Joint conventions may adjourn from time to time as may be found necessary and it shall be the duty of the house of representatives to prepare to receive the senate and of the senate to proceed to the hall of the house of representatives at the time fixed by resolution or to which the joint convention may have adjourned.

10. No Business to be Transacted Except That Specified in the Call. In all joint conventions it shall be incompetent for either house or the members thereof, or the joint convention to engage in the transaction of any business other than that for which they were assembled.

JOINT MEETINGS OF COMMITTEES

11. Standing Committees May Meet Jointly. Whenever any bill has been referred by the senate to one of its committees, and the same or a like bill has been referred by the house of representatives to one of its committees, the chairmen of the respective committees, when in their judgment the interest of legislation or the expedition of business will be better served thereby, may arrange for joint meetings of their committees for the consideration of such bill.

12. Preference Given to Bills of Other House. During the third and fourth days of each week the House shall give preference to the consideration of Senate bills appearing upon the House Calendar, and likewise, the Senate shall give preference to House bills appearing on the Senate Calendar.

13. Appropriation Bills, Referred To. Such bill shall be referred to the Committee on Appropriations of the house wherein it originates after it has been considered and reported out by the appropriate other standing committee of that house, except that if such other standing committee shall make an unfavorable re-

port on the bill it shall not be so referred unless the unfavorable report is rejected by the house to which such report is made. When a bill is referred to the Committee on Appropriations of either house such committee shall report it out within three days from the receipt thereof with the committee's findings and recommendations.

BILLS AND RESOLUTIONS, ETC.

14. **Scope of Word "Bill."** Whenever the word "bill" is used in these rules it shall include constitutional amendments, joint and concurrent resolutions and memorials.

15. **Defining Joint and Concurrent Resolutions and Memorials.** Joint resolutions and memorials are those relating to matters to be treated by both houses of the Legislature. Concurrent resolutions and memorials are similar resolutions and memorials requiring concurrence of the governor.

16. **Procedure on Joint and Concurrent Resolutions and Constitutional Amendments.** Joint resolutions and memorials, concurrent resolutions and memorials and constitutional amendments shall be treated in all respects as bills.

17. **Introduction, Number of Authors.** No bill shall be introduced in the senate which bears the name of more than three members. No bill shall be introduced in the house which bears the name of more than five members.

PREPARATION AND INTRODUCTION OF BILLS

18. **Size, Number of Copies. Folding Form.** All bills shall be typewritten or printed on paper eight and one-half by thirteen or eight and one-half by fourteen inches, shall be in triplicate or in such additional numbers as each house may require respectively, shall not be folded, and shall have the arrangement and wording prescribed by the following:

19. **Form of Bills.** Every bill shall have (a) a designation; (b) a title; (c) an enacting clause; (d) subject matter disposed in one or more sections; and (e) an emergency clause, if necessary.

20. **Designation.** The designation shall be a heading preceding the title:

S. B. (or H. B.) No. By Mr.
S.J.R. (or H.J.R.) No. By Mr. etc.

21. **Title.** The title of every bill introduced shall convey an accurate idea of its subject and shall be expressed in the fewest words practicable. In amending a section of an existing law, the mere reference to the section by number shall not be deemed sufficient.

22. **Enacting Clause.** The title shall be immediately followed by the enacting clause, the form of which is prescribed by the Constitution, Article VI, Section 22, viz: "Be it enacted by the Legislature of the State of Utah."

23. **Subject Matter.** The subject matter of the bill shall follow the enacting clause, and shall be set forth in one or more sections.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repealing sections of unnecessary length.

No law shall be revised or amended by reference to its title only, but the act as revised, or section as amended, shall be reenacted and published at length. (Const., Art. VI, Sec. 22.)

Except general appropriation bills, and bills for the codification and general revision of laws, no bill shall be passed containing more than one subject, which shall be clearly expressed in its title. (Const., Art. VI., Sec. 22.)

In the preparation of a bill amending an existing law, and in the printing thereof, all omissions must appear between brackets [], and all additions must be shown by underlining the new matter, except in new laws and where new sections are added to existing laws.

No section sub-heads shall be included in any bill. In case of a bill amending an existing law the black-faced sub-heads shall be omitted.

24. **Emergency Clause.** An emergency clause is not required in a bill unless it is desired to make the act take effect at a time other than that prescribed by the Constitution, Article VI, Sec. 25.

Whenever an emergency clause is inserted in a bill, it shall constitute the last section of the bill, and shall be in substantially the following form: "This act shall take effect upon (approval) (or given date)."

A bill containing an emergency clause can only be passed by a vote of two-thirds of all the members elected to each house (Const. Art. VI., Sec. 25); provided, however, that if such bill receives a majority vote but less than two-thirds, it shall nevertheless be deemed passed,

and the emergency clause shall be omitted from the bill as finally enrolled.

25. Title of Bill to be Printed Once. The title of a bill, resolution, or memorial shall be set forth in full in the journal only upon introduction or upon first receipt of a measure from the other house; subsequently it may be designated by number and a brief condensation of the title.

RECORD OF BILLS

27. Printing of Identical Bills. When a bill has been printed in one house, an identical bill shall not be printed in full in the other house, but shall be printed by designation and title only and with reference to the corresponding bill of the other house, except upon specific vote of the majority of such house.

The Secretary of the Senate and the Chief Clerk of the House shall confer at the close of each day's business regarding the printing of bills to avoid duplication.

28. Bill Referred to Committee. Neither house, except upon vote of a majority of such house, shall give consideration to a bill unless such bill shall have been referred to the appropriate committee of the house in which it was introduced, examined by such committee, revised if necessary and reported back.

29. Secretary and Chief Clerk to Keep Register. The secretary of the senate and the chief clerk of the house of representatives shall keep a register in which shall be recorded every action taken by the senate and house of representatives on every bill, concurrent or joint resolution, or constitutional amendment.

30. Endorsement of Bills. The secretary of the senate and the chief clerk of the house of representatives shall endorse on every bill a statement of every action taken by the senate and house of representatives.

Senate amendments shall be inserted in the bill in blue and house amendments in red.

MESSAGES

31. Message to Accompany Bill. While bills are being transmitted between the two houses they shall be accompanied by a message signed by the secretary of the senate or the chief clerk of the house of representatives, as the case may be.

32. Notice to Other House of Rejection. When a bill which has passed in one house is rejected in the other, notice thereof shall be given immediately to the house in which the same has passed.

33. By Whom Sent. Messages shall be sent to the other house by an officer or employee to be designated by the secretary of the senate, if it be a senate message, or by the chief clerk, if it be a house message, and all such messages shall be in writing, signed by the secretary of the senate or clerk of the house, respectively.

CONFERENCE COMMITTEES

34. Concurrence in Amendments. In case the senate amend and pass a house bill, or the house amend and pass a senate bill, the senate (if it be a senate bill), or the house (if it be a house bill) must either "concur" or "refuse to concur" in the amendments. If the senate concur (if it be a senate bill), or the house concur (if it be a house bill), the secretary or chief clerk shall notify the house making the amendments, and the bill shall be ordered to enrollment.

35. Disagreement, Conference Committee. If the senate refuses to concur (if it be a senate bill), or the house refuses to concur (if it be a house bill), the secretary or the chief clerk shall notify the house making the amendments of such refusal, and ask that it recede from its amendments. If it refuses to recede, the presiding officer shall appoint a committee of three on conference, and the secretary or chief clerk shall immediately notify the other house of the action taken, and request the appointment of a like committee, which committee shall thereupon be appointed by the presiding officer of the other house. The first senator named on the conference committee shall act as chairman of the committee from the senate, and the first representative named on such committee shall act as chairman of the committee from the house, and the chairmen thus selected shall arrange the time and place of all meetings and prepare or direct the preparation of reports. The committees shall report in writing and shall be authorized to report such modifications or amendments as they think advisable. But no committee of conference shall consider or report on any matter except those directly at issue between the two houses. The papers shall be left with the conferees of the house having possession of the bill, and they shall present the report of the committee to their house. When such house shall have acted thereon, it shall transmit the same, and the papers relating thereto, to the other, with a message, certifying its action thereon. Every

report of a committee of conference shall be read through, in each house, before a vote is taken on the same.

36. Either House May Recede. It shall be in order for either house to recede from any subject matter of difference existing between the two houses.

37. Failure of Conferees to Agree. In case of a failure of the conferees to agree a report of such failure may be made. A further conference may be had either by the same or new committees appointed for such purpose. Before a bill which has been given to a conference committee shall be declared lost not to be revived again by either house during the remainder of the session, each house shall have voted to refuse further conference by the same committee or a new committee.

ACTION ON BILLS AFTER PASSAGE

38. Enrollment. When a bill shall have passed both houses, it shall be duly enrolled by the rules committee of the house in which it originated, and the fact of its origin shall be certified by the endorsement of the secretary or chief clerk which endorsement shall also show the dates upon which it passed the senate and house of representatives, respectively, and the number of votes cast for and against it in each house, and the number of absentees.

VI., Sec. 24.) Three copies, or more, of the engrossed bill shall be made, one of which shall be filed with the secretary or chief clerk, one given to the author of the bill and one given to the secretary of state.

96. Amendments Inserted in Bill Before Transmitted to House. Any bill, resolution, memorial or constitutional amendment which shall have passed the senate with amendments shall have such amendments inserted therein in blue before being transmitted to the house of representatives.

97. Recommitment Before Passage. Any bill, resolution, or memorial may be recommitted at any time previous to its passage.

98. Bill Transmitted to House. Each bill which passes its third reading shall be certified by the secretary and by him transmitted to the house. The date of transmission shall be entered on the books of the secretary.

99. Enrollment of Bill; Signed by President. After a senate bill has passed both houses, it shall be duly enrolled under the direction of the committee on rules and carefully examined as provided by Joint Rule No. 38. When the bill is reported to the senate as read and it shall be signed by the president in the presence of the senate, and then transmitted to the house to be signed by the speaker.

If it shall be subsequently found, however, that a mistake has been made in engrossing by omitting or inserting a word or phrase in the bill as passed by both houses, the secretary shall have the power to correct such error in engrossing.

100. No Bill to Be Introduced After Thirtieth Day. No bill shall be introduced in the senate after the thirtieth day of the session, without unanimous consent.

101. All Money Bills Referred to Appropriations Committee. All bills appropriating money from any fund shall be referred to the committee on appropriations before being read a second time.

102. Resolutions Lie One Day on Table. All resolutions except joint and concurrent resolutions shall lie one day on the table.

103. Action on House Bill. When a house bill has been received by the senate, with a message announcing that it has passed the house, such bill shall be read the first time and referred by the president to a standing committee and its course shall thereafter be the same as that of a senate bill; provided, however, that when a house bill is received, the text of which is stated by a senator to be identical with that of a senate bill which has already been considered and reported by a standing committee of the senate, such house bill shall be referred to the committee on rules for comparison which committee shall report without delay whether or not such bill is identical with the senate bill. If reported to be identical, such house bill shall be substituted for the senate bill and shall take its place on the second reading calendar, provided that the fact that the bills are identical shall be entered in the Journal.

104. No Senate Bills Shall Be Passed After the 55th Day. No senate bill shall be passed after the fifty-fifth day of the regular session of the legislature.

105. Bills, Resolutions, etc.; Procedure. Introduction of resolutions and memorials on matters irrelevant to legislative matters is discouraged and such resolutions and memorials as are adopted shall not be printed except by majority vote.

106. Bills Placed on Calendar. When bills, resolutions, memorials, or other business are reported from committees, they shall be placed upon the calendar, to be kept by the secretary as follows:

All bills when reported to the senate by committees shall be placed at the foot of the second reading calendar in the order in which the reports are made, and after passing their second reading, they shall be placed at the foot of the third reading calendar, in the order of second reading.

107. Precedence in Consideration of Bills; Printed Calendar. Precedence shall be given in the consideration of bills on the calendar in the following order: Third reading calendar and second reading calendar, unless otherwise ordered. The bills upon third reading shall be considered in the order in which they appear

upon the calendar, unless otherwise ordered by unanimous consent. If a bill is passed on the calendar, for any reason other than the absence of the author by leave of the senate, it shall be placed at the foot of the calendar, unless otherwise ordered. The secretary shall during each daily session cause the calendar to be written and maintained upon the blackboard showing bills properly listed as provided in rule 105.

108. **Special Order.** Any subject may by a vote of a majority of those voting be made a special order, and when the time fixed for its consideration arrives, the president shall lay it before the senate.

COMMITTEE OF THE WHOLE

109. **Bills on Second Reading May Be Considered in Committee of the Whole.** During consideration of bills on their second reading, three senators may move that any bill or bills in said order of business shall be considered in committee of the whole, and the senate shall resolve itself into a committee of the whole for the consideration of the bill or bills to be so considered.

110. **Procedure in Committee of Whole.** In forming a committee of the whole, the President, unless otherwise ordered by the senate, shall appoint a chairman to preside, who shall for the time being exercise all the powers of the president necessary to the conduct of the business of the committee. The rules of the senate shall govern as far as practicable, except that a senator may speak more than twice on the same subject, that a call for the ayes and nos cannot be made, nor can an appeal from the decision of the chair be taken. Such committee may strike out the enacting clause of a bill and report that fact to the senate; and if the report be agreed to by the senate, it shall be deemed a rejection of the bill.

111. **Action on Bills in Committee of the Whole; Report to Senate.** Upon bills committed to a committee of the whole, the bill shall first be read throughout by the secretary, and then again read and debated by sections, leaving the title to be last considered. The body of the bill shall not be defaced, or underlined, but all amendments, noting the page and line, shall be duly entered by the secretary on a separate paper, as the same shall be agreed to by the committee. All amendments made in committee of the whole shall be reported by the chairman to the senate, and shall by him be moved to be inserted, and if adopted shall then be entered upon the Journal. After the bill has been reported to the senate it shall again be

subject to debate and amendment before the vote thereon is taken.

112. **Motion to Rise Always in Order in Committee of the Whole.** A motion that the committee of the whole rise shall always be in order, and shall be decided without debate.

EXECUTIVE SESSIONS

113. **Executive Session.** When a motion is adopted to close the doors of the senate on the discussion of any business that may, in the opinion of the senate, require an executive session, the president shall require all persons, except the senators, the president, secretary, minute clerk and sergeant-at-arms, to withdraw, and during the discussion of said business the doors shall remain closed. Every senator and officer present shall keep secret all matters and proceedings concerning which secrecy shall be enjoined by order of the senate.

114. **Executive Nominations.** When executive nominations shall be sent by the governor to the senate for confirmation, they shall, after being read by the secretary, without motion be referred to a special committee of five appointed by the president, unless otherwise ordered by the senate. In no event shall action be taken on any executive nomination before the third day after its receipt from the governor. After having been reported by the special committee of five appointed by the president, the final question on every nomination shall be: "Will the senate advise and consent to this nomination?" which question shall not be put on the day the nomination or nominations are reported from the committee, unless by unanimous consent. While any nomination remains with the senate it shall be in order to reconsider any vote taken thereon.

SUSPENSION OF RULES

115. **Suspension or Alteration of Rules Requires Majority Vote.** No standing rule of the senate shall be altered, amended, suspended or rescinded without the vote of a majority of the members elected to the senate.

RULES OF ORDER

116. **Robert's Rules of Order Revised.** The rules contained in "Robert's Rules of Order Revised" shall govern the senate in all cases to which they are applicable and in which they are not inconsistent with the standing rules and order of the senate.

PRIVILEGES

117. **Admission to Senate Chamber.** No person shall be admitted within the senate chamber (galleries excepted) or the corridors directly to the east or the west of the Senate Chamber between 9 a.m. and the time of adjournment, unless especially invited by a senator. It shall be the duty of the sergeant-of-arms to admit no one except upon the invitation of the senator, except the members and officers of the two houses of the legislature, former members of the senate, the governor, heads of state departments, former governors, members of the congressional delegation, judges of the United States courts and of the state courts, and reporters of the press. Any such person shall only be entitled to the quiet and orderly occupancy of the seats provided for visitors or for representatives of the press, and in no event to the privileges of the floor.

118. **Senators Seats Not to Be Occupied by Others.** At no time, whether the senate be in

session or not, shall any employe of the senate, or any person whatsoever, other than the president or a senator, be permitted to occupy the chair or use the desk of the president or that of any senator.

119. **Sergeant-at-Arm to Enforce Rules.** The sergeant-at-arms and the employes under his direction will be held to a strict enforcement of the two preceding rules.

120. **Employes and Visitors Not to Influence Legislation.** Any employe of the senate or of its committees soliciting or inviting any senator to vote or use his influence for any bill or matter before the senate shall be at once dismissed from service and employment, and any person entitled to the privilege of the floor of the senate who shall, while on the floor during the session of the senate, solicit or invite any senator to vote or use his influence for any bill or matter before the senate shall forfeit his privilege.

INTRODUCTION OF BILLS

S. J. R. No. 1

By Messrs. Fowles, Browning and Lloyd

A JOINT RESOLUTION OF APPRECIATION TO UTAH VOLUNTEERS (INDIVIDUALS, GROUPS, INSTITUTIONS) IN BEHALF OF THE UNITED STATES SAVINGS BONDS PROGRAM, was read the first time and referred to the Committee on Rules.

On motion of Senator Cox, the Senate recessed to meet with the House in Joint Convention to hear the Governor's message and further voted that after the Joint Convention has been dissolved the Senate stand adjourned until Wednesday, January 11, 1961, at 10:00 A.M.

JOINT CONVENTION

The Roll Call showed a quorum of Senate and House members present.

The prayer was given by Senator Holman.

The President of the Senate appointed a Joint Committee consisting of Representatives Woolsey, Vance and Foxley, and Senators Schmiett, Sowards and Kerr, to notify the Governor that the Legislature was in Joint Convention and ready to hear his message.

The Chair announced that following the Governor's message the House will reassemble for 10 minutes and 30 minutes following the Governor's message, all Democrats of both Houses are to assemble in the House for a caucus.

President Waddingham recognized Utah's First Lady, Mrs. George D. Clyde.

The Joint Committee returned, escorting His Excellency, Governor George D. Clyde, who was presented to the Joint Convention by President Waddingham.

The Governor then delivered the following message:

Mr. President, Mr. Speaker, ladies and gentlemen of the 34th Utah Legislature:

Before taking up my written text, I find there is one matter which is not included in the printed message and to which I feel compelled to call your prompt attention.

I urge that you take prompt action to remedy an inadvertent error of the 33rd Legislature. A Constitutional amendment was approved two years ago, to provide property tax exemption for the widows of servicemen who died while in the service of the United States, comparable to the exemption now given widows of disabled veterans. There was virtually no opposition to this proposition, of which the equity is obvious.

However, in the amendment which was approved by the Legislature, certain wording was inserted which would have created serious problems in areas entirely separate from that covered by the intent of the change. The Attorney General found it necessary to point out this danger to the Utah public last November, and the amendment was not ratified by the people.

I urge that action be taken without delay to prepare and approve an amendment covering the original intent by avoiding the error of two years ago. I am confident it will be approved by the people.

It may be that other matters will arise during the course of the session on which I shall wish to make specific comment or recommendation to the Legislature. In such case, I shall prepare special messages to the Legislature as provided by law.

I shall now take up my written text.

We are now embarking upon one of the most crucial legislative sessions in the history of this state. Every legislative session is, of course, important. But I believe this 34th Legislature faces decisions of above-average importance because of the special conditions which exist at this time.

Utah is a fast-growing state. The official decennial census, taken in 1960, confirmed and made specific what we all knew—that our population growth is well above the national average. That means we have many more citizens for whom we must perform the essential functions of government. This inevitably means an increase in the cost of state government operation.

Utah is also rapidly growing as an industrial state. More and more important industries are moving into this state, and many of our ex-

isting industrial operations are expanding substantially. We are discovering and developing vast stores of rich natural resources that have long lain untouched. All of this means that our economy is steadily expanding. State income is increasing, from the existing tax base and without imposing any additional burden on individual taxpayers. This is obviously good.

The particular problem which we face is that of carefully weighing essential needs, and our desires for new and meritorious programs, against available income. Our present fiscal position is sound. The state is free from debt. Our tax structure is broad, well-balanced and not oppressive. It is essential that we maintain this position, that we keep our total expenditures within the limits of our expanding economy. If we do this, we shall further fortify our sound economic foundation, insure a prosperous present and build for a still brighter future. If we should over-spend today's income in anticipation of tomorrow's promise, we should be undermining the very future to which we are so eagerly looking.

For purposes of clarity in understanding the situation with which we are presently faced, let me very briefly review some fundamental facts concerning the state's fiscal position.

When I first took office, four years ago, there were substantial sums in both the General Fund and the Uniform School Fund over and above the requirements of the fiscal period then drawing to a close. Much has been made of these so-called surpluses, which had accumulated primarily because the state's expanding economy had produced revenue from existing tax sources at a rate considerably in excess of advance estimates. Some three million dollars in the Uniform School Fund was the result of a tax payment by Kennecott Copper Corporation which had been held up pending a final decision by the State Supreme Court.

It must be kept in mind that Utah was at that same time confronted with some very large backlogs of unfilled essential needs, particularly in the fields of capital construction, support of public schools and general salary levels in state government. These had accumulated largely because of the disruption of our normal economy occasioned by World War II and the Korean conflict and the state of economic uncertainty which followed the wars' end; and by the rapid advance of inflation, over a period of years but particularly in the interval following the lifting of wartime controls.

Some critics of this administration's policies have contended that the surplus monies in the General and Uniform School Funds should have been preserved to meet some future emergency, although it is obvious that the money could be used only once and that it would not serve to finance long-term requirements. If we examine the 1957 fiscal situation objectively, I believe it is clear that there were three possible courses of action.

First, we might have kept the surplus monies in the bank—at little or no interest—against some future rainy day, and ignored the backlogs of accumulated needs. The folly of such a course of action should be obvious, for the needs would have grown more acute while construction costs climbed higher and we should today be facing a situation of desperation with less money, relatively, available to meet our needs than we had four years ago.

Secondly, we might have preserved the surpluses and levied new taxes to provide the money for the programs necessary to erase our backlogs of unfilled essential needs. The objections to such a course were three-fold. The money on deposit would not have accumulated interest in sufficient quantity to match rising building costs and we should have suffered a net loss. The taxpayers of the state would have been forced to carry an unnecessarily heavy burden for four years. And if we have enacted major tax increases in 1957, or in 1959, every last penny would have been swallowed by new programs, whose continuing financing would add greatly to the fiscal problems we now face. I feel sure that everyone who observed closely the legislative sessions in 1957 and 1959 will agree that pressures were such that all available monies would have been taken up in proposed programs which, while meritorious in themselves, perhaps, would have strained our fiscal capacity beyond reasonable limits.

The third possible course was the one actually adopted and which was, to my way of thinking, the sound approach to the problem. The so-called surpluses were carefully allotted to long-range programs designed to meet and erase our backlogs of unfilled essential needs over a reasonably long period and within our means. I think the wisdom of this course of action has been proved. We have made very real progress and the programs on which we are embarked will, if continued at a steady pace, achieve their objectives.

I shall not dwell further on the fiscal situation, which I shall examine in detail when I come before you with my budget recommendations in a few days time. I have felt it necessary to offer this brief discussion of fiscal affairs because I feel it is the key to legislative action: We must carefully balance each legislative proposal against its cost and the availability of funds.

Let me state that our present financial position is eminently sound. We shall finish the biennium with a surplus in the General Fund and the General Fund outlook for the coming biennium is good. We face some problems in connection with the Uniform School Fund, due primarily to the heavy increase in enrollments which is anticipated next year and for several years following. These problems are not insurmountable. I shall leave detailed consideration of them to my budget message.

I shall devote the remainder of my remarks to legislative proposals. I have not attempted to present them in order of priority but shall take them as they appear, alphabetically.

AERONAUTICS

Under our present tax structure, the annual property levy against private aircraft has become virtually prohibitive and increasing numbers of airplane owners are transferring their registrations to neighboring states, where tax levies are a small fraction of the Utah impost. I recommend the enactment of a law providing a reasonable excise tax in lieu of property tax on private aircraft.

I also recommend the enactment of legislation to give the State Aeronautics Board authority to regulate intrastate commercial flights, over which we presently have no control. The existing situation constitutes a serious danger to the public.

AGRICULTURE

The State Department of Agriculture has recommended a dozen proposals for which I urge your most careful attention.

A number of the proposals deal with milk and the dairy industry, and are aimed at bringing present, sometimes antiquated, statutes up to date and making them more effective and workable.

Also in need of up-dating is our statute governing standard weights and measures, and it is recommended that we adopt the so-called "model law" which is in force in most states. Our present law covering the inspection of bedding and upholstered furniture—which is a function assigned to the Department of Agriculture—apparently is inadequate to enforce proper labeling of these items and it has been found that articles of bedding and upholstered furniture are being sold in Utah under fraudulent labels, at the expense of our buying public. The proposed revisions would make possible accurate inspection and strict enforcement in the public interest. Similar protection of the consumer against fraud is sought in a change in the law governing sale of fertilizers, it having been found that some commercial products are being sold as high-grade fertilizers when they in fact contain as much as 50 per cent sand.

Protection of the public health and welfare is sought in bills aimed at regulating grains that may have been treated with poisonous substances and requiring accurate labeling of dangerous substances commonly used in the home.

BANKING AND INSURANCE

It is recommended by the Utah Bankers Association that the State Department of Banking be separated from the Department of Business Regulation, in the same manner that the Insurance Department was given independent status by action of the 33rd Utah Legislature.

I believe it is essential that the legal qualifications of the bank commissioner should be liberalized so that the state can obtain and retain the service of genuinely qualified people for this important office. This same thing applies to the office of state insurance commissioner. In both cases, I believe we must increase the salaries to a level commensurate with the professional qualifications of the people we must seek. The Utah residence requirement should be removed. While we must carefully guard against conflicts of interest and a commissioner should not be permitted to have an active financial interest, including the ownership of stock, in an institution which would come under his supervision or be in direct competition with institutions which do so, I believe we must remove the prohibition against a commissioner participating in a retirement program operated by such an institution. The existing prohibition eliminates from consideration many of the people best qualified to handle the commissioner's duties—men of wide experience and demonstrated ability, who have retired from active business. I do not think that participation in a retirement program constitutes a conflict of interest, or would unduly influence the decisions of a commissioner.

Our present banking laws should be amended to prohibit the obtaining of a charter for any type of financial institution for the purpose of re-sale, and the law should provide that when a charter is issued it must be implemented by the person or persons to whom it is issued within a reasonable time or be revoked.

BOATING

In 1959, Utah's first law for the regulation of boats and boating was enacted. I believe such a law is essential in this day and age; but like most first-time laws, our present boating act has been found to have a number of shortcomings which should be corrected.

When the law was enacted two years ago, administration was placed in the Parks and Recreation Department although the department did not have the personnel to handle the task, particularly in the matter of enforcement. At the present time, boaters are sharply divided on the question of who should administer and enforce the boating law. Some urge that it be left in the hands of the Parks and Recreation Department. Others believe it should be given to the Fish and Game De-

partment, which now has trained law enforcement officers on many, though not all, major bodies of water in Utah. A third suggestion is that enforcement of the law be made the responsibility of the Highway Patrol, and a fourth proposal is that an entirely new Department of Boating be established.

I am definitely opposed to the creation of a new bureau or department of state government for this purpose. I believe that any of the existing departments of government would administer the boating act fairly and to the best of its ability. I do believe it is of the utmost importance that enforcement of the act be carried out by personnel adequately trained in law enforcement.

The problems of financing even a moderate program of building boating facilities on our public waters have proved large, and I urge the legislature to consider a refund of the motor fuels tax collected on sales of gasoline used in boats, under the following conditions:

That no refund to purchasers on an individual basis be considered.

That a bulk refund be made on the basis of a formula to be worked out by the State Tax Commission and the department charged with administration of the boating act.

That the refund be devoted to the construction of launching ramps, docks and other boating facilities on public waters.

The amount of the refund would be small in terms of total collection from the motor fuels tax, and should make no appreciable difference in the highway program. The comparatively small sum would, however, be important in the construction of needed boating facilities. The legal principle involved is, I believe, already established and accepted in the earmarking of gasoline tax monies from airplane fuels to airport administration and upkeep.

Some adjustment should be made in the matter of property tax. I do not believe that boats should be exempt from the property tax as some have proposed—indeed, I do not believe that they could be legally exempted without a constitutional amendment, which would be undesirable and possibly dangerous to our tax structure. However, I am sure provision can be made for lightening assessments which may be genuinely burdensome, by working out a more equitable assessment formula.

Procedures for registering and licensing boats should be simplified and streamlined.

COMMITTEES ON AGING AND ON CHILDREN AND YOUTH

The White House Conference on Aging is now in session, and Utah is ably represented at that important discussion of the problems of our

senior citizens. Our State Committee on Aging, which has functioned for the past eighteen months, has done excellent work, and I believe the effort should not end with the White House Conference. I therefore recommend that a permanent Committee on Aging be established to help carry out and implement the recommendations which will come from the White House Conference, and to continue the study of this important problem. Such a committee should be composed of members who would serve without pay, but they should be provided adequate secretarial assistance, in order to encourage and coordinate programs on the local community level in all parts of the state.

A similar situation exists in the area of children and youth, in which area the decennial White House Conference was held a year ago. I believe we should continue the program we have so well begun by establishing a permanent, non-paid Committee on Children and Youth and providing the committee with secretarial assistance.

CONTRACTORS

Under existing statute, a contractor is required to pay a full \$50 fee for each branch of contracting in which he wishes to engage and for which he can qualify. I believe this is unreasonable and unfair and that a contractor who has obtained a first \$50 license should be issued licenses for other branches of contracting for which he can fully qualify for a nominal sum. There should be no change in the standards of qualification.

The Department of Contractors is presently hampered by the legal provision that all monies in the Contractors' Fund in excess of \$10,000 lapse into the General Fund at the end of each fiscal year. Payments into the Contractors' Fund generally come at the beginning of the calendar year, and \$10,000 is not sufficient to maintain the normal level of operations of the department through the six months between the ending of a fiscal year and the beginning of a new calendar year. I recommend that \$80,000 rather than \$10,000 be left in the Contractors' Fund and that monies in excess of this amount lapse into the General Fund at the end of each fiscal year.

EDUCATION

As I indicated in my opening remarks, the most critical problems which we face are in the field of education, including both the public schools and the state-supported institutions of higher learning. These problems are mainly financial and I shall, as previously stated, leave discussion of them to my budget message.

At this time, I do want to re-affirm my basic philosophy with regard to education in Utah. We have a proud tradition in education in this state. This tradition should be enhanced and not compromised. Our aim must ever remain to provide the best possible educational opportunities for our young people at the grade school, high school and post-high school levels.

The profession of the educator is an honorable and respected one and the dignity of the profession must be preserved if we expect to attract and retain the kind of people we must have to maintain the high educational standards which we demand. This means that salaries of teachers and school administrators must be commensurate with the importance of the positions they hold.

In our fundamental pursuit of excellence, and in according proper recognition to our teachers, however, we must also keep in mind the limitations of our economy. There are limits beyond which we cannot go without undermining the economy on which our school system, as well as the other facets of our way of life, depend. The State of Utah devotes an unusually high percentage of its total income to education and the people of Utah make an unusually high per-capita effort to support our schools. These are obvious necessities in a state of traditionally large families. I am sure we shall continue to make an above average effort and we shall increase it if we have to. It would be unrealistic and unwise to try to gear our individual or joint effort to a national average composed of the records of various states whose conditions are quite dissimilar to our own.

Conversely, we cannot reasonably base our aims and efforts entirely on national or regional averages in matters of salaries or per-pupil expenditures. These things are valuable as comparisons, within proper limits, and I do not suggest that they be ignored. They should all be carefully considered and evaluated, but always in relation to all other factors pertinent to the problem. If we are to achieve our educational aims within the limits of our means, we must constantly seek efficiencies and improvements, which I am sure we are doing. We must judge educational quality objectively, and not solely in terms of money expended. I do not suggest we can, suddenly and miraculously, devise ways of providing top-quality education at a fraction of the comparative cost elsewhere. I do firmly believe we can and must find ways to get more for each educational dollar as the years go by.

The problems immediately facing our schools and institutions of higher learning are two-fold: Those of capital construction and of operation and maintenance. They must be considered in their relation to each other as well as in the light of total funds which may be available for both.

In the area of capital construction, I particularly urge the administrators of our institutions of higher learning to take a long-range and

reasonably patient view. We have made considerable strides toward meeting their expanded requirements and we are continuing to do so. Our present construction program will, over a period of a few years, provide all needed construction. It would be impossible to build in the next biennium all of the structures that have been requested on the basis of demonstrable need.

In order to make the best possible use of existing space and to expedite the construction of additional needed space in order of genuine priority need, I recommend that the State Building Board be directed to undertake and to keep current a space-utilization study at all state institutions, including the institutions of higher learning.

Apart from the purely financial problems facing education in Utah, I have two specific recommendations in this field.

The 33rd Utah Legislature granted four-year status to Weber College and that institution will soon embark on its upper division program. It would be proper at this time for the Legislature to separate Weber from the administrative control of the State Board of Education and provide a Board of Control patterned on the Board of Regents of the University of Utah and the Board of Trustees of Utah State University. I remind you that the members of these boards are appointed by the Governor, with the approval of the Senate, and I urge that you act early in the legislative session to authorize the establishment of the Weber Board of Control so that I can submit my appointments to the Senate for approval before adjournment.

I recommend that the study of merit pay for Utah school teachers be continued and that as many as possible of our school districts make trial runs of merit pay programs. I believe merit pay should be an integral part of the salary structure and that it should be financed in the school districts with the same ratio of state support as is provided for the state-wide Uniform School Program.

FISH AND GAME

Five fish and game bills are being presented for your consideration with the support of the Utah Wildlife Federation. Four of these are relatively minor and have my full endorsement. One of them in particular deserves your prompt and favorable action. It would reduce the residency requirements for obtaining resident hunting and fishing licenses. People who are moving to Utah as our industry expands, who purchase homes here and make Utah their permanent home, are understandably resentful at being denied resident hunting and fishing privileges until they have resided in the state for a full year.

The fifth fish and game bill is definitely controversial and would provide for very substantial increases in the fees charged for hunting

and fishing licenses. The proposal has been endorsed by the Utah Wildlife Federation, but I have received numerous protests from Utah sportsmen who are not affiliated with the Federation against the proposed increases.

I shall make no recommendation on this issue, but rather urge each legislator to consult his own constituents and that the Legislature then exercise its own best collective judgment in order to reflect the preference of the majority of sportsmen in this state.

GOVERNOR'S OFFICE

I renew my request that the state budget officer be made directly responsible to the Governor and a member of his staff. The Governor is charged with the responsibility of preparing and administering the General Fund budget and it is unrealistic to have the budget officer work at some distance from the Governor and not under his direct control. This request coincides with a recommendation of the Legislative Council in 1959 and renewed this year. The duties of the budget officer should include the administration of the budget, and the preparation of work programs of all departments and agencies, and checking of compliance to insure that monies are used for the purposes authorized by the Legislature, as well as preparation of the biennial budget.

I also renew my request that a state planning coordinator be added to the staff of the Governor. Let me emphasize the word "coordinator"; I have no thought of setting up a planning agency, with authority over other departments of government. A planning coordinator would work with the established departments of government in precisely the capacity the title implies, to coordinate long-range plans and action programs so that they may be cooperative and not conflicting.

I also renew my recommendation that the next Governor-elect—and all future Governors-elect—be provided with funds for reasonable staff assistance between the time of election in November and officially taking office in January, so that the incoming chief executive can adequately prepare himself for the duties which immediately devolve upon him.

GREAT SALT LAKE AUTHORITY

A number of proposals have been advanced for development of the Great Salt Lake as a National Park, a State Park or in some other way. These proposals have been widely discussed, but I suggest that we do not have sufficient factual data on which to base a sound judgment at this time.

I therefore propose the establishment of a Great Salt Lake Authority, whose mission would be to make a thorough study of the potential

of the lake in all useful areas, including industrial development, tourist and recreation facilities, fresh water storage and all others.

I suggest that any decision on the future development of the lake be deferred until we have assembled the requisite factual data.

JUVENILE DETENTION

The problem of juvenile detention has become acute. In fact, in all but a very few counties of this state, the facilities for juvenile detention are woefully inadequate and sometimes disgraceful.

Whether the underlying responsibility for juvenile detention facilities is the responsibility of the state or of local counties and communities is a question which has been widely debated in recent months. The question, in theory, may be moot—but we are not confronted with a theoretical debate, but with a serious and alarming situation in fact.

I am convinced that if we are to have reasonably adequate care for our juvenile problem children—and in many cases the problem is not created by the young people themselves but by their homes and environments—the state must take charge. I recommend that authority be vested in the Department of Public Welfare, which has jurisdiction over the State Industrial School, over problems of dependent and neglected children and other related issues.

The financial burden should not be borne by the state alone but again there are practical problems in the way of an effective partnership relationship between the state and local government jurisdictions.

I therefore recommend that the program of constructing, maintaining and operating juvenile detention homes, under the jurisdiction of the State Department of Public Welfare be financed from the following sources:

1. By turning all fines and forfeitures from the Juvenile Courts to this purpose; and

2. By taking a portion of the state liquor profits, which are now being turned over to the counties and municipalities. Let me make it clear that I do not propose that we take an additional slice of the liquor profits which now accrue to the state General Fund. Let me also make it clear that when \$1 million year in liquor profits was diverted to counties and municipalities, it was for the purpose of law enforcement, and that most of the money is not being used for this purpose. By taking as much as may be necessary of this fund for the juvenile detention program, we should be carrying out the original legislative intent in assigning enforcement, and also permitting counties and municipalities to pay their fair share of what is essentially a local problem.

LABOR

I am sure that a number of bills will come before you dealing with the field of labor.

I want to say at this time that I am cognizant of the problems of organized labor, and appreciatively aware of labor's many contributions to Utah's growth and economy. As our state becomes more and more industrialized, labor will play a still larger part in our community.

In approaching labor legislation I believe we should at all times keep in mind that our aim must always be to provide for the best operation of the principle of free collective bargaining, in fairness to all parties concerned.

LEGISLATIVE COUNCIL RECOMMENDATIONS

I have read with interest the report and recommendations of the Utah Legislative Council, based on the extensive studies made over the past two years.

I commend them to your most careful attention, and I add my own endorsement to the recommendations, with certain possible exceptions, including the following:

In considering any revision of present requirements for assessing real property, I strongly urge that we do not adopt any form of the so-called "classified property tax" system which has proved of very doubtful worth in states where it has been tried.

In the matter of the state insurance program, I recommend a full scale study be undertaken before any decision is considered relative to making the state a self-insurer, in part or in full.

Concerning specific recommendations on school financing, both for capital construction and for operation and maintenance, I neither add my endorsement nor voice disagreement, but reserve comment until I deliver my budget message.

MENTAL HEALTH

I am deeply concerned with the problem of mental health, and I strongly urge that we do everything possible to meet it.

I am pleased to report that progress is being made and that accelerat-

ed progress is to be expected under the programs being carried out through the State Department of Public Health.

I believe we should continue to seek a full solution to the problem of mental health within the framework of the Department of Public Health, and not create a new agency of government to deal with it.

PUBLIC SAFETY

One of the areas most urgently demanding our attention is that of safety on the highways.

The year just passed will forever remain a black mark on the history of this state, as being the year in which the greatest number of human lives were lost in highway fatalities to this time.

I feel compelled to point out to you that, two years ago, a number of bills pertaining to highway safety were presented to the 83rd Utah Legislature and that all save two of these proposals failed to receive even the consideration of formal vote.

I do not suggest that any or even all of these measures would have prevented any specified number of accidents, of injuries or of deaths on our highways. I do most earnestly say that the need for better traffic control, and a more effective curb on habitually careless or negligent drivers, is imperative. I sincerely trust that the proposals that are presented to this Legislature will receive your most careful and studious consideration.

A number of bills will be introduced with the support of the Department of Public Safety and the Utah Safety Council and I recommend all of them to your serious attention. Among them are the following on which I wish to make special comment:

Driver license control is the very foundation of orderly traffic enforcement. It logically follows that the Driver License Division should be efficiently operated and be provided with sufficient funds to carry out the big job which it must undertake. At the present time, this division is under-financed. By reducing the interval between license renewals and by moderately increasing the fees for license renewals, the department can be placed on solid footing with attendant benefits to every citizen of this state.

Under present statutes, the license to drive a motor vehicle of any person must be immediately revoked if the operator is convicted in court of a violation of maximum gravity, such as automobile homicide, negligent homicide or driving under the influence of narcotics or alcohol. This mandatory requirement should stand as it is. Our present laws have the further provision that an operator's license may be suspended for habitual negligence, which is to be presumed when a driver incurs

convictions for three moving violations of traffic laws within an 18-month period. This provision has been protested on reasonable grounds, because it makes no distinction between minor and major violations, between those which are somewhat technical and those which are genuinely dangerous. In its place we should make provision for the establishment of an equitable "point system" under which demerits would be assessed in proportion to the gravity of the offenses. Under such a system, the genuine problem drivers could be better identified and dealt with, preferably through an effective program of driver improvement but by suspension or revocation of their driving privilege if all other efforts failed.

Speeding in an effort to escape a peace officer should be made a felony. It is completely unreasonable to permit a person to flee lawful arrest, endangering the life of the officer in performance of his duties and the lives of all citizens upon the highways, at the risk of no greater legal penalty than that for simple violation of the speed laws.

A legal requirement that the connection between any trailer and a towing vehicle be reinforced with an emergency safety chain is, I think obviously needed. Equally obvious is the need for a law prohibiting the lowering of the body of any vehicle below the manufacturer's specifications. The present shocking and widespread practice of "leading" car bodies reduces road clearance to the point of making them virtually certain killers if they strike any human being or animal.

Also in the area of equipment is the need to establish minimum basic standards for safety seat belts in automobiles. Such a device is worse than useless if it is not designed to perform the full task for which it is intended.

PUBLIC WELFARE

The State Department of Public Welfare has prepared a revision of Utah's basic public assistance law.

I believe the proposed revision is in the interest of the state. It would reduce the bulk and verbiage of the present law substantially, while improving its clarity. It would update the limits for permissible assistance in various categories, which have had to be increased beyond present statutory limitations by cost-of-living adjustments. It would provide a legal basis for the new medical aid program, which could be extended to persons not on public assistance rolls but whose means are insufficient to meet medical costs in old age.

I particularly recommend this last-named provision, but again feeling it necessary to add a word of caution, that the program we adopt must be within the limits of available means.

ROADS

The State Department of Roads has proposed five measures to which I add my full endorsement.

Three of them pertain to Federal requirements and to the new and special conditions which surround the limited-access Interstate Highway System. It is essential that these be enacted if we are to participate in the Federal-aid program.

A fourth proposal also concerns the Interstate construction, providing a higher speed limit for these limited-access highways than is permitted on roads of lower standards. The proposal for a prima-facie speed limit of 70 miles an hour on the Interstate System is in harmony with other existing speed laws; if the Department of Public Safety's recommendation for a change from prima facie to absolute speed limits is enacted, a similar change would be made in the provision setting the speed limit on Interstate Highways.

I recommend that you approve and submit to the people a Constitutional amendment which would prevent diversion of money from the motor fuels tax to other purposes than road construction except for certain closely related obligations including those now recognized. Let me say that I am generally opposed to the so-called " earmarking " of tax monies for specific purposes, except where a tax is imposed on a particular class of citizens and its proceeds devoted to a directly-related purpose. I believe the motor fuels tax meets this criterion.

Looking ahead, it is clear that the demands on the Highway Fund will be heavy in the future, particularly when construction of the Interstate System is completed. The Interstate System is almost 95 per cent Federally financed in Utah, but when it is constructed the entire responsibility of maintenance will fall on the state. It is imperative that we protect the traditional source of highway funds if the future of these essential arteries of transportation is to be guaranteed.

While I am opposed to unjustified diversions from the Motor Fuels Tax Fund, I do urge that benzene and other aromatic hydrocarbons which are not used for motor fuel purposes be exempted from the motor fuels tax.

The effect on the Motor Fuels Tax Fund would not be substantial, and the present tax requirement stands as a deterrent to the development in Utah of a chemical industry based on utilization of benzene as a raw material.

SCHOOL RETIREMENT

A proposal will be placed before you, providing a change in the retirement program for personnel connected with the State School System.

While I endorse the program in principle, I feel I must call your attention to the obvious necessity to keep the cost of any program we may adopt within the limits of our means.

SENATE JOINT RESOLUTION 39

I urge the speedy ratification of Senate Joint Resolution Number 39 of the United States Congress, which would extend the voting franchise to residents of the District of Columbia. I believe it is entirely improper that these American citizens be denied the right to vote.

STATE LIBRARY

The scope of the Utah State Library should be expanded to provide library services for the blind.

For a number of years, before we had a State Library, this program was shouldered by the Salt Lake City Library, but it is not reasonable to expect the city to handle a statewide program indefinitely. The program for the blind should be a part of the regular responsibility of the Utah State Library.

I urge that as much as possible of the cost of the new service be absorbed in the existing state library budget. The additional cost should be comparatively modest, and I feel that we can surely afford this service which means so much to the unfortunates who have lost their sight.

TAXES AND REVENUE

I recommend that the minimum sum for making refunds of individual income tax to taxpayers whose total withholding has exceeded their tax liability be raised from the present figure of one dollar. I do not propose an exact figure for the minimum refund, but suggest that it be based on an analysis of the cost of processing such a refund. I think it is unwise to make small refunds, which are of comparative little value to the recipient, when the cost of processing the transaction exceeds the amount of the actual refund.

This concludes my specific recommendations.

In general, and in conclusion, I repeat my earlier admonition that you most carefully scrutinize every proposal that is placed before you and consider the availability of funds before approving any new program. Expenditures beyond those encompassed in the budget I shall shortly place before you will be impossible unless adequate new revenue sources are provided.

The Joint Committee then escorted Governor Clyde to his chamber.

On motion of Representative Carl H. Taylor, the Governor's Message was ordered spread upon the Journals of both Houses.

On motion of Representative Gunnell, the Joint Convention was dissolved.

COMMUNICATION

(Telegram)

Washington, D. C.
January 30, 1961Honorable Thorpe Waddingham
President of the Utah State Senate
State Capitol
Salt Lake City, Utah

Latest State-by-State information in Washington indicates proposed constitutional amendment to allow District of Columbia residents to vote for President and Vice-President has not been introduced in Utah State Senate or House of Representatives. The legislatures of seven states have already ratified this amendment, and action has been taken on it in seven others. At the present time the District's 500,000 eligible voters are disenfranchised. It is a basic American principal that no American entitled to the vote be denied this privilege. Utah's traditional adherence to the concepts of freedom and justice should put our state in the forefront of the ratification drive. May I therefore urge immediate attention to the matter.

State Capitol
Salt Lake City, Utah

America took a giant step forward in its missile program today with the successful firing of the minuteman at Cape Canaveral, Florida. The minuteman is expected to become the backbone of America's missile arsenal because it is relative small and light and is powered by solid fuel, which makes the missile foolproof and subject to storage for long periods of time without attention. The minuteman traveled more than 4,000 miles and landed on target. All three stages fired successfully, making the entire operation a total success.

We in Utah are particularly proud of this achievement because Minuteman is really "our missile." The first stage is built by Thiokol in Box Elder County and the third stage is produced by Hercules in Salt Lake County. Hill Air Force Base will be the site for assembling and recycling the Minuteman missile and from this base railroad trains will move, carrying the missile in disbursement. Today's successful launching, following closely on the heels of yesterday's achievement of placing a chimpanzee in space, indicates that America is indeed moving to the fore in the space age.

United States Senator

COMMUNICATION

February 1, 1961

The Honorable Thorpe Waddingham
President of the Senate
Utah State Senate

Dear Mr. Waddingham:

Utah Power & Light Company has always been interested in the sound growth of our region's economy. For almost 50 years we have served homes and farms, business and industry, supplying one of the essentials of modern life — electric energy. It has been gratifying, indeed, and we note with pride the great economic growth our area has experienced over recent years.

However, in addition to our primary responsibility — the production and distribution of electricity — we recognize the need of encouraging still greater development of the vast and varied stores of raw materials in this area. New industries must continue to come into the region, and, in order to attract them, they must be informed about the area's potentialities.

To help in this important work we have, for the past seven years, carried on a national information program, supplementing the activities of the Utah Tourist and Publicity Council, the Chambers of Commerce and similar organizations. Our program is summarized in the two attached pamphlets.

Many hundreds of inquiries about Utah from all over the nation have been received and answered.

We believe this effort is contributing in some measure to the economic future of the area, and we intend to continue it in 1961.

As a member of the state legislature, we felt you would be interested in this information concerning our area development program.

Yours very truly,

E. M. NAUGHTON,
President

REPORTS OF SPECIAL COMMITTEES

February 6, 1961

Dear Mr. President:

Following your assignment to Senators Grover, Steen and myself as a committee to evaluate the possibility of this Legislature providing funds for moving the old City and County Building to a new site at the head of State Street, it is our understanding, that the State would be obligated \$90,000 to assume ownership and maintenance. The balance to be furnished by the L.D.S. Church.

Your committee has made a very careful check on the physical properties and found the property in a dilapidated condition. The sandstone blocks that make up the front wall are soft sandstone and weathering considerably. All in all, there is not much left to serve as a basis for a restoration project.

Your committee also felt that with the terrific strain on the State Treasury and many projects that might be branded worthy that will have to be turned down, it would behoove us to ask the sponsors of this project to finance it with funds other than the State of Utah. The maintenance and manning of this building after it is moved would furnish another fiscal problem for the State which was taken into consideration.

These findings are unanimous. The recommendation of your committee is that the State of Utah step aside and not participate.

Respectfully submitted,

FRANK M. BROWNING,
Chairman

Report adopted and filed.

COMMUNICATIONS FROM THE GOVERNOR

Honorable Thorpe Waddingham
President of the Senate
Utah State Legislature
Building

February 8, 1961

Dear President Waddingham:

It gives me great pleasure to submit to you the final report of the Utah Pony Express Centennial Commission. This commission was created by the 33rd Utah Legislature for the purpose of recognizing the 100th Anniversary of the Pony Express and the impact it had on Utah's history.

The Commission, under the leadership of D. R. Trevithick and the Utah representatives on the National Committee, the late Ernest R. McKay and Utah Director Horace A. Sorenson, have done a remarkable job in representing Utah in this affair. I commend them and their report to you.

To finance this undertaking, the 33rd Utah Legislature appropriated \$30,000 to the commission. By judicious and careful planning the work of the commission has been accomplished and it is now returning to the General Fund nearly one-half of its appropriation, a little less than \$15,000. This is commendable.

Yours sincerely,

GEORGE D. CLYDE,

Governor

COMMUNICATIONS FROM THE GOVERNOR

February 14, 1961

Honorable Thorpe Waddingham
President of the Senate
and
Members of the Senate
34th Utah Legislature

Gentlemen:

I am returning herewith *Senate Bill 53* entitled "AN ACT REQUIRING REASONABLE UNDERSTANDING OF AMERICAN HISTORY AND POLITICAL AND ECONOMIC INSTITUTIONS AS A CONDITION OF GRADUATION FROM STATE SUPPORTED UNIVERSITIES AND COLLEGES" without my signature and without my approval.

I am vetoing this measure somewhat reluctantly, as I am wholly in sympathy with the idea that American students should be versed in American history and American economic and political institutions. However, I am unable to approve the bill as passed for the following reasons:

1. I do not believe curricula and graduation requirements should be written into law. This would be an unnecessary usurpation of the prerogatives of the Boards of Control and administrative offices of the various institutions, which now have the authority to fix requirements for graduation and which could include the provisions incorporated in Senate Bill 53 if they so desired. If a precedent is established for legislating curricular requirements, there is no telling what might follow.

2. The requirements of Senate Bill 53 would increase the costs of operation of our institutions at a time when we are forced to budget most carefully; a check of our degree-granting institutions indicates they would be required to hire additional faculty members to meet the requirements of Senate Bill 53, although they differ widely on their estimates of what the additional cost would be.

3. The requirements of Senate Bill 53 might do harm to our foreign relations and to the cause of international understanding. I believe an exchange of students between the United States and foreign nations, particularly those nations subscribing to different ideologies than our own, is one of our best hopes to improve international understanding and enhance the prospects of world peace. At first glance, it might appear desirable to require foreign students in our universities to study American history and institutions. But let us look at the situation in reverse: Would we accept a foreign requirement that American students abroad pass tests in the history and particularly the political and economic institutions and systems of other nations, which are different from our own? Could we therefore reasonably expect students from other lands to accept such a requirement here?

Again let me stress that I am in sympathy with the aims of Senate Bill 53 and trust that everything reasonably possible will be done to encourage students in American institutions to become well versed in American history, institutions and economics.

Yours sincerely,

GEORGE D. CLYDE,

Governor

Such bond may be personal with two or more sufficient sureties, freeholders of the State of Utah, or said bond may be executed by a surety corporation authorized to transact business in the State of Utah. Such bond shall be upon a form prescribed or approved by the board and shall be conditioned to secure the faithful accounting for and payment to producers, their agents or representatives, of the proceeds of all agricultural products handled or sold by such dealer or processor. Said bond shall be executed by the applicant as principal and by the surety company or sureties on the personal bond, and said bond shall run to the state in favor of the producer and seller of farm produce to a processor or dealer and shall be conditioned on the payment by the said applicant for all farm products purchased by the applicant during the year for which the license is issued in accordance with the terms of purchase. Any producer of farm products claiming to be injured by fraud, deceit or negligence of any processor or dealer may bring action as provided in this act in the case of commission merchant. COMMUNICATIONS FROM THE GOVERNOR

March 6, 1961

Honorable Thorpe Waddingham
President of the Senate
and
Members of the Senate
34th Utah Legislature

Gentlemen:

I am returning herewith, without my signature and without my approval, *Senate Bill No. 1*, entitled AN ACT AMENDING SECTIONS 36-1-1, 36-1-2, AND 36-1-4, UTAH CODE ANNOTATED 1953 AS AMENDED BY CHAPTER 61, LAWS OF UTAH 1955, RELATING TO REPRESENTATION IN THE LEGISLATURE OF THE STATE OF UTAH; PROVIDING FOR A REAPPORTIONMENT THEREOF; CREATING NEW SENATORIAL DISTRICTS; PROVIDING FOR THE ELECTION OF NEW SENATORS; DESIGNATING SENATORIAL AND REPRESENTATIVE DISTRICTS OF THE STATE OF UTAH AND NUMBERING THE SAME; PROVIDING FOR THE APPOINTMENT OF COMMITTEES TO FORM REPRESENTATIVE DISTRICTS IN COUNTIES HAVING MORE THAN ONE REPRESENTATIVE.

I am vetoing this bill because I do not believe it constitutes true reapportionment.

No change in the composition of the Legislature is provided by *S. B. No. 1* except to increase the representation in the House (but not in the

Senate) of a single county. This despite the fact that many other areas of the state have recorded substantial population changes in the 1960 census.

S. B. No. 1 seeks to replace genuine reapportionment over most of the state by a subterfuge of re-districting, which is not in accord with the Constitutional intent of reapportionment and which in my opinion is not needed inasmuch as re-districting was carried out only six years ago. I believe re-districting should be confined to counties whose apportionment is changed.

I am aware of a discrepancy between the title and the body of *S. B. 1* which some legal authorities feel would make it unconstitutional. I am not basing my disapproval on this technical point, which could be decided by our Supreme Court, but on the reasons presented above.

Yours truly,

GEORGE D. CLYDE,
Governor

Communication filed.

COMMUNICATIONS FROM THE GOVERNOR

Honorable Thorpe Waddingham
President of the Senate
Utah State Senate
Building

Dear President Waddingham:

I am returning herewith, without my signature and without my approval, S. B. 168 entitled AN ACT AMENDING SECTIONS 53-11-23 AND 53-11-40, UTAH CODE ANNOTATED 1953, AS ENACTED BY CHAPTER 82, LAWS OF UTAH 1959, AND ENACTING SECTIONS 53-11-41, 53-11-42, 53-11-43, 53-11-44, 53-11-45, 53-11-46, 53-11-47, 53-11-48, 53-11-49, 53-11-50 AND 53-11-51; PROVIDING FOR STATE BUILDING AID TO QUALIFIED SCHOOL DISTRICTS TO MEET SCHOOL BUILDING NEEDS SPECIFYING THE STANDARDS OF ELIGIBILITY AND QUALIFICATIONS OF DISTRICTS WHICH MAY PARTICIPATE IN FUNDS PROVIDED BY THE STATE FOR THE PURPOSE OF ASSISTING DISTRICTS IN MEETING CAPITAL OUTLAY AND DEBT SERVICE REQUIREMENTS, PRESCRIBING THE METHOD OF APPORTIONING STATE FUNDS FOR BUILDING AID, APPROPRIATING FOUR MILLION ONE HUNDRED THOUSAND DOLLARS FOR STATE BUILDING AID TO SCHOOL DISTRICTS, PROVIDING FOR THE METHOD OF ALLOCATING ANY FEDERAL BUILDING FUNDS RECEIVED BY THE STATE AND REPEALING SECTIONS 53-11-8, 53-11-9, 53-11-10, 53-11-11, 53-11-12, 53-11-13, 53-11-14, 53-11-15, 53-11-16, 53-11-17, 53-11-18, 53-11-19 AND 53-11-20, UTAH CODE ANNOTATED 1953, AS ENACTED BY CHAPTER 95, LAWS OF UTAH 1957, AND SECTIONS 53-11-39, 53-11-41, 53-11-42, 53-11-43, 53-11-44, 53-11-45, 53-11-46, 53-11-47, 53-11-48 AND 53-11-49, UTAH CODE ANNOTATED 1953, AS ENACTED BY CHAPTER 82, LAWS OF UTAH 1959.

My reasons for this veto are the following:

1. Senate Bill 168 appropriates \$4.1 million for emergency school construction. This amount of money is not available in our present budget, and no means of providing this sum has been advanced. If I signed Senate Bill 168, I should be forced to veto items in the required amount in the general appropriations bill or in the building appropriations bill.

2. I consider the action taken by Senate Bill 168 to be premature, because:

- (a) It is virtually certain that Federal aid for School construction will become available in the very near future. I think it would be unwise to enact a program of emergency State aid for school construction until we know how much Federal aid will be available to us and under what terms. Even if Senate Bill 168 became law at this time, it would probably be necessary to call a special session of the Legislature to consider the Federal aid program when it is enacted.

- (b) The emergency school construction program should be considered separately from the other pressing problems of State government operation which are now before us. If we should adopt the program of Senate Bill 168, and consider adequate revenue measures to finance it, our decisions would of necessity be strongly influenced by other proposed programs and their financial requirements. If, on the other hand, we consider the problem of emergency school construction at a special session devoted solely to that purpose, we can assess the problem more objectively with, I am convinced, more satisfactory results.

I am keenly aware of the emergency nature of the problem of school construction in certain impacted areas, and I am determined that the State meet this responsibility fully.

As soon as a Federal aid program is passed by Congress, I assure you that I shall call a special session of the Legislature to deal with this problem. If at the end of sixty days, at the very maximum, Congress has not acted, I shall call a special session of the Legislature to meet the immediate emergency so that authorized buildings can be ready for operation by the Fall of 1962. It would be impossible under any conditions to authorize buildings at this time and have them ready for occupancy in the fall of 1961. If it becomes necessary for the State to act before we know what may be contained in a Federal aid program, we should be operating under a handicap, as I pointed out at the beginning of this veto message; however, I feel that we cannot delay action beyond sixty days without serious damage. But even if we have to act in advance of the Federal program, we can at least act more effectively in a special session devoted to this question than in a general legislative session when the question of emergency school construction is complicated by many and varied conflicting pressures.

Yours sincerely,

GEORGE D. CLYDE,
Governor
