Legislature when it arrived at this appropriation two years ago. Another institution received \$176,000 as compared with the estimated figure of \$100,000 considered by the Legislature. Another institution obtained more than \$300,000 for the one year of the biennium, as compared with an estimate furnished our bodies two years ago of only \$476,000 for the two years. Truly, each institution is entitled to the benefit of, and possibly some advantage from, its departmental collections, but, nevertheless, those collections are funds which should be used in determining the final appropriation. In other words, the measure of need should be determined. Then we should deduct the departmental collections and take them into consideration before making a final appropriation, based on our ability to pay.

## WELFARE

I am recommending a reduced appropriation for welfare administration costs. The amount for general assistance is the same as for the last biennium, plus the deficit appropriation already made and now being considered. I am making this as a temporary recommendation in view of the fact that it is the concensus of your Legislative Council and myself that a careful investigation should be made immediately as to the entire picture of the welfare policy insofar as it affects our State and all of our citizens. I have requested Dr. A. C. Lambert, a student in that field, to make some preliminary investigations for me and upon receipt of his report I will communicate further with this session on this particular field.

## TEACHERS' RETIREMENT FUND

The State has an obligation to its teachers under the Teachers' Retirement fund which requires that the State appropriate matching amounts paid by individual contributors. Our State has never maintained its relative proportion of appropriations. The practice has been to ap-

propriate \$750,000 each biennium, and that is the sum I am recommending again this year and, still permit us to stay within our income. I recommend, however, that a study be made of this fund, either by the present Legislature or during the interim between sessions, to adopt a firm and definite policy setting up for the future, procedure for the State to maintain its obligation in full. If it should be that the requirement upon our State is greater than our ability to carry, then we should fairly and honestly review the fundamental obligation and adjust the requirements in such a manner that we may keep faith with the individuals contributing monthly to the fund.

### BUILDING PROGRAM

I have made no specific recommendation for a building program and, as I indicated in my opening message, this program should be considered after the normal expenses of government have been taken care of and necessary cushioning reserves created. I might add, however, that as of December 31, 1948 there is still an unexpended balance of more than \$4,310,000 on building programs authorized in your 1947 session.

### REVENUE

You are being furnished with an estimate of the potential revenues for the next biennium. May I urge you to consider the fact that these figures are estimates only and that a slight change in general economy could prove disastrous to an appropriation policy that does not contemplate a reserve for emergencies. It is common knowledge that, slight as it may be, there has been a reduction in the cost of living. Trends and theories indicate this reduction will continue. Sales tax arises almost directly from the factors which go to makeup the cost of living. A decrease of 10% in the cost of living would have the impact of reducing by \$2,600,000 the estimated sales tax revenue.

Other unforeseen conditions may likewise adversely affect these revenue increases. For example, it has been estimated that the work stoppage at Utah Copper Division of Kennecott Copper Corporation is costing the State, schools, and counties approximately \$368,000 per month in aggregate taxes. This means that it has already cost us substantial funds. A prolongation of this controversy or the inception of any other large-scale controversy will directly bear upon the revenues from which you may appropriate; and, so I say to you, that in considering your potential revenue income for the biennium, which starts next July, we must jointly keep in mind that this is an estimate based upon current economic conditions and one which may be substantially reduced by both foreseeable and unforeseeable conditions. The State of Utah must develop a substantial reserve not only for its General Fund, but also for its so-called "earmarked" funds. We presently have only one General Fund reserve arising from the Mine Occupation Tax, which will be called upon in this present year to help sustain our equilibrium and one reserve on welfare to the amount of only \$5,000,000 which would be only sufficient to care for six months' expenditures at the present basis.

## CONCLUSION

In the nature of things, a budget message is at best uninspiring. I am grateful to you for your indulgence in giving me your attention at this meeting, knowing that you could read what I have to say later at your leisure. Your presence reflects your interest in your State and its people, and as I have said before, our task is mutual and calls for harmony and cooperation between the Legislative and Executive branches. I know that some of you may disagree with me on matters of policy, but I am sure that we are all agreed that our every effort should be directed with a view toward benefiting those we represent. I repeat that the welfare of the people comes before our own personal likes or dislikes, and if we adhere to such a philosophy I know we cannot go wrong. I will cooperate in every way with your Appropriations Committee, and extend to you and all other committees the facilities of my own office and the administrative departments with which I am connected. I will be happy to consult with you at all times, and can assure you that I will be the first to admit it when I am wrong.

I may have been unduly lengthy in this message, but I keenly feel the vital importance of the relationship between wise appropriations and the financial stability of our State. Like you, I am deeply concerned with the public trust that is ours, and feel that we should administer it together so as to make our State grow strong and healthy. I am sure in my own mind that the time has come when curbs should be placed upon excessive expenditures, and rigid economies initiated. At the risk of repetition and in conclusion may I repeat one paragraph from my previous message to you:

"Unless our present taxes and expenditures are stemmed, the State in a more nearly normal economy will might wreck itself financially by attempted spending in excess of revenues it reasonably could hope to anticipate. The Legislature and the Governor must have the courage and the ability to say 'No'."

The Joint Committee then escorted Governor Lee to his chambers.

On motion of Senator Marthakis the President of the Senate announced the Joint Convention was dissolved.

The Senate reassembled at 3:10 p.m. with all Senators present except Senator Bailey, excused.

President Hopkin appointed Senators Gibbons and Reese to revise the Journal for the week beginning January 24, 1949.

## COMMUNICATIONS FROM THE HOUSE

January 20, 1949

Mr. President :

## COMMUNICATIONS

February 9, 1949

Hon. Alonzo F. Hopkin  
President Utah Senate  
Building

Dear President Hopkin:

At a meeting of the Board of Examiners held on Saturday, February 5, 1949, the State Engineering Commission reported that it has over-spent its budget for maintenance of roads to the extent of approximately \$235,000.00. They also reported that if the present difficult weather conditions continue for another month, they will overspend their budget for maintenance by an additional \$100,000.00. In other words, the Engineering Commission is faced with a probable deficit for maintenance of roads in an amount of approximately \$335,000.00.

Because of the announced policy of the Board of Examiners not to allow any deficit appropriations while the Legislature is in session, the Engineering Commission was advised that this matter would be brought to the attention of both Houses.

The Board of Examiners suggests that you refer this matter to the Joint Committee on Appropriations and Claims.

Yours very truly,

STATE BOARD OF EXAMINERS

J. Bracken Lee

Heber Bennion, Jr.

Clinton D. Vernon

Be it resolved by the Legislature of the State of Utah:

WHEREAS, the all wise Creator in His infinite wisdom has seen fit to call to his eternal reward our esteemed colleague and warm friend, Senator J. Arthur Bailey, and

WHEREAS, we the members of the twenty-eighth session of the Legislature of the state of Utah are deeply grieved to learn of his untimely passing and do keenly sympathize with his devoted wife and family in their bereavement,

NOW, THEREFORE, BE IT RESOLVED, that the Legislature of the state of Utah extend to Mrs. Ruth Bailey and to her family our sincere sympathy and condolence in this hour of bereavement.

**BE IT FURTHER RESOLVED**, that the Secretary of State send a copy of this Resolution to Mrs. Ruth Bailey and her family.

On motion of Senator Day, the poem of G. Gwen Kelsey, Senate messenger, in tribute to the late Senator J. Arthur Bailey, was ordered printed in the Senate Journal.

The finest tribute we can pay  
 Unto our Senator, dead today,  
 Is not a wreath of flowers, white or red,  
 In memory of the life he gave,  
 It is to stand beside his chair  
 Each with bowed head reflecting there,  
 Just what it is he would have us do,  
 And pledge ourselves as comrades true.

Our hearts must be the roses red,  
 We place above our Senator's head,  
 Today beside his chair we must  
 Renew allegiance in his trust,  
 Must bare our heads and humbly say,  
 We hold his philosophy dear today  
 And stand, as he has stood, to die,  
 To keep his party standards high.

The finest tribute we can pay,  
 Unto our Senator dead today,  
 Is to do the things he would have done,  
 Had not the master called him home.

Dear Mr. President:

I am returning to your Honorable Body *Senate Bill No. 212*, entitled, "AN ACT APPROPRIATING \$40,000.00 TO THE UTAH STATE INSTITUTE OF FINE ARTS FOR THE UTAH SYMPHONY ORCHESTRA," without my approval.

The reason for the veto action on this measure is basically the same as that expressed by me in my disapproval of *H. B. No. 2*. In brief, the reason is that certain fundamental and essential functions of govern-

ment must receive priority in the expenditure of our revenues, and that the State must live within its income.

A copy of the veto message concerning *H. B. No. 2* is attached.

Respectfully yours,

J. BRACKEN LEE,

Governor.

Communication filed.

On motion of Senator Melich, consideration of *S. B. No. 212*, being before the Senate by reason of the Governor's veto message, was made a special order of business for Tuesday, February, 15, 1949 at 3:00 p.m. to follow the consideration of *S. J. R. No. 1*.

## COMMUNICATIONS

### STATE OF UTAH EXECUTIVE DEPARTMENT Secretary of State's Office

I, HEBER BENNION, JR., SECRETARY OF STATE OF THE STATE OF UTAH, DO HEREBY CERTIFY THAT His Excellency, J. Bracken Lee, Governor of the State of Utah, in pursuance of law did issue on February 14, 1949, a Proclamation appointing Mrs. A. C. Jensen of Sandy, Salt Lake County, Utah, to serve as a member of the State Senate from the Sixth Senatorial District for the remainder of the unexpired term of Honorable J. Arthur Bailey, deceased, ending December 31, 1952.

AS APPEARS of record IN MY OFFICE.

IN WITNESS WHEREOF, I HAVE HEREUNTO SET MY HAND AND AFFIXED THE GREAT SEAL OF THE STATE OF UTAH AT SALT LAKE CITY, THIS 14th DAY OF FEBRUARY, 1949.

HEBER BENNION, JR.,

Communication filed.

Secretary of State

Chief Justice Eugene E. Pratt, of the Supreme Court of Utah, then administered the oath of office to Mrs. A. C. Jensen.

On motion of Senators Fowles, a record of the funeral services of the late Senator J. Arthur Bailey, a member of the Twenty-eighth Session of the Utah State Legislature were entered in the Journal:

Services were held at 260 East South Temple on Monday, February 14, 1949 at 2:00 p.m., the Senate attending in a body.

The services were conducted by Senate Chaplain, C. Clarence Neslen.

The invocation was offered by J. Thomas Fyans, bishop, Butler Ward, Church of Jesus Christ of Latter-day Saints, and Elmer Christensen, former bishop, East Mill Creek Ward, pronounced the benediction.

His Excellency Governor J. Bracken Lee and Hon. Delbert M. Draper, one the late Senator Bailey's law partners, eulogized Senator J. Arthur Bailey.

Resolutions of condolence were read by Senate President Alonzo F. Hopkin, representing the Utah State Senate, Fred L. Finlinson, representing the Salt Lake County Bar Association, and Parnell Black, chairman, Salt Lake County Democratic Committee.

Active pallbearers were Russell M. Miller, J. Richard Mulliner, David T. Lewis, R. B. Porter, Jr., Fred L. Finlinson and H. F. Benson, Jr.

Burial was in the Wasatch Lawn Memorial Park.

On motion of Senator Marthakis, the resolution of respect and condolence by the Committee of the Salt Lake County Democratic Committee was ordered printed in the Journal:

In the very May of life another heart has ceased to beat -night has fallen on noon and in our sorrow we could well embrace the poetic philosophy:

"Ah Love! Could you and I with Him conspire  
To Grasp this sorry Scheme of Things entire,  
Would not we shatter it to bits -- and then  
Re-mould it nearer to the Heart's Desire!"

But "Man that is born of a woman is of few days and full of trouble. He cometh forth like a flower and is cut down. He fleeth also as a shadow and continueth not. Thou has appointeth his bounds that he cannot pass." It is decreed unto all men once to die and no man can forfeit his proper share in the inheritance of the grave. Truly, death is the conqueror of all men. He is in his operations alike irrespective of age, of sex, of condition, of time, of circumstance, of occasion.

During that short span of days, which we in mortality call life, our desires, tastes, talent, and associations lead us into friendships, ambitions, love, trouble and accomplishments. We note differences in men, and make classifications and distinctions between them. But such things

as dislikes, disagreements and intolerances are transitory. A wise creator providentially provided that only those thoughts and traits that are clean and pure and true shall be permitted to survive to exert an influence upon future generations. And so an irrevocable decree issued from the throne of all wisdom that man must die, and those things which are of the earth shall to the earth return. When man shuffles off his mortal coil, the petty things, the weaknesses, the frailties of his life, the sins of his body, those things which man does, or which he seems to be, because of the necessity of expressing himself through a physical medium, those things like his mortal breath end with mortal death.

The only true appraisal of a man therefore is an appraisal of those ambitions, ideals and reactions which we commonly call Things of the Spirit, where the mouth speaketh out of the abundance of the heart.

Such an appraisal is the measure of a man in those traits and characteristics which endure after death and stamp their imprint and leave their influence upon future generations.

On February 10, 1949, the monarch of the tomb stretched forth an irresistible hand and took into his own domain all that was earthly of John Arthur Bailey. But the real Art, the personality and the individuality that we knew and admired and loved, He could not take from us. That remains as a part of the warp and woof of our lives. He is an integral part of the thoughts, the outlook, the achievements, and the visions of all of us who knew him. Indelibly he stamped himself upon our hearts and upon our minds.

He loved his country, his fellow men, his wife and children, and was loved by one and all alike. This is enough. The longest life contains no more. This fills the vase of joy. John Arthur Bailey was a kind and loving husband, a good father, a generous neighbor, an honest man, and these build a monument of glory upon the humblest grave. He was always a child, sincere and frank, as full of hope as spring.

He divided all time into today and tomorrow. Tomorrow was without a cloud and of tomorrow he borrowed sunshine for today.

His loyalty to his family, his causes, his principles, his ideals and friends transcended all of his emotions, virtues and vices. He bore no rancor, disdained all disloyal arts, did his public duty uprightly and died at his work and in the love and affection of all.

It is in the hope that we might preserve for those who follow us a glimpse of the noble soul who has outsoared the shadow of our night, a member of the Bar, a member of the State Senate and a former Chairman of the Salt Lake County Democratic Committee, that we present these memorial resolutions:

**BE IT RESOLVED** that we express our profound sorrow at the passing of the Honorable John Arthur Bailey, and acknowledge our gratitude for his contributions to our lives and our understandings, and for an example of fealty to the highest ideals and traditions of our time and generation.

Let this tribute and this resolution be entered upon the records of the Salt Lake County Democratic Committee and a copy transmitted by the Secretary of that Committee to the surviving members of his family.

By the Committee,

Parnell Black, County Chairman  
 Senator P. S. Marthakis  
 Representative Mrs. Louie C. Mitchell  
 Representative Mrs. C. L. Jack

## COMMUNICATIONS FROM THE GOVERNOR

February 15, 1949

To the Honorable Alonzo F. Hopkin, President  
Utah State Senate  
Building

Dear Mr. President:

Herewith is the report and recommendations of the special committee appointed by me to study liquor traffic in Utah for the consideration of the Legislature.

As you perhaps know, this committee was appointed late in December as a representative group from all sections of the State. Members have given freely of their time and effort in an honest desire to study the liquor traffic in the State and to make findings in the light of their studies.

When appointed, their Chairman, Mr. Jesse R. S. Budge, received only one instruction from me. That was to function in the best interests of the State. I am certain that members have carried out that assignment without deviation.

I am transmitting the committee report to you and recommend the Legislature give it immediate and careful consideration.

Respectfully yours,

J. BRACKEN LEE,

Governor.

## COMMUNICATIONS FROM THE GOVERNOR

February 15, 1949

To The Honorable Alonzo F. Hopkin  
President, Utah State Senate  
Building

Dear Mr. President :

For your information I am attaching herewith a list of contracts entered into with architects for building construction from October 22, 1945 to December 31, 1948. May I direct your attention to the fact that the estimated amount of the building program involved exceeds \$12,-000,000.00. The estimated architectural fees exceed \$500,000.00 of which approximately one-half has been paid.

I have been unable to locate wherein appropriations have been made for many of the major items of the construction contained in this list and for which architectural contracts have been entered into.

It seems to me that in view of the very large amount of architectural fees involved in this list that a special investigation should be made into the entire question of architectural fees for actual and problematical State construction, also the policy of obligating the State for such large fees in the absence of Legislative direction.

In connection with this investigation may I direct your attention to the fact that a former Superintendent of Construction for the State Building Board resigned his position with the State on October 17, 1945. His successor was appointed on October 20, 1945, and on October 22 of the same year a contract was entered into with the former Superintendent of Construction involving architectural fees of \$11,496.64, all of which has been paid by the State. Also on November 25, 1945, slightly more than a month after his termination of service with the State, another contract for architectural service was entered into involving a total of \$28,158.60, \$17,000.00, of which has been paid by the State. Further, on July 18, 1946 another contract was entered into amounting to \$32,400.00 for the planning of the State Office Building for which no appropriation has been made.

This material is submitted to you for your consideration and such action as you deem proper.

Respectfully yours,

J. BRACKEN LEE,  
Governor.

On motion of Senator Day, the communication from the Governor was referred to the Legislative Council for investigation and report back to the Senate by the fiftieth day of the present session.

### COMMUNICATIONS FROM THE GOVERNOR

February 18, 1949

To the Hon. Alonzo F. Hopkin, President, Utah State Senate

Dear Mr. President:

In my initial message to the 28th Legislature delivered on January 11, 1949, I addressed your Honorable Bodies as follows:

"The State of Utah has substantial trust funds, such as State Insurance Funds, State Land Board, and Compensation Funds, which I have been informed have not been audited independently for many years. I understand also that substantial losses have been suffered which should be written off. It is my recommendation that this session of the Legislature investigate this matter thoroughly and make provision for an independent audit of each of these funds, to the end that the people of the State may clearly know the extent and nature of the funds involved."

There has been introduced in the Senate, Bill No. 237, designed to authorize an audit of these various agencies in accordance with the above recommendation.

The apparent inconsistencies that have been developed and are being developed in other departments of our government brings to me very forcibly that it is our joint duty to the people of this State to cause an independent audit to be made of these very substantial trust funds.

I feel this matter so keenly that at the risk of repetition I am directing your attention to the measure referred to above which will authorize such independent audits and urgently recommend to you that this matter be given very serious consideration.

Respectfully,

J. BRACKEN LEE,  
Governor.

Communication filed.

Communication filed.

February 23, 1949

To the Honorable Alonzo F. Hopkin, President  
Utah State Senate  
Building

Dear Mr. President:

As Chief Executive, I am charged with the responsibility of determining what compensation can be paid to State employees and persons holding public office. An opinion of the Attorney General has cast some doubt on the question whether Legislators can legally receive compensation as such and also as public employees or officers where taxes are the source of such compensation.

It would be appreciated if you could have your Honorable Body make a study of this matter immediately with a view toward clarifying the status of those members who are affected by the opinion of the Attorney General, since I am faced with a serious administrative problem with respect to the payment of such members acting in the dual capacity mentioned.

Respectfully yours,

J. BRACKEN LEE,  
Governor.

Communication filed.

Senator Day moved that the Communication from the Governor be considered in the first Executive Session of the Senate.

### COMMUNICATIONS FROM THE GOVERNOR

February 23, 1949

To the Honorable Alonzo F. Hopkin, President  
Utah State Senate  
Building

Dear Mr. President:

The State of Utah now owns 179 passenger automobiles, not including station wagons, pickup trucks and jeeps. In addition, hundreds of employees are operating their own automobiles at an allowance of six cents per mile which is paid from State funds. The estimated cost of all of this operation runs well over \$500,000.00 per year.

Many of the State owned automobiles are assigned to individuals and these vehicles are used largely for transportation to and from their homes. Substantial amounts of the money paid for mileage of private automobiles could be eliminated if State cars were available for the occasional trips necessary for State business, and the practice were started of using one car where two or three are being used at the present.

Investigation has indicated that substantial savings, approximately \$75,000.00 per year, could be effected by the institution of one car pool, located upon the Capitol grounds. In this pool would be placed approximately thirty State owned cars. Officers or employees requiring the use of automobiles for strictly State business would be required to obtain a car from this pool upon a proper order from the responsible head of the department desiring such use. Each department would pay into the car pool fund a rental of six cents per mile for the use, which amount should be sufficient to make the pool self-supporting. When the use authorized for the vehicle has been completed, the car would be returned to the pool.

To accomplish this purpose, it will be necessary to construct a garage building for the storing and maintenance of the cars in the pool. The State Engineering Department has drafted tentative plans for the cost of such a building to be located on the north-east corner of the Capitol grounds. The operation of the garage and pool would be delegated to the present Department of Engineering, State Road Commission.

It is my thought that this car pool, with its attendant building, can be accomplished without any additional legislation except an appropriation of \$86,933.00 for the construction of the building.

I ask your consideration of this recommendation and feel sure that its accomplishment will effect substantial savings to our State.

Sincerely yours,

J. BRACKEN LEE,  
Governor.

On motion of Senator McShane, the communication from the Governor was referred to the Committee on Highways.

### COMMUNICATIONS FROM THE GOVERNOR

February 24, 1949

To the Honorable Alonzo F. Hopkin, President  
Utah State Senate  
Building

Dear Mr. President:

I am returning to you for your further consideration, *House Bill No. 42*, by Messrs. Anderson and Aldous, entitled:

**"AN ACT PROVIDING THAT A SUCCESSFUL ELK OR ANTELOPE PERMIT APPLICANT SHALL BE PRECLUDED FROM APPLYING FOR AN ELK OR ANTELOPE PERMIT FOR THE FOLLOWING TWO YEARS, AND A PENALTY FOR VIOLATION THEREOF."**

It is my understanding that an amendment was offered and accepted on the floor of the Senate which would affect the fourth line of the Bill in its present typewritten form.

Apparently this amendment, which would make the fourth line read: "A permit to hunt elk or antelope for either of the two years next . . . ." was overlooked inadvertently.

If it pleases your Honorable Body, may I suggest that you give this matter further consideration?

Respectfully yours,

J. BRACKEN LEE,  
Governor.

Communication filed.

*H. B. No. 42*, as corrected, was transmitted to the House.

REPORTS OF SPECIAL COMMITTEES

Mr. Alonzo F. Hopkin, President February 24, 1949  
Utah State Senate

Mr. Ed J. McPolin, Speaker  
Utah State House of Representatives

Gentlemen:

The respective committees appointed by the Senate and the House to consider the matter of salary increases, and having in mind particularly certain measures now introduced for consideration of the Legislature, recommend that there be no blanket increase of state elective officials' and appointive officials' salaries at the present time.

The recommendation is based upon the facts that it is presently necessary to curtail expenditure of state revenues; that the increased cost of living has lessened recently; and that the subject of fair compensation to state officers can be more accurately considered at a subsequent session of the Legislature.

In making the foregoing recommendation, the committee does not mean to infer that there should not be proper increases in salaries where the responsibility of the employment and the merits of any particular employee deserve an increase.

Respectfully,

ELIAS L. DAY, Chairman  
Senate Committee on Salary Increase

FRANK BONACCI, Chairman  
House of Representatives Committee  
on Salary Increase

Report filed.

Mr. Alonzo F. Hopkin, President February 24, 1949  
Utah State Senate  
Building

Dear President Hopkin:

Considering the publicity given in the press, much of which has been adverse to the present management of the Utah State Prison, we, your Committee on Public Institutions, felt it proper to make a brief

report of our recent visit to the State Prison, at which time there was a large legislative representation, both of the Senate and the House.

We feel that commendation is due the Warden and Board of Corrections for the favorable conditions which we found, considering the handicapped and crowded condition of the prison.

The prison is maintained in cleanliness. There is evidence of co-operation. We feel that there is an advantage in having continuity of purpose and planning, as well as trained personnel. We understand that 84% of the inmates released from the State prison make good and do not return. This record leads the nation and compares most favorably with the national average of 40%.

We feel that an excellent job has been done, considering that practically twice as many men are crowded into the prison as its normal capacity warrants. We believe that completion of the new prison should be pushed with every available means, and completed without undue delay.

We commend the honor method now in use at the state prison of appealing to the best motives of the inmates, and their cooperation with the Board of Corrections and the state Warden in bringing about their own rehabilitation.

Sincerely,

LORENZO E. ELGGREN, Chairman  
Committee on Public Institutions

### COMMUNICATIONS FROM THE GOVERNOR

February 24, 1949

To the Honorable Alonzo F. Hopkin, President  
Utah State Senate  
Building

Dear Mr. President:

After a careful study of the State's building program, I have come to the conclusion that the best interests of Utah would be served by stopping all contracts for contemplated and actual construction at this time.

It appears to me that some coordinated program should be mapped to determine just where the State is going on its building needs and just how such construction is to be financed.

I earnestly request your honorable body and that of the House to appoint a joint committee to make a survey of the most pressing building needs and the attendant financing thereto. It is my opinion that the State can save itself undue expense if the proper planning and financing is provided before this program gets too far along.

Respectfully,

J. BRACKEN LEE,  
Governor.

On motion of Senator Marthakis, the communication from the Governor was referred to the Reserve Building Fund Committee, Joint Subcommittee of the Joint Appropriations Committee; Senators Jenkins (Chairman), Marsden and Jolley; Representatives Hinton, Murch and Tippetts.

Mr. President:

Your Committee on Highways, to which was referred the Governor's message relating to a state owned garage and car pool, respectfully submits the following:

1. That the proposed car pool be established at the earliest possible moment and that the following procedure be followed:
2. That the numbers of state owned passenger cars be reduced to a minimum where only those deemed by the executive branch to be absolutely necessary, for economical and efficient operation of our state government, be retained.
3. That all state owned passenger cars not deemed absolutely necessary, for economical and efficient operation of our state government, be sold in the manner prescribed by law.
4. That the monies derived from the sale of the above-mentioned state owned passenger cars be paid to the state treasurer, who in turn should allot the money to the state building board, earmarked for construction of necessary facilities to enable economical housing of state owned passenger cars.
5. That the proposed building for housing state cars be not erected on the Northeast corner of the State Capitol grounds, but that the building be erected on the state owned property at 525 West 13th South St., Salt Lake City, where better conditions exist for the care of the cars at this location. The State has shops, mechanics and supplies so that cars can be serviced and always be in proper condition for use.

Respectfully submitted,

W. G. LARSON

Chairman, House Committee

J. HAROLD REESE

Chairman, Senate Committee

On motion of Senator Reese, the report of the Conference Committee with respect to *H. B. No. 14* was adopted.

With unanimous consent, the following bill was introduced:

### INTRODUCTION OF BILLS

S. B. No. 299

By Mr. Day

AN ACT PROVIDING FOR APPROPRIATION OF \$250,000 TO THE UTAH STATE DEPARTMENT OF PUBLICITY AND INDUSTRIAL DEVELOPMENT FOR THE BIENNIUM BEGINNING JULY 1, 1949 AND ENDING JUNE 30, 1951, was read the first time and referred to the Committee on Revision and Enrolling.

On motion of Senator Day, the following recommendations from the report of the Utah Legislative Council on architectural fees paid by the state, which report was made pursuant to an investigation instituted at the request of the Governor in a communication to the President of the Senate dated February 15, 1949, were printed in the Journal:

1. That a definite policy be prescribed by the Legislature with regard to planning and construction of state buildings.
2. That the authority for planning and expending funds be fixed and properly designated.
3. That the State Building Board immediately prepare rules and regulations for publication, setting forth clearly a set of fees to be paid architects on state projects and conditions relating thereto, includ-

ing the adoption of uniform standards in the selection of architects for state projects.

4. That the awarding of architectural contracts be in cooperation with the state institution involved.

5. That the State Building Board adopt a uniform building code with which architects are to conform.

6. That, because of the difficulty in estimating building costs, the Building Board devise a proper basis whereby construction cost estimate can be made on projects awarded to architects.

7. That enabling legislation be enacted to permit the State to cooperate with federal agencies in planning and building programs. This is necessary if a positive state policy is declared and if the Department of Publicity and Industrial Development is eliminated.

8. That the Senate assign to the Legislative Council the task of completing a comprehensive investigation of the entire question if it is so desired.

Senator McShane moved that the rules be suspended and that *S. B. No. 293* be lifted from the Sifting Committee and placed at the head of the Second Reading Calendar.

### REPORTS OF STANDING COMMITTEES

March 3, 1949

Mr. Alonzo F. Hopkin, President  
Utah State Senate  
Building

Dear President Hopkin:

Your Committee on Fish and Game desires herewith to report concerning some of the vital problems which, in our opinion, should be called to the attention of the Senate.

First — Reorganization of the Fish and Game Department. Your Committee believes that instead of having a Board of Big Game Control,

a Fish and Game Commission, and a Director, that there should be but one Commission. That the membership of the Commission should represent all interests concerned with Big Game. The Commission should be given the right to appoint a Director, and hold him responsible for carrying out the policies of the Commission. It is believed that such a uniform set-up will remove many of the conflicts and disagreements, and much of the mismanagement of Big Game.

Second -- Game Damage Claims. There should be set up by law, an effective means of determining the rights of damaged property owners, to fairly appraise damage claims, to provide for a fund to pay the claims, and to effect prompt settlement thereof.

Third -- Law Enforcement. Better game law enforcement is needed. It should be brought about by passing the two laws now before the Legislature, permitting the giving of tickets, and providing a visible badge. Provision for more uniform sentences, more care in suspending sentences, and better support of the work of the game law enforcement officers through the punishment meted out to offenders, will bring marked improvement.

Fourth Management of Big Game Herds. Continued study of the problem of handling big game herds to keep them in proper balance with available feed and without infringement of private rights must be continued. This involves range improvement and winter feeding. It embraces placement of feed lots and the provision of winter feed in ample time to keep the big game in good condition and out of reach of the property of private citizens.

Fifth Manual. It is desirable that factual material pertaining to the management, production, and distribution of fish and game in Utah be made available in manual form.

Sixth - Bonds. Game wardens should be bonded.

Seventh — Fish and Game Code. A Fish and Game Code should be drafted for the 1951 codification of the Utah statutes.

Eighth — Legislative Council. It is the conclusion of the Committee that with the limited time remaining to the present legislative session, these matters cannot be effectively completed. It is recommended that this report be turned over to the Legislative Council for continued study so that understanding and cooperation can be had by stock men, property owners, and those directly interested in fish and game.

Respectfully,

Senate Fish and Game Committee

ELIAS L. DAY,  
Chairman.

### COMMUNICATIONS FROM THE HOUSE

March 9, 1949

Mr. President:

I am directed to inform your Honorable Body that the House has this day refused to concur in Senate Amendments to *H. B. No. 293*, by Appropriations Committee, entitled,

"AN ACT MAKING APPROPRIATIONS FOR THE SUPPORT OF THE UTAH STATE GOVERNMENT FOR THE PERIOD BEGINNING JULY 1, 1949, AND ENDING JUNE 30, 1951, AND SETTING UP REGULATIONS AND RESTRICTIONS CONCERNING EXPENDITURES," and requests the Senate to recede from its amendments.

I am further directed to inform your Honorable Body that the following motion was this day passed by the House in regard to *H. B. No. 293*:

March 9, 1949

"Mr. Speaker:

"I move that the House return *House Bill No. 293* to the Senate so that Body may restore said bill to the condition it was prior to the amendments made by the Senate in violation of Joint Rules Numbers thirty-one and thirty-two, which rules are in effect to facilitate legislative action and permit either House to recede from amendments or to appoint a Conference Committee to settle differences between them.

"An amended bill is subject to these two courses of action only and is not open for amendment. The reason for this rule, is to provide for bringing a bill to rest which would be impossible if it were the prerogative of either House to continue to amend a measure indefinitely.

"In the event the two Houses disagree, Joint Rule 32 provides for changes in the bill only through the Joint Conference Committee method.

"I move further that the Clerk of the House be directed to transmit the bill back to the Senate so that Body may have an opportunity to correct its erroneous action and to handle the bill in accordance with House and Senate Joint Rules.

"Maurice Anderson  
Democratic Majority Floor Leader"

Respectfully,

The Honorable Alonzo F. Hopkin, President and  
Members of the Utah State Senate.

Gentlemen:

On this the sixtieth day of the Twenty-eighth Utah Legislative Session, it is my honor to inform you that I have no further business to present to your honorable body prior to adjournment.

Each of you has served faithfully in the duties entrusted to you by the people of this great state, and it is with the deepest sincerity that I express to each of you my appreciation for your conscientious work. I am deeply grateful to you for the support given to my many requests. Although my recommended program was not adhered to as closely as I would have liked it to have been, in no way do I hold any of your responsible for it's failure. It is natural that we should differ on some problems, and while some of you may have disagreed, I feel that you acted in accordance with your belief.

Upon your adjournment, it will become my duty to administer the laws of this state in accordance with the oath that I have heretofore taken. This I shall do faithfully and to the best of my ability. I shall continue to administer my office with fairness to all regardless of the beliefs or political faith of any individual, and I extend to each of you a welcome to my office at any time, and I shall welcome your individual counsel in any and all matters that pertain to the welfare of our state.

With my sincere appreciation to each of you, I am your servant.

J. BRACKEN LEE,
