(b) Those procedures shall provide, as a minimum, for:
(i) distribution to interested parties of information about the school or school district and how to apply for admission;
(ii) use of standard application forms prescribed by the State Board of Education;
(iii) submission of applications during the month of January by those seeking admission for the following year;

(b) A board may provide for the denial of applications from students who have committed serious infractions of the law or school rules, including rules of the district in which enrollment is sought, or have been guilty of chronic misconduct which would, if it were to continue after the student was admitted, endanger persons, or property, cause serious disruption in the school, or place unreasonable burdens on school staff.

(ii) the Legislature has granted an adequate specific appropriation for that purpose.

(b) The receiving district shall provide transportation for a nonresident student on the basis of available space on an approved route within the district to the school of attendance so long as the district students would be eligible for transportation to the same school from that point on the bus route and the student's presence does not increase the cost of the bus route.

(d) Nothing in this section shall be construed as prohibiting the resident district or the receiving district from providing bus transportation on any approved route.

(e) Except as provided in Subsection 53A-2-211, Utah Code Annotated 1953, as enacted by Chapter 52, Laws of Utah 1990, is amended to read:

(b) If the board extends the date for acceptance of applications, then the notification dates shall be adjusted accordingly.

(c)(i) In adjusting school boundaries, a local school board shall strive to avoid requiring current students to change schools and shall, to the extent reasonably feasible, accommodate parents who wish to avoid having their children attend different schools of the same level because of boundary changes which occur after one or more children in the family begin attending one of the affected schools.

(ii) In granting interdistrict and intradistrict transfers to a particular school, the local school board shall take into consideration the fact that an applicant's brother or sister is attending the school of another school within the district.

(2)(a) Under the intradistrict options program, a district shall receive transportation monies under Sections 53A-17a-126 and 53A-17a-127 for resident students who enroll in schools other than the regularly assigned school on the basis of the distance from the student's residence to the school the student would have attended had the intradistrict attendance option not been used.

(b) The parent or guardian of the student shall arrange for the student's transportation to and from school, except that the district shall provide transportation on the basis of available space on an approved route within the district to the school of the student's attendance so long as the student would be otherwise eligible for transportation to the same school from that point on the bus route and the student's presence does not increase the cost of the bus route.

Section 1. Section Amended.

Section 51-5-6, Utah Code Annotated 1953, as last amended by Chapter 14, Laws of Utah 1991, is amended to read:

51-5-6. Accounting principles and specific accounting and financial reporting procedures.

(1) The Division of Finance shall use generally accepted accounting principles applicable to governmental units in its accounting procedures and in its reports of the state's financial position and results of operations in each fiscal period.

(2) Unless otherwise required by generally accepted accounting principles, the following specific procedures shall be implemented:

(a) The Division of Finance shall use the basis of accounting established by GASB to account for each fund type.

(b) The Division of Finance shall:

(i) calculate the liabilities associated with post-employment benefits by applying GASB standards;

(ii) recognize all liabilities associated with post-employment benefits in the General Fund or other funds as required by GASB;

(iii) recognize the initial post-employment liabilities in the year new GASB standards for revenue recognition become effective;

(iv) provide for an ongoing labor additive to charge all federal, state, or other programs at a rate sufficient to cover the annual change in the post-employment benefits liabilities; and

(v) provide for ongoing payments against the post-employment liabilities as employees qualify for receiving the post-employment benefits after post-employment liabilities are recognized.

(c) The Division of Finance shall post receipts of revenues and other resources of each fund when collected directly to the fund designated to receive them.

(d) The Division of Finance shall use budgetary accounts to:

(i) account for budgetary funds to the extent necessary to reflect the budget position and budget operations; and

(ii) account for the remaining funds when administrative expenses of the remaining funds are subject to appropriations, in order to fully reflect the various budgetary commitments as provided by law.

(e) The Division of Finance shall prepare statements of revenues and expenditures in a form that accurately reflects the results of operations for a particular fiscal period.

(f) The Division of Finance shall determine:

(i) all costs associated with all internal service funds that are eligible for federal reimbursement; and

(ii) all costs that are required to be included in the funds to comply with generally accepted accounting principles.

(g) (1) All costs currently borne by a fund or an account that is not an internal service fund that should be allocated to an internal service fund may be charged as an expense to the internal service fund, paid to the fund bearing the costs, and recorded as interfund revenue in that fund.

(ii) The Division of Finance may transfer the interfund revenue recorded in funds or accounts that are not internal service funds to the internal service fund as contributed working capital.

(h) The Division of Finance shall record revenue in the various funds and accounts in accordance with GASB standards.

(i) (i) The Division of Finance and each administrative unit of state government shall record accrued revenue net of any liabilities for revenue refunds occurring at the time of a change in accounting standards by recording accrual of net revenue to the specific revenue account and designating it as an accrual equity account of the fund.

(ii) Before changing the accrual equity account of the General Fund, any increases in accrued equity may be used to offset actuarial deficits of the State Risk Management Fund, created in Section 63-1-47, any transfers to Internal Service Funds as authorized by Section 63-38-3.5, and the State Post-Employment Benefit Account.

Section 2. Section Amended.

Section 63-38-3.5, Utah Code Annotated 1953, as enacted by Chapter 252, Laws of Utah 1988, is amended to read:

(a) "Agency" means a department, division, office, bureau, or other unit of state government, and includes any subdivision of an agency.

(b) "Internal service fund agency" means an agency that provides goods or services to other agencies of state government or to other governmental units on a capital maintenance and cost reimbursement basis, and which recovers costs through interagency billings.

(2) An internal service fund agency may not bill another agency for services that it provides, unless the Legislature has:

(a) reviewed and approved the internal service fund agency's budget request;

(b) approved the number of persons employed by the internal service fund agency as part of the annual appropriation process; and

(c) appropriated to the internal service fund agency the internal service fund's estimated revenue based upon the rates and fee structure that are the basis for the estimate.

(3) The internal service fund agency budget request shall separately identify the capital needs and the related capital budget.

(4) An internal service fund agency may not incur additional long-term debt from the General Fund or Special Revenue Funds to meet its working capital needs. In the fiscal year that the accounting change referred to in Subsection 51-5-6(2) is implemented by the Division of Finance, the Division of Finance shall transfer equity created by that accounting change to any internal service fund agency up to the amount needed to eliminate any long-term debt and deficit working capital in the fund.

(5) No new internal service fund agency may be established unless reviewed and approved by the Legislature.

(6)(a) An internal service fund agency may not acquire capital assets unless legislative approval for acquisition of the assets has been included in an appropriations act for the internal service fund agency.

(b) An internal service fund agency may not acquire capital assets unless it has received an appropriation from the Legislature for their purchase after the transfer mandated by Subsection (4) has occurred unless the internal service fund agency has adequate working capital.

(c) The internal service fund agency shall provide working capital from the following sources in the following order:

(i) first, from operating revenues to the extent allowed by state rules and federal regulations;

(ii) second, from long-term debt, subject to the restrictions of this section; and

(iii) last, from an appropriation.

(b) An internal service fund agency may not incur additional long-term debt from the General Fund or Special Revenue Funds to acquire capital assets.

(ii) The internal service fund agency shall repay all long-term debt borrowed from the General Fund or Special Revenue Funds by making regular payments over the useful life of the asset according to the asset's depreciation schedule.

(e)(i) The Division of Finance may not allow an internal service fund agency's borrowing to exceed 60% of the net book value of the agency's capital assets as of the end of the fiscal year.

(ii) If an internal service fund agency wishes to purchase authorized assets that would increase its borrowing beyond 60% of the net book value of the agency's capital assets, the agency may purchase those assets only with monies appropriated from another fund, such as the general fund or a special revenue fund.

(e)(f) Capital assets acquired through agency appropriation may not be transferred to any internal service fund agency without legislative approval.

(7) The Division of Finance shall adopt policies and procedures related to the accounting for assets, liabilities, equity, revenues, expenditures, and transfers of internal service funds agencies.

(8) "Persistent vegetative state" means a state of severe mental impairment, in which only involuntary bodily functions are present and the person totally lacks higher cortical and cognitive function, but maintains vegetative brain stem processes for which there exists no reasonable expectation of regaining significant cognitive function as diagnosed by two physicians, one of whom shall be the attend-

This directive is made this _____ day of _______, 20__.

1. I, ________, being of sound mind, willfully and voluntarily make known my desire that my life not be artificially prolonged by life-sustaining procedures except as I may otherwise provide in this directive.

2. I declare that at any time I should have an injury, disease, or illness, which is certified in writing to be a terminal condition or persistent vegetative state by two physicians who have personally examined me, and in the opinion of those physicians the application of life-sustaining procedures would serve only to unnaturally prolong the moment of my death and to unnaturally postpone or prolong the dying process, I direct that these procedures be withheld or withdrawn and my death be permitted to occur naturally.

3. I expressly intend this directive to be a final expression of my legal right to refuse medical or surgical treatment and to accept the consequences from this refusal which shall remain in effect notwithstanding my future inability to give current medical directions to treating physicians and other providers of medical services.

4. I understand that the term "life-sustaining procedure" includes artificial nutrition and hydration and any other procedures that I specify below to be considered life-sustaining but does not include the administration of medication (or sustenance) or the performance of any medical procedure (deemed necessary) which is intended to provide comfort care[;] or to alleviate pain[;] except to the extent I specify below that any of these procedures be considered life-sustaining:

5. I reserve the right to give current medical directions to physicians and other providers of medical services so long as I am able, even though these directions may conflict with the above written directive that life-sustaining procedures be withheld or withdrawn.

6. I understand the full import of this directive and declare that I am emotionally and mentally competent to make this directive.

(a) there are no appropriate facilities for persons with mental retardation within the judicial district; and

(b) the transfer will not be adverse to the interests of the individual.

(b) Within 24 hours, excluding Saturdays, Sundays, and legal holidays, after any order or [admission] commitment under a detention order, the court may transfer the case and the custody of the individual to any other district court within the state, if:

(iii) within a reasonable period of time after appointment of the examiners by the court.

(b) The court shall set a time for a hearing to be held within 10 court days of the appointment of the examiners. However, the court may immediately terminate the proceedings and dismiss the application if, prior to the hearing date, the examiners [or], the [administrator of the mental-retardation facility] director, or his designee informs the court [prior to the hearing date,] that:

(i) the individual is not mentally retarded;

(ii) the individual has agreed to voluntary [admission] commitment under Section 62A-5-307; or

(iii) treatment programs are available and acceptable without court proceedings.

(10) (a) Each individual has the right to be represented by counsel at the commitment hearing and in all preliminary proceedings. If neither the individual nor others provide counsel, [and if the individual is indigent], the court shall appoint counsel and allow sufficient time for counsel to consult with the individual prior to any hearing.

(b) If the individual is indigent, the county in which the individual was physically located when taken into custody shall pay reasonable attorneys' fees as determined by the court.

(11) The division or a designated mental retardation professional in charge of the individual's care shall provide all documented information on the individual to be committed and to the court at the time of the hearing. The individual's attorney shall have access to all documented information on the individual at the time of and prior to the hearing.

(b) The court may, in its discretion:

(i) receive the testimony of any other person [The court may];

(ii) allow a waiver of the right to appear only for good cause shown [The court may];

(iv) upon motion of counsel, require the testimony of each examiner to be given out of the presence of any other examiner.

(c) The hearing shall be conducted in an informal manner as may be consistent with orderly procedure, and in a physical setting that is not likely to have a harmful effect on the individual. The Utah Rules of Evidence apply, and the hearing shall be a matter of court record. A verbatim record of the proceedings shall be maintained.

(13) The court may order commitment if, upon completion of the hearing and consideration of the record, it finds by clear and convincing evidence that all of the following conditions are met:

(a) the individual to be committed is mentally retarded;

(b) because of the individual's mental retardation one or more of the following conditions exist:

(i) [he] the individual poses an immediate danger of physical injury to [himself] self or others;

(ii) [he] the individual lacks the capacity to provide the basic necessities of life, such as food, clothing, or shelter; or

(iii) [he] the individual is in immediate need of habilitation, rehabilitation, care, or treatment to [cure or improve] minimize the effects of the condition which poses a threat of serious physical or psychological injury to [himself] the individual, and [he] the individual lacks the capacity to engage in a rational decision-making process concerning the need for habilitation, rehabilitation, care, or treatment, as evidenced by an inability to weigh the possible costs and benefits of the care or treatment and the alternatives to it;

(c) there is no appropriate, less restrictive alternative reasonably available; and

(d) the division or the mental retardation facility recommended by the division in which the individual is to be committed can provide the individual with treatment, care, habilitation, or rehabilitation that is adequate and appropriate to [his] the individual's condition and needs.

(15) (a) The order of commitment shall designate the period for which the individual will be committed. An initial commitment may not exceed six months. Before the end of the initial commitment period, the administrator of the [mental retardation] facility for persons with mental retardation shall commence a review hearing on behalf of the individual.

(b) At the conclusion of the review hearing, the court may issue an order of commitment for [an indeterminate] up to a one year period if it finds by clear and convincing evidence that the required conditions set forth in Subsection (14) will last for an indeterminate period.
An individual committed under this part has the right to a rehearing, upon filing a petition with the court within 30 days after entry of the court's order. If the petition for rehearing alleges error or mistake in the court's findings, the court shall appoint one impartial licensed physician and two impartial designated mental retardation professionals who have not previously been involved in the case to examine the individual. The rehearing shall, in all other respects, be conducted in accordance with this part.

The court shall maintain a current list of all individuals under its orders of commitment. That list shall be reviewed in order to determine those patients who have been under an order of commitment for the designated period.

At least two weeks prior to the expiration of the designated period of any commitment order still in effect, the court that entered the original order shall inform the [administrator] director of the [mental retardation facility] division of the impending expiration of the designated commitment period.

The staff of [that mental retardation facility] division shall immediately:

(i) reexamine the reasons upon which the order of commitment was based; if the conditions justifying commitment no longer exist, the administrator shall and report the results of the examination to the court;

(ii) discharge the resident from involuntary commitment if the conditions justifying commitment no longer exist; and

(iii) immediately inform the court of [that] any discharge.

If the [administrator] director of the division reports to the court that the conditions justifying commitment no longer exist, and the administrator of the mental retardation facility does not discharge the individual at the end of the designated period, the court shall order the immediate discharge of the individual, unless involuntary commitment proceedings are again commenced in accordance with this section. When a resident is discharged under this subsection, the division shall provide any further support services available and required to meet the resident's needs.

The administrator of a mental retardation facility or his designee shall at yearly intervals reexamine the reasons upon which any order of indeterminate commitment was based. If the administrator determines that the conditions justifying the commitment no longer exist, he shall discharge the resident and immediately inform the court of that discharge. If a resident is discharged under this subsection, the division shall provide any further support services required to meet the resident's needs.

An individual committed under this part has the right to a rehearing, upon filing a petition with the court within 30 days after entry of the court's order. If the petition for rehearing alleges error or mistake in the court's findings, the court shall appoint one impartial licensed physician and two impartial designated mental retardation professionals who have not previously been involved in the case to examine the individual. The rehearing shall, in all other respects, be conducted in accordance with this part.

If the director of the division, or his designee reports to the court that the conditions designated in Subsection (13) still exist, the court may extend the commitment order for up to one year. At the end of any extension, the individual must be reexamined in accordance with this section, or discharged.

When a resident is discharged under this subsection, the division shall provide any further support services available and required to meet the resident's needs.

(1) if the person is 18 years of age or older and was voluntarily admitted on his own application, the release shall be conditioned upon the agreement of the resident; and

(2) if the [administrator] director or his designee, believes that release of a resident, [admitted] committed under Section 62A-5-307, 62A-5-308, or 62A-5-309 would pose an immediate danger of physical injury to (himself) self or others, release of that resident may be postponed for up to 48 hours, excluding Saturdays, Sundays, and legal holidays. Within that time period, the [administrator] director or his designee may initiate involuntary commitment proceedings in the district or juvenile court. (b) a psychologist who is a designated mental retardation professional who is not directly involved in the resident's treatment or diagnosis; and

(c) another designated mental retardation professional of the facility for persons with mental retardation, or a designee.

(a) the proposed treatment is in the medical best interest of the resident, taking into account the possible side effects as well as the potential benefits of the medication; and

(b) the proposed treatment is in accordance with prevailing standards of accepted medical practice.

(3) In making the determination described in Subsection (2), the committee shall consider the resident's general history and present condition, the specific need for medication and its possible side effects, and any previous reaction to the same or comparable medication.

(4) Any authorization of involuntary treatment under this section shall be periodically reviewed in accordance with rules promulgated by the division.

40-6-9. Proceeds from sale of production — Payment of proceeds — Requirements — Proceeding on petition to determine cause of nonpayment — Remedies — Penalties.

(1) (a) The oil and gas proceeds derived from the sale of production from any well producing oil or gas in the state shall be paid to any person legally entitled to the payment of the proceeds not later than 180 days after the first day of the month following the date of the first sale and thereafter not later than 30 days after the end of the calendar month within which payment is received by the payor for production, unless other periods or arrangements are provided for in a valid contract with the person entitled to the proceeds.

(b) The payment shall be made directly to the person entitled to the payment by the payor.

(c) The payment is considered to have been made upon deposit in the United States mail.

(2) Payments shall be remitted to any person entitled to oil and gas proceeds annually for the aggregate of up to 12 months accumulation of proceeds, if the total amount owed is $100 or less.

(3) (a) Any delay in determining whether a person is legally entitled to an interest in the oil and gas proceeds does not affect payments to other persons entitled to payment.

(b) (i) If accrued payments cannot be made within the time limits specified in Subsection (1) or (2), the payor shall deposit all oil and gas proceeds credited to the eventual oil and gas proceeds owner to an escrow account in a federally insured bank or savings and loan institution using a standard escrow document form.

(ii) The deposit shall earn interest at the highest rate being offered by that institution for the amount and term of similar demand deposits.

(iii) The escrow agent may commingle money received into escrow from any one lessee or operator, purchaser, or other person legally responsible for payment.

(iv) Payment of principal and accrued interest from the escrow account shall be made by the escrow agent to the person legally entitled to them within 30 days from the date of receipt by the escrow agent of final legal determination of entitlement to the payment.

(v) Applicable escrow fees shall be deducted from the payments.

(4) Any person entitled to oil and gas proceeds may file a petition with the board to conduct a hearing to determine why the proceeds have not been paid.

(5) Upon receipt of the petition, the board shall set the matter for investigation and negotiation by the division within 60 days.

(6) (a) If the matter cannot be resolved by negotiation as of that date, the board may set a hearing within 30 days.

(b) If the board does not set a hearing, any information gathered during the investigation and negotiation shall be given to the petitioner who may then seek a remedy in a court of competent jurisdiction.

(7) (a) If, after a hearing, the board finds the proceeds have not been deposited in an interest bearing escrow account in accordance with Subsection (3), the board may order that:

(i) a complete accounting be made; and

(ii) the proceeds be subject to an interest rate of 1-1/2% per month, as a substitute for an escrow account interest rate, accruing from the date the payment should have been suspended in accordance with Subsection (3).

(b) If, after a hearing, the board finds the payment is without reasonable justification, the board may:

(i) if the proceeds have been deposited in an interest bearing escrow account in accordance with Subsection (3), order a complete accounting;

(ii) if the proceeds have not been deposited in an interest bearing escrow account in accordance with Subsection (3), require the proceeds and accruing interest to remain in the escrow account; and

(C) assess a penalty of up to 25% of the total proceeds and interest in the escrow account; or

(ii) if the proceeds have not been deposited in an interest bearing escrow account in accordance with

(c) (i) Upon finding that the delay of payment is without reasonable justification, the board shall set a date not later than 90 days from the hearing for final distribution of the total sum.

(ii) If payment is not made by the required date, the total proceeds, interest, and any penalty as provided in Subsection (b) shall be subject to interest at a rate of 1-1/2% per month until paid.

(d) If, after a hearing, the board finds the delay of payment was without reasonable justification and the proceeds have been deposited in an interest bearing escrow account in accordance with Subsection (3), the payor may not be required to make an accounting or payment of appropriately suspended proceeds until the condition which justified suspension has been satisfied.

(8) The circumstances under which the board may find the suspension of payment of proceeds is made with reasonable justification, such that the penalty provisions of Subsections (7)(b) and (7)(c) do not apply, include, but are not limited to, the following:

(a) the payor:

(i) fails to make the payment in good faith reliance upon a title opinion by a licensed Utah attorney objection to the lack of good and marketable title of record of the person claiming entitlement to payment; and

(a) suspend and escrow the payments in accordance with Subsection (3); or

(b) at the request and expense of the person claiming entitlement to the payment, make the payment into court on an interpleader action to resolve the claim and avoid liability under this chapter.

Section 30-3-5, Utah Code Annotated 1953, as last amended by Chapter 257, Laws of Utah 1991, is amended to read:

30-3-5. Disposition of property — Maintenance and health care of parties and children — Division of debts — Court to have continuing jurisdiction — Custody and visitation — Termination of alimony — Nonmeritorious petition for modification — Meritorious petition for modification.

(1) When a decree of divorce is rendered, the court may include in it equitable orders relating to the children, property, debts or obligations, and parties. The court shall include the following in every decree of divorce:

(a) an order assigning responsibility for the payment of reasonable and necessary medical and dental expenses of the dependent children;

(b) if coverage is available at a reasonable cost, an order requiring the purchase and maintenance of appropriate health, hospital, and dental care insurance for the dependent children; and

(c) pursuant to Section 15-4-6.5:

(i) an order specifying which party is responsible for the payment of joint debts, obligations, or liabilities of the parties contracted or incurred during marriage;

(ii) an order requiring the parties to notify respective creditors or obligees, regarding the court's division of debts, obligations, or liabilities and regarding the parties' separate, current addresses; and

(iii) provisions for the enforcement of these orders.

(2) The court may include, in an order determining child support, an order assigning financial responsibility for all or a portion of child care expenses incurred on behalf of the dependent children, necessitated by the employment or training of the noncustodial parent. If the court determines that the circumstances are appropriate and that the dependent children would be adequately cared for, it may include an order allowing the noncustodial parent to provide the day care for the dependent children, necessitated by the employment or training of the custodial parent.

(3) The court has continuing jurisdiction to make subsequent changes or new orders for the support and maintenance of the parties, the custody of the children and their support, maintenance, health, and dental care, or the distribution of the property and obligations for debts as is reasonable and necessary.

(4) In determining visitation rights of parents, grandparents, and other relatives members of the immediate family, the court shall consider the [wellfare] best interest of the child.

(5) Unless a decree of divorce specifically provides otherwise, any order of the court that a party pay alimony to a former spouse automatically terminates upon the remarriage of that former spouse. However, if the remarriage is annulled and found to be void ab initio, payment of alimony shall resume if the party paying alimony is made a party to the action of annulment and his rights are determined.

(6) Any order of the court that a party pay alimony to a former spouse terminates upon establishment by the party paying alimony that the former spouse is residing with a person of the opposite sex. However, if it is further established by the person receiving alimony that that relationship or association is without any sexual contact, payment of alimony shall resume.

(7) [When] If a petition for modification of child custody or visitation provisions of a court order is made and denied, the court [may] shall order the petitioner to pay the reasonable attorney's fees expended by the prevailing party in that action, if the court determines that the petition was without merit and not asserted or defended against in good faith.

(8) If a petition alleges substantial noncompliance with a visitation order by a parent, a grandparent,
or other member of the immediate family pursuant to Section 78-32-12.2 where a visitation right has been previously granted by the court, the court may award to the prevailing party costs, including attorney fees and court costs incurred by the prevailing party because of the other party's failure to provide or exercise court-ordered visitation.

78-32-12.1. Community service for violation of visitation order or failure to pay child support.

(1) If a court finds by a preponderance of the evidence that a parent has refused to comply with the minimum amount of visitation ordered in a decree of divorce, the court shall order the parent to:

(a) perform a minimum of 10 hours of community service; and

(b) participate in workshops, classes, or individual counseling to educate the parent about the importance of complying with the court order and providing a child a continuing relationship with both parents.

(2) If a custodial parent is ordered to perform community service or undergo court-ordered education, there is a rebuttable presumption that the noncustodial parent be granted visitation by the court to provide child care during the time the custodial parent is complying with community service or education in order to recompense him for visitation time wrongfully denied by the custodial parent under the divorce decree.

(3) If a noncustodial parent is ordered to perform community service or undergo court-ordered education, the court shall attempt to schedule the community service or education at times that will not interfere with the noncustodial parent's visitation with the child.

(4) The person ordered to participate in court-ordered education is responsible for expenses of workshops, classes, and individual counseling.

(5) If a court finds by a preponderance of the evidence that an obligor, as defined in Section 78-45-2, has refused to pay child support as ordered by a court in accordance with Title 78, Chapter 45, Uniform Civil Liability for Support Act, the court may order the obligor to:

(a) perform a minimum of 10 hours of community service; and

(b) participate in workshops, classes, or individual counseling to educate the obligor about the impor-
tance of complying with the court order and providing the children with a regular and stable source of support.

(6) The obligor is responsible for the expenses of workshops, classes, and individual counseling ordered by the court.

(7) If a court orders an obligor to perform community service or undergo court-ordered education, the court shall attempt to schedule the community service or education at times that will not interfere with the obligor's visitation with the child.

(8) The penalties that the court may impose under this section do not prevent the court from imposing other penalties as provided in Section 78-32-12.2 or other provisions in this chapter, or prevent any person from bringing a cause of action allowed under state or federal law.

(9) The Legislature shall allocate the money from the Children's Legal Defense Account to the judiciary to defray the cost of enforcing and administering this section.

73-5a-106. Dams classified according to hazard, size, and use.

(1) Dams shall be classified according to hazard, size, and use.

(2) Hazard classifications are as follows:

(a) high hazard — those dams which, if they fail, have a high probability of causing loss of human life or extensive economic losses, including damage to critical public utilities;

(b) moderate hazard — those dams which, if they fail, have a low probability of causing loss of human life, but would cause appreciable property damage, including damage to public utilities; and

(c) low hazard — those dams which, if they fail, would cause minimal threat to human life, and economic losses would be minor or limited to damage sustained by the owner of the structure.

(3) Size classifications are as follows:

(a) minor — dams with a hydraulic height of 10 feet or less and a storage capacity of 20 acre-feet or less;

(b) small — dams which do not meet the classification of a minor dam and have:

(i) a hydraulic height of 10 feet to 50 feet and a storage capacity of less than 20 acre-feet; or

(ii) a hydraulic height less than 25 feet and a storage capacity of less than 1,000 acre-feet;

(c) large — dams with:

(i) a hydraulic height greater than 100 feet or a storage capacity of greater than 50,000 acre-feet; or

(ii) a hydraulic height in excess of 50 feet and a storage capacity in excess of 1,000 acre-feet; and

(d) intermediate — dams which do not meet the criteria for a large dam, small dam, or minor dam.

(4) Use classifications are as follows:

(a) water storage — dams which impound water for prolonged periods, including those built for irrigation, power generation, water supply, aquatic culture, and recreation;

(b) flood control — dams constructed to operate only during significant runoff events and which impound water for a small percentage of time, including those built for flood control or sediment control and debris basins;

(c) tailings — dams in which a large component of the material impounded consists of saturated solids; and

(d) other — dams which impound a minimal amount of water or where the head behind the dam is minimal, including stock ponds, wash water ponds, recirculated process water ponds, regulating reservoirs, and diversion dams.

Section 2. Section Amended.

Section 73-5a-502, Utah Code Annotated 1953, as enacted by Chapter 319, Laws of Utah 1990, is amended to read:

(1) The state engineer shall establish minimum standards for existing dams by rule. The standards for existing dams may differ from the design criteria established for new construction.

[(2) (a) In implementing this section, the state engineer will develop a priority listing giving appropriate consideration to:

(i) the potential for loss of life;

(ii) possible property damage; and

(iii) the size of the dam.]

[(b) Upon completion of the listing, the state engineer will, beginning in 1991:

(i) select the 25 top-priority dams on the list each year; and

(ii) undertake preliminary investigations to determine:]

[(A) in what areas the dams and appurtenant facilities do not comply with the minimum standards set by the state engineer; and]
The dams will be ranked from the largest breach existing high hazard or moderate hazard dams to the lowest. The state engineer will conduct an investigation annually of 25 dams on the priority list in order of their ranking to determine what areas they are deficient or do not meet minimum standards.

Once a determination is made, the owner will be notified that he will be required to undertake investigations to determine requirements necessary to bring the dam into compliance with minimum standards.

Once the owner has been informed of the deficiencies of the dam, he will be given 90 days to respond, in writing, as to what steps he is taking to investigate the deficiencies and the time required to complete the investigations.

The state engineer will review the proposal, and if it appears reasonable, will approve it.

By October, 1995, the state engineer shall submit a report to the Energy, Natural Resources, and Agriculture Interim Committee indicating to what extent the dams for which investigations have been completed meet the hydrologic and seismic standards established in rule. The report shall:

- state what percent of the probable maximum flood the reservoir can pass and what seismic loadings the structures can withstand; and
- include estimated costs to upgrade the structures to minimum standards.

The state engineer will not require any upgrading of a dam or its appurtenant structures to meet the minimum standards adopted pursuant to this section for spillway capacity and seismic design prior to the legislative review of the report.

- The board, in addition to the amount allocated to a project to cover the actual cost of construction, may allocate to the project constructed by it, under contract or otherwise, such amounts as may be determined by it for investigating, engineering, inspection, and other expenses, and may authorize the use of moneys in the fund for the following purposes:

  - to develop water conservation projects, including paying the costs of construction, engineering, investigation, inspection, and other expenses,
  - to provide loans to dam owners to conduct dam safety studies and evaluations; or

Those moneys [will] repay be [accounted for] deposited into a subaccount within the Water Resources Construction Fund known as the Investigation Account, to be used by the board for the purpose of making investigations for the development and use of the water resources of the state.

- Contributions of money, property, or equipment may be received from any county, municipality, political subdivision of the state, federal agency, water conservancy district, water users association, person, or corporation for use in making investigations, constructing projects, or otherwise carrying out the purposes of this section.

The license issued under this chapter and the business license issued by the local jurisdiction in which the licensee has his principal place of business shall be the only licenses required for the licensee to engage in a construction trade or as a contractor within the state. The state or any political subdivision of the state shall not require of a licensee any additional business licenses, registrations, certifications, contributions, donations, or anything else established for the purpose of qualifying a licensee contractor to do business in that local jurisdiction, except for contract prequalification procedures required by state agencies or the payment of any fee for such license, registration, or certification established as a condition to do business in that local jurisdiction.

(2) It is unlawful for any person:

(3) Any person who violates the provisions of Subsections (2)(a) through (m), (o), and (p), or who fails to comply with a citation issued under Subsection (6) after it is final, is guilty of a class A misdemeanor. Any person who violates the provisions of Subsection (2)(b) may not be awarded a contract for the performance of the work.

(4) Any person who violates the provisions of Subsection (2)(n) is guilty of an infraction unless the violator did so with the intent to deprive the person to whom money is to be paid of the money received, in which case the violator is guilty of theft, as classified in Title 76, Section 6-412.

(6) Failure by a licensee to make application to, report to, or notify the division with respect to any matter for which application, notification, or reporting is required or related rules, including applying to the division for a new license to engage in a new specialty classification or to do business under a new form of organization or business structure, filing with the division current financial statements, notifying the division concerning loss of insurance coverage, or change in qualifier, shall be considered by the division and the board as grounds for immediate suspension of the licensee’s license.

(6)(a) If upon inspection or investigation, the division concludes that a contractor has violated the provisions of Subsections (2)(a), (b), (c), or any rule or order issued with respect to either subsection, and that disciplinary action is appropriate, the director or his designee from within the division for each alternative respectively, shall, promptly issue a citation to the contractor according to this chapter and any pertinent rules, attempt to negotiate a stipulated settlement, or notify the contractor to appear before an adjudicative proceeding conducted under Title 63, Chapter 46b, Administrative Procedures Act.

(i) Any person who is in violation of the provisions of Subsections (2)(a), (b), or (c), as evidenced by an uncontested citation, a stipulated settlement, or by a finding of violation in an adjudicative proceeding, may be ordered to cease and desist from violating Subsections (2)(a), (b), or (c).

The citation shall clearly state that the recipient thereof must notify the division within 10 working days of the citation’s issuance if the recipient wishes to contest the citation at a hearing conducted under Title 63, Chapter 46b. The citation shall clearly explain the consequences of failure to timely contest the citation or to make payment of any fines assessed by the citation within the time specified in the citation.

(c) The division may, in its discretion, issue a notice in lieu of a citation.

(d) Each citation issued under this section, or a copy of each citation, may be served upon any person upon whom a summons may be served in accordance with the Utah Rules of Civil Procedure and may be made personally or upon his agent by a division investigator or by any person specially designated by the director or by mail.

(e) If within 10 working days from the issuance of a citation by the division, the recipient fails to notify the division that the recipient intends to contest the citation, the citation shall be deemed a final order of the division and not be subject to review by any court or agency. The period to contest a citation may be extended by the division for cause.

(f) The division may refuse to issue or renew, suspend, revoke, or place on probation the license of a licensee who fails to comply with a citation after it becomes final.

(g) The failure of an applicant for licensure to comply with a citation after it becomes final is a ground for denial of license.

(h) No citation may be issued under this section after the expiration of six months following the occurrence of any violation.

(i) Fines shall be assessed by the director or his designee according to the following:

(iii) for any subsequent offense handled pursuant to subsection (a), a violation or fine of up to $2,000 for each day of unlicensed practice.

(7) Any penalty imposed by the director under this subsection shall be deposited into the Commerce Service Fund. Any penalty which is not paid may be collected by the director by either referring the matter to a collection agency or bringing an action in the district court of the county in which the person against whom the penalty is imposed resides or in the county where the office of the director is located. Any county attorney or the attorney general of the state is to provide legal assistance and advice to the director in any action to collect the penalty. In any action brought to enforce the provisions of this subsection, reasonable attorney's fees and costs shall be awarded.

(a) persons exempted from licensure under Title 58, Chapter 1, Division of Occupational and Professional Licensing Act;

Section 1. Section Amended.

Section 16-6-99.1, Utah Code Annotated 1953, as last amended by Chapter 108, Laws of Utah 1990, is amended to read:

16-6-99.1. Suspension — Notice — Failure to remove suspension.

(1) A domestic corporation that remains delinquent for more than 30 days after the mailing of the notice of delinquency under Section 16-6-99 shall be suspended. If a corporation is suspended under this section or under Section 59-7-166 59-7-534, the division shall mail a notice of suspension to the corporation, unless the corporation’s certificate of incorporation is already suspended for any reason. A corporation that is suspended continues its corporate existence and may carry on any business [so long as] if it also takes the necessary steps to remedy its suspended status and restore the corporation to good standing.

(2) A notice of suspension shall state:

(a) that the certificate of incorporation of the corporation has been suspended;

(b) the reason for the suspension;

(c) the date of the suspension;

(d) that the corporation may remove the suspension by correcting the delinquency and paying a reinstatement fee determined by the division pursuant to Subsection 63-38-3 (2), in addition to any fees required by Section 16-6-100, or, if its certificate of incorporation has been suspended under Section 59-7-166 59-7-534, by complying with the provisions of Section 59-7-167 59-7-536; and

(e) that the corporation will be dissolved 120 days after the date of mailing the notice of suspension unless the corporation has removed the suspension before that time.

(3) The division shall include an annual report form with any notice of suspension under this section for failure to file an annual report.

(4) If the corporation does not remove the suspension within 120 days after the date of mailing the notice of suspension, the corporation shall be dissolved. [The] The division shall mail a certificate of dissolution to the corporation. [No] A dissolved corporation [see dissolved] may not be revived under this chapter or Section 59-7-157 59-7-536, except as [set forth] provided in Subsection (5). The dissolution of any corporation precludes that corporation from doing business in its corporate character under any name or assumed names filed on behalf of the dissolved corporation under Section 42-2-5. On the date of dissolution, the corporation’s right in any assumed names it may use is suspended. The name of the dissolved corporation and any assumed names filed on its behalf are not available for one year from the date of dissolution for use by any other domestic corporation, foreign corporation transacting business in this state, or person doing business under an assumed name under Section 42-2-5.

(5) Any corporation which has been dissolved under this section may, within one year from the date of dissolution, be reinstated upon application and payment of all past due taxes, penalties, and reinstatement fees.

(6) All notices and certificates under this section shall be mailed first-class, postage prepaid, and shall be addressed separately to the registered agent and at least one officer of the corporation who is not the registered agent or to two officers if there is no registered agent of record at their most current mailing addresses appearing on the records of the division.

Section 2. Section Amended.

Section 59-1-402, Utah Code Annotated 1953, as enacted by Chapter 3, Laws of Utah 1987, is amended to read:

59-1-402. Interest.

(1) Except as provided in Subsection (2), the rate of interest applicable to any tax provision administered directly by the commission is 12% annually.

(2) The rate of interest applicable to certain installment sales for the purposes of the corporate franchise tax shall be determined pursuant to Section 463 A, Internal Revenue Code as provided in Section 69-7-112.

Section 3. Section Amended.

Section 59-1-703, Utah Code Annotated 1953, as renumbered and amended by Chapter 5, Laws of Utah 1987, is amended to read:

(1) If any liability which is due and payable under Sections 59-1-701 and 59-1-702 is not paid, the collection shall be made in the same manner as is provided for the collection of delinquent taxes in Sections 59-7-147 59-7-526 and 59-7-148 59-7-527. In addition, the commission may issue a warrant of like terms, force, and effect directed to any legally authorized representative of the commission. In the execution of the warrant the authorized representative shall have all the powers conferred by law upon sheriffs, but is entitled to no fees or compensation in excess of actual expenses paid in the performance of such duty.

(2) The appropriateness of any termination or jeopardy assessment shall be reviewable under the procedures prescribed by the commission by rule.

(3) In any proceeding brought to enforce payment of any liability made due and payable by virtue of this section or Section 59-1-701 or 59-1-702, the finding of the commission, whether made after notice to the taxpayer or not, shall be for all purposes presumptive evidence of jeopardy.

(4) After a petition has been filed with the commission and when the amount which the commission
has determined to be assessable has become final.
any unpaid portion which has been stayed by bond,
shall be collected as part of the tax upon notice and
demand from the commission, and any remaining
portion of the assessment shall be abated. If the
amount already collected exceeds the amount which
should have been assessed, the excess shall be cred-
ited or refunded to the taxpayer without the filing of
claim. If the amount the commission has deter-
mined to be assessable is greater than the amount
actually assessed, the difference shall be assessed,
and collected as part of the tax, upon notice and de-
mand by the commission.

(5) The commission may abate the jeopardy assess-
ment if it finds that jeopardy does not exist. The
abatement may not be made after a decision of the
commission in respect of the deficiency has been
rendered or, if no petition is filed with the commis-
sion, after the expiration of the period for filing peti-
tion. The period of limitation on making assess-
ments and levies or a proceeding for collection, in
respect of any deficiency, shall be determined as if
the jeopardy assessment so abated had not been
made. The running of the period of limitation shall
be suspended from the date of such jeopardy asses-
sments until the expiration of the 10th day after the
assessment is abated.

(6) The collection of all or any part of any jeopardy
assessment may be stayed by filing with the com-
mission a bond in the amount and under conditions
established by the commission. The taxpayer has
the right to waive the stay at any time in respect of
all or part of the amount covered by the bond. If, as
a result of the waiver, any part of the amount covered
by the bond is paid, then the bond shall, at the re-
quest of the taxpayer, be proportionately reduced. If
any portion of the jeopardy assessment is abated, or
if a notice of deficiency is mailed to the taxpayer in a
lesser amount, the bond shall, at the request of the
taxpayer, be proportionately reduced.

(7) If a bond is given before the taxpayer has filed
his petition pursuant to Chapter 1, Part 6, the bond
shall contain a condition that the amount of the defi-
ciency assessment, the collection of which is stayed
by the bond, will be paid on notice and demand at
any time after the expiration of such period, togeth-
er with interest thereon from the date of the jeopardy
notice and demand until the date of notice and de-
mand under this subsection. The bond shall be con-
ditioned upon the payment of that part of the assess-
ment (collection of which is stayed by the bond) which
is not abated by a decision of the commission and
has become final. If the commission determines that
the amount assessed is greater than the amount which
should have been assessed, then the bond shall, at the request of the taxpayer, be propor-
tionately reduced when the decision of the commis-
sion is rendered.

(8) When a jeopardy assessment is made, the
property seized for the collection of the tax may not
be sold until a notice of deficiency is issued and the
time for filing a petition for redetermination has ex-
pired. If a petition for redetermination is filed
(whether before or after the making of the jeopardy
assessment) the property may not be sold until the
commission's decision on the petition becomes fi-
nal; except that the property may be sold if the
taxpayer consents to the sale, the commission
determines that the expenses of conserva-
tion and maintenance would greatly reduce the net pro-
cceeds, or the property is perishable.

Immediately prior to undertaking an investigation, the ombudsman shall notify any complainant and any long-term care facility or governmental agency affected by the investigation. However, if the ombudsman has good cause to believe that prior notice would result in increased harm or risk of harm to the elderly resident by whom or on whose behalf the complaint was made, the ombudsman may proceed as provided in Subsection (2)(b).

(b) The effort to obtain permission under Subsection (a) shall include personal contact with the elderly resident or his legal representative. If the resident or legal representative refuses to sign a release allowing access to records, the ombudsman shall record and abide by this decision. If the attempt to obtain a signed release fails for any other reason, the ombudsman may review the records.

(b) disclosure is ordered by the court; or

(3) The board of directors may condition its submission of the proposed merger or share exchange on any basis.

(6) Separate voting by voting groups is required on a plan of:

(d) the number of participating shares outstanding immediately after the merger, plus the number of participating shares issuable as a result of the merger either by the conversion of securities issued pursuant to the merger or the exercise of rights and warrants issued pursuant to the merger, will not exceed by more than 20% the total number of participating shares outstanding immediately before the merger.

(8) As used in Subsection (7):

(a) "Participating shares" means shares that entitle their holders to participate without limitation in distributions.

(b) "Voting shares" means shares that entitle their holders to vote unconditionally in elections of directors.

(9) After a plan of merger or share exchange is approved, and at any time before the merger or share exchange becomes effective the merger or share exchange may be abandoned, subject to any contractual rights, without further shareholder action, in accordance with the procedure set forth in the plan of merger or share exchange or, if none is set forth, in the manner determined by the board of directors.

(10) If a merger or share exchange is abandoned after articles of merger or share exchange have been filed by the division pursuant to Section 16-10a-1105 specifying a delayed effective date, the merger or share exchange may be prevented from becoming effective by delivering to the division for filing prior to the specified effective time and date a statement of abandonment stating that by appropriate corporate action the merger or share exchange has been abandoned. The statement of abandonment shall be executed in the same manner as the articles of merger or share exchange.

(6) Notwithstanding Subsections (1) and (2), the failure of a foreign corporation to have authority to transact business in this state does not impair the validity of its corporate acts, nor does the failure prevent the corporation from defending [and] any proceeding in this state.

CHAPTER 36. UTAH MEDICAID HOSPITAL PROVIDER TEMPORARY ASSESSMENT ACT

This chapter in known as the "Utah Medicaid Hospital Provider Temporary Assessment Act."

Section 3. Section Enacted.

Section 26-36-102, Utah Code Annotated 1953, is enacted to read:

26-36-102. Legislative findings.

(1) The federal government requires the state to participate in the funding of the Medicaid program as a condition to receiving federal Medicaid matching funds known as federal financial participation.

(2) Congress has enacted the Medicaid Voluntary Contribution and Provider-Specific Tax Amendments of 1991, in part to regulate the use by states of donations and taxes from health care providers to meet state and federal financial participation requirements for the Medicaid program.

(3) It is the purpose of the assessment imposed by this act to raise revenue on a temporary basis from Utah hospital and ambulatory surgical facility providers that are expressly made subject to the assessment imposed by this act in a manner that will satisfy the provider-specific tax requirements of federal law and thereby assure, in part, the ability of the state to secure federal financial participation for Medicaid funds during the temporary period covered by this act. The temporary assessment imposed by this act, and its collection and use, shall in all respects be interpreted and implemented in a manner that will qualify all funds collected as state Medicaid funds eligible for federal financial participation pending establishment in the state of a broader base of public funding.

(4) All hospital and ambulatory surgical facility providers made subject to and required to pay the assessment imposed by this act shall, by the effective date of this act, be permitted to qualify as providers eligible for reimbursement for services provided according to the state Medicaid plan, and where the state has contracted for capitated mental health services with another entity to arrange for the provision of services for persons under the age of 22 and over the age of 64, the state's mental health capitated contractee shall contract with qualified providers who agree to accept reimbursement for services at the contracted rate, and shall refer patients to all the qualified providers.

(5) The assessment under this act shall be an interim measure for the specific purposes stated
pending development and implementation of public policy toward health care generally and the Medicaid program specifically.

Section 4. Section Enacted.

Section 26-36-103, Utah Code Annotated 1953, is enacted to read:

(1) Other than for the imposition of the assessment described in and utilized for purposes stated in this act, nothing in this act shall affect the nonprofit or tax exempt status of any nonprofit charitable, religious, or educational health care provider under Section 601(c), as amended, of the Internal Revenue Code or other applicable federal law, or under any state law, or any activities of or property owned by any such provider with respect to exemptions from ad valorem property taxes, income or franchise taxes, sales or use taxes, or any other taxes, fees, or assessments whatever, whether imposed or sought to be imposed by the state or any political subdivision, county, municipality, district, authority, or any agency or department thereof.

(2) For providers subject to the assessment imposed by this act, and also subject to the corporate franchise or income tax under Title 59, Chapter 7, all assessments paid under this act shall be allowed as a deductible expense under Title 59, Chapter 7.

(3) All assessments paid under this act may be included as allowable costs of hospitals for purposes of any applicable Medicaid reimbursement formula.

(b) A second or subsequent suspension under this subsection is for a period of one year, beginning on the 30th day after the date of arrest.

(8) (a) The division shall assess against a person, in addition to any fee imposed under Subsection 41-2-112 (15), a fee under Section 41-2-103, which shall be paid before the person's driving privilege is reinstated, to cover administrative costs. This fee shall be cancelled if the person obtains an appealed division hearing or court decision that the suspension was not proper.

(b) A person whose license has been suspended by the division under this subsection may file a petition within 30 days after the suspension for a hearing on the matter which, if held, is governed by Section 41-2-131.
Section 3. Section Amended.

Section 41-6-44.10, Utah Code Annotated 1953, as last amended by Chapter 78, Laws of Utah 1992, is amended to read:

41-6-44.10. Implied consent to chemical tests for alcohol or drug — Number of tests — Refusal — Warning, report — Hearing, revocation of license — Appeal — Person incapable of refusal — Results of test available — Who may give test — Evidence.

(1) (a) A person operating a motor vehicle in this state is considered to have given his consent to a chemical test or tests of his breath, blood, or urine for the purpose of determining whether he was operating or in actual physical control of a motor vehicle while having a blood or breath alcohol content statutorily prohibited under Section 41-6-44 or 41-6-44.4, or while under the influence of alcohol, any drug, or combination of alcohol and drug under Section 41-6-44, if the test is or tests are administered at the direction of a peace officer having grounds to believe that person to have been operating or in actual physical control of a motor vehicle while having a blood or breath alcohol content statutorily prohibited under Section 41-6-44 or 41-6-44.4, or while under the influence of alcohol, any drug, or combination of alcohol and any drug under Section 41-6-44.

(b) The peace officer determines which of the tests are administered and how many of them are administered, except the officer shall request that either the blood or urine test be administered under Section 76-6-207. If an officer requests more than one test, refusal by a person to take one or more requested tests, even though he does submit to any other requested test or tests, is a refusal under this section.

(c) A person who has been requested under this section to submit to a chemical test or tests of his breath, blood, or urine, may not select the test or tests to be administered. The failure or inability of a peace officer to arrange for any specific chemical test is not a defense to taking a test requested by a peace officer, and it is not a defense in any criminal, civil, or administrative proceeding resulting from a person's refusal to submit to the requested test or tests.

(2)(a) If the person has been placed under arrest, has then been requested by a peace officer to submit to any one or more of the chemical tests under Subsection (1), and refuses to submit to any chemical test requested, the person shall be warned by the peace officer requesting the test or tests that a refusal to submit to the test or tests can result in revocation of the person's license to operate a motor vehicle. Following this warning, unless the person immediately requests that the chemical test or tests offered by a peace officer be administered, no test may be given.

(b) A peace officer shall serve on the person, on behalf of the division, immediate notice of the division's intention to revoke the person's privilege or license to operate a motor vehicle. When the officer serves the immediate notice on behalf of the division, he shall:

(i) take the Utah license certificate or permit, if any, of the operator;

(ii) issue a temporary license effective for only 30 days; and

(iii) supply to the operator, on a form approved by the division, basic information regarding how to obtain a hearing before the division.

(c) A citation issued by a peace officer may, if approved as to form by the division, serve also as the temporary license.

(d) The peace officer shall submit a signed report, within five days after the date of the arrest, that he had grounds to believe the arrested person had been operating or was in actual physical control of a motor vehicle while having a blood or breath alcohol content statutorily prohibited under Section 41-6-44 or 41-6-44.4 or while under the influence of alcohol, any drug, or combination of alcohol and any drug under Section 41-6-44 and that the person had refused to submit to a chemical test or tests under Subsection (1).

(e) A person who has been notified of the division's intention to revoke his license under this section is entitled to a hearing. A request for the hearing shall be made in writing within ten days after the date of the arrest. Within 20 days after receiving a written request, the division shall notify the person of his opportunity to be heard as early as practicable. If the person does not make a timely written request for a hearing before the division, his privilege to operate a motor vehicle in Utah shall be revoked for a period of one year beginning on the 31st day after the date of arrest.

(f) If a hearing is requested by the person and conducted by the division, [and] the hearing shall be documented and shall cover the issues of:

(i) whether a peace officer had reasonable grounds to believe that a person was operating a motor vehicle in violation of Section 41-6-44; and

(ii) whether the person refused to submit to the test.

(g)(i) In connection with the hearing, the division or its authorized agent:

(A) may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers; and

(B) shall issue subpoenas for the attendance of necessary peace officers.

(ii) The division shall pay witness fees and mileage from the Transportation Fund in accordance with the rates established in Section 51-5-4.

(h) If after a hearing, the division determines that the person was requested to submit to a chemical test or tests and refused to submit to the test or tests, or if the person fails to appear before the division as required in the notice, the division shall revoke his license or permit to operate a motor vehicle in Utah for one year, beginning on the date the hear-
ing is held. The division shall also assess against the person, in addition to any fee imposed under Sub-
section 41–2–112 (15), a fee under Section 41–2–103, which shall be paid before the person's driving privilege is reinstated, to cover administrative costs. The fee shall be cancelled if the person obtains an unappealed court decision following a proceeding allowed under this subsection that the revocation was improper.

[(g)] (i) Any person whose license has been re-
voked by the division under this section may seek judicial review.

(ii) Judicial review of an informal adjudicative proceeding is a trial. Venue is in the district court in the county in which the person resides.

(3) Any person who is dead, unconscious, or in any other condition rendering him incapable of refusal to submit to any chemical test or tests is considered to not have withdrawn the consent provided for in Subsection (1), and the test or tests may be adminis-
tered whether the person has been arrested or not.

(4) Upon the request of the person who was tested, the results of the test or tests shall be made available to him.

(5) (a) Only a physician, registered nurse, practical nurse, or person authorized under Section 26–1–30, acting at the request of a peace officer, may withdraw blood to determine the alcoholic or drug content. This limitation does not apply to the taking of a urine or breath specimen.

(b) Any physician, registered nurse, practical nurse, or person authorized under Section 26–1–30 who, at the direction of a peace officer, draws a sample of blood from any person whom a peace officer has reason to believe is driving in violation of this chapter, or hospital or medical facility at which the sample is drawn, is immune from any civil or criminal liability arising from drawing the sample, if the test is administered according to standard medical practice.

(6) (a) The person to be tested may, at his own ex-
pense, have a physician of his own choice administer a chemical test in addition to the test or tests adminis-
tered at the direction of a peace officer.

(b) The failure or inability to obtain the additional test does not affect admissibility of the results of the test or tests taken at the direction of a peace officer, or preclude or delay the test or tests to be taken at the direction of a peace officer.

(c) The additional test shall be subsequent to the test or tests administered at the direction of a peace officer.

(7) For the purpose of determining whether to submit to a chemical test or tests, the person to be tested does not have the right to consult an attorney or have an attorney, physician, or other person present as a condition for the taking of any test.

(8) If a person under arrest refuses to submit to a chemical test or tests or any additional test under this section, evidence of any refusal is admissible in any civil or criminal action or proceeding arising out of acts alleged to have been committed while the person was operating or in actual physical control of a motor vehicle while under the influence of alcohol or any drug, or combination of alcohol and any drug.

3. When enrolling a loan, the state treasurer Utah Technology Finance Corporation shall request the treasurer to transfer into the state fund reserve account an amount determined as follows:

(a) If the amount of any loan made by a participating lender, plus the amount of loans previously enrolled by that participating lender, is less than $750,000, the state treasurer Utah Technology Finance Corporation shall request the state treasurer to deposit into the state fund reserve account in each case an amount equal to:

(i) [150%] 250% of the combined amounts paid into the lender's fund by the borrower and the participating lender for each enrolled loan reserve account in the state except those designated as enterprise zones under Title 69, Chapter 201.

(ii) [69%] 250% of the combined amounts paid into the lender's fund by the borrower and the participating lender for each enrolled loan reserve account in areas designated as enterprise zones under Title 69, Chapter 201.

(b) If prior to the enrollment of the loan the amount of loans previously enrolled equals or exceeds $750,000, the state treasurer Utah Technology Finance Corporation shall request the state treasurer to transfer into the state fund reserve account an amount equal to the combined amounts paid into the lender's fund by the borrower and the participating lender for each enrolled loan reserve account.

(c) If the amount of loans previously enrolled by a participating lender is less than $750,000 but the enrollment of a loan will cause the aggregate amount of all loans enrolled by that participating lender to exceed $750,000, the state treasurer Utah Technology Finance Corporation shall request the state treasurer to transfer into the state fund reserve account an amount equal to a percentage of the combined amount paid into the lender's fund by the participating lender and the borrower into the lender's fund re-
serve account, which percentage shall be determined:

(ii) by multiplying the balance of the loan by 100%; and

(iii) by adding together the products of such computations and dividing the sum by the total amount of the loan.

(4) In any three-year period, the [state treasurer] Utah Technology Finance Corporation may not request the treasurer to transfer more than ($60,000) $100,000 from the fund into any state fund reserve account for any one borrower.

The participating lender may claim any amount up to the actual amount lost from the lender’s fund reserve account and from the related state fund reserve account to cover that loss or default.

(1) If the amount in the fund reserve account is insufficient to cover the loss, and the amount of the loans previously enrolled by that participating lender is $750,000 or more, the participating lender shall absorb the loss and the Utah Technology Finance Corporation, the state and the state’s agencies, instrumentalities, and political subdivisions are not liable for any such losses.

(2) If the amount in the fund reserve account is insufficient to cover the entire amount of that claim, and the amount of loans previously enrolled by that participating lender is less than $750,000, the Utah Technology Finance Corporation shall pay to the participating lender an amount equal to the current balance in the fund reserve account. That claim shall then be held in abeyance until the remaining balance of the claim is not greater than 75% of the balance in the fund reserve account, then the Utah Technology Finance Corporation, upon the request of the lender, shall pay the remaining balance of the claim.

(3) If a participating lender makes a claim and there are sufficient monies in the fund reserve accounts, the claim shall be paid from the fund reserve accounts in the same proportions as the contributions and transfers to the fund reserve accounts upon enrollment of the loan.

Section 166. Section Amended.

Section 17-35a-3, Utah Code Annotated 1953, as enacted by Chapter 26, Laws of Utah 1973, is amended to read:

The [governing body of the] county legislative body may initiate proceedings for adoption of an optional plan of county government by one of the following methods:

1. Filing with the county clerk a petition bearing signatures of registered voters, equal to or exceeding in number 15% of the total number of votes cast in the county at the last preceding gubernatorial election, calling upon the county legislative body to submit to the voters of the county the question of adoption of an optional plan of county government described in, or annexed to, the petition. The full and complete text of the proposed optional plan is not required to be included in, or to be annexed to, the petition at the time of circulation to or signature by the voters, if it and each
of its parts contains a general description of the proposed optional plan, and makes reference to full and complete copies of it, not less than three in number, which prior to circulation of the petition shall have been filed and made available for public inspection in the office of the county clerk.

Within thirty days after the date of filing of the petition, the clerk shall report to the county legislative body whether it is signed by a sufficient number of qualified voters. If the clerk reports that the petition is insufficient, the county clerk shall publicly so declare, and the asserted insufficiencies may thereafter be cured by filing an amended or supplementary petition within twenty days after the date of such declaration of insufficiency. When the clerk reports to the governing body that a sufficient petition, as amended or supplemented, is on file, the petition shall be deemed to be a final proposal, and the governing body shall, within thirty days thereafter, take action with respect to the proposed optional plan, without change in it, pursuant to Section 17-35a-6.

(2) (a) Filing with the county clerk a petition hearing the signatures of registered voters equal to or exceeding in number 10% of the total number of votes cast in the county in the next preceding gubernatorial election, calling upon the county legislative body either:

(i) to adopt a resolution, after public hearing or hearings, establishing a study commission of not less than seven nor more than eleven members and causing its members to be appointed pursuant to Subsection (2) of Section 17-35a-5, or

(ii) to submit to the voters of the county at a special election to be designated by the governing body, but not later than the next general election held more than 90 days after the filing of the petition, the question: "Shall a study commission be established to study the present form of government in ___ county, and to consider and make recommendations respecting the adoption of an optional plan of county government?"

(b) Within thirty days after the date of the filing of the petition, the county clerk shall report to the [governing body of the] county legislative body whether the petition is signed by a sufficient number of qualified voters. If the clerk reports that the petition is insufficient, the governing body shall publicly so declare, and the insufficiencies may thereafter be cured by the filing of amended or supplementary petitions within twenty days after the date of the declaration of insufficiency. When the clerk reports to the governing body that a sufficient petition, as amended or supplemented, is on file, it shall provide by resolution for the holding of one or more duly noticed public hearings upon the petition within ninety 90 days after the date of filing of the petition, or of the last amended or supplemental petition, as the case may be.

(c) At the conclusion of the last hearing on the petition, the governing body shall either:

(i) adopt a resolution establishing the study commission, as proposed in the petition, and convening within ten days thereafter a meeting of the committee of appointment pursuant to Subsection (2) of section 17-35a-5, or

(2) (a) If a resolution by the governing body provides for the establishment of a study commission pursuant to Subsection (3) or Subsection (2), or Subsection (9) of Section 17-35a-3, or Subsection (9) of Section 17-35a-4, if a majority of the votes cast on the question of the establishment of a study commission with an appointed membership, duly submitted to the voters pursuant to Subsection (9) of Section 17-35a-3, or Subsection (9) of Section 17-35a-4, are in the affirmative, the county legislative body shall, within ten days after the election, convene a meeting of a committee of appointment composed of:

(i) the governor, or his designee; [it]

(ii) the speaker of the House of Representatives, or his designee; [it]

(iii) the president of the Senate, or his designee; [it]

(v) a resident of the county designated by majority vote of the mayors and town presidents of all cities and towns in the county; and [it]

(b) The committee of appointment shall, within ten days after its initial meeting, appoint the members of a broadly representative study commission, each of whom must be a qualified elector of the county not then holding any public office or employment other than membership on the committee of appointment, and shall convene the first meeting of the study commission within fifty 50 days after the date of the election.

(3) It shall be the duty of the study commission to study the form of government of and existing proce-
dures for delivery of local governmental services within the county and compare them with other forms available under the laws of the state of Utah to determine whether in its judgment the administration of local government within the county could be strengthened, made more clearly responsive or accountable to the people, or significantly improved in the interest of economy and efficiency, by a change in the form of such government.

4. The study commission shall have the power to adopt rules for its own organization and procedure, and to fill vacancies in its membership. It may establish advisory boards and committees, including on them persons who are not members of the study commission which it deems to be conducive to the discharge of its duties and may request the assistance and advice of any officers or employees of any agency of state or local government. Members of the commission shall serve without compensation but shall be reimbursed by the county for necessary expenses incurred in the performance of their duties. The county legislative body shall provide suitable meeting facilities, necessary secretarial, printing or photo-reproduction services, clerical and staff assistance, and reasonably adequate funds for the employment of independent legal counsel and professional consultants by the commission.

5. All meetings of the commission shall be open to the public. The commission shall hold public hearings and community forums and may use other suitable means to disseminate information and stimulate public discussion of its purposes, progress, and conclusions. It shall report its findings and recommendations not later than one year after the date of its first organizational meeting by filing a final report in written form with the governing body.

6. The study commission shall include in its final report: (a) a recommendation as to whether the form of government of the county should be changed to an optional form authorized by law; (b) if an optional form is recommended, a complete detailed draft of the proposed plan including all necessary implementing provisions authorized by law; and (c) any additional recommendations the commission deems appropriate to improve the efficient and economical administration of local government within the county.

7. The study commission may make alterations in its final report, following public hearings, up to 120 days prior to the election, but shall make no alterations which would lead to adoption of an optional form different from that proposed in the final report. The commission shall be discharged 90 days prior to the election.

(1) The structural form of county government known as the "urban county" form retains, without change or modification, except to the extent that changes or modifications may be effectuated under other proceedings authorized by law, all existing incorporated cities and towns, special taxing districts, public authorities, county service areas, and other local public entities functioning within the boundaries of the county. Under this form of government, the county remains vested with all powers and duties vested in counties by general law, but in addition is vested with and empowered to exercise within the unincorporated territory of the county all powers and duties which, by general law, are conferred upon cities whose population is equal to that of the unincorporated territory of such county.

(2) The urban county is empowered to enter into contractual arrangements for the joint exercise of powers or for performance of services and, for that purpose, may employ and be subject to the provisions of the Interlocal Co-operation Act, Title 11, Chapter 19. By contract, the urban county may perform for any city, town, special taxing district, public authority, county service area, or other local public entity within the county any governmental service or function which such entity is lawfully empowered to perform for itself within its own territory, or which the county is lawfully empowered to perform anywhere within the county boundaries.

The consolidated government shall have power to extend on a county-wide basis any governmental service or function which is authorized by law or which the previous county, cities, and other local public agencies included therein were empowered to provide for their residents, but no such service shall be provided within an incorporated municipality which continues to provide that service for its
own inhabitants, except upon a contract basis for the municipality, and no taxes, assessments, fees, or other charges shall be extended or collected within the municipality for the purpose of financing any service which is not provided by the consolidated government within the municipality. "Largest city," as used in this section, means a city or cities the population of which, as shown by the most recent decennial or special census, exceeds 35% of the total county population.

(2) The incorporated cities and towns, other than the largest city, in the county shall retain independent corporate existence and shall continue to provide local services to their inhabitants of the type and to the extent provided in the plan, but any such city or town, by majority vote of its qualified voters, cast either concurrently with the election at which the plan is approved or subsequently to it, as provided by the governing body of the city or town, may cause the city or town to be dissolved and its powers, duties, and functions vested in the county-wide government.

(3) The [governing] county legislative body of the county-wide government shall be a council composed of not less than five persons as specified in the plan, elected respectively from communities, which collectively include all of the territory within the county, having boundaries described in the plan embracing substantially equal populations. In addition to other powers vested in the county-wide government by law or pursuant to this act, the county council shall have all of the legislative and policymaking powers which it is possible for the governing body of a county or a city to possess and which are not expressly denied by the constitution, by a general law applicable to all cities or all counties, or by a specific restriction in the plan itself.

(4) The voters of each community shall elect a community council composed of the community’s elected member of the county council, who shall be chairman of the community council, and not less than two nor more than four additional members elected either from districts of substantially equal population within the community, or at large therein, as may be provided in the plan. A community council shall have the power and duty, in conformity with guidelines prescribed by the county council, to adopt policies and formulate specific programs relating to and defining the kinds and levels of local governmental services necessary to satisfy the needs and desires of the citizens within the community, but a community council shall have no power to engage personnel or to acquire facilities, property, or equipment for the administration or performance of such services. Any [board-of county] [commissioners] legislative body, upon its own motion, may by resolution declare that the public health, convenience and necessity requires the creation of an improvement district. Such resolution shall define the boundaries thereof and the purposes for which such district is to be created. Upon presentation to any [board-of county] [commissioners] legislative body of a petition signed by the legislative body of any city or town included within the proposed district, or by 25% or more of the owners of real property included within the proposed district, proposing the creation of an improvement district, and setting forth the boundaries and purposes of such improvement district, it shall be the duty of the [board-of county] [commissioners] legislative body to adopt a resolution as aforesaid. In the event the proposed district includes any part of another county or counties, the above resolution shall further state the name or names of the other county or counties and the areas within such other county or counties proposed to be included within such district. A certified copy of such resolution shall then be presented to the [board-of county] [commissioners] legislative body of such other county or counties. It shall be the duty of such other [board-of county] [commissioners] legislative body of such other county or counties. It shall be the duty of such other [board-of county] [commissioners] legislative body of such other county or counties within 60 days thereafter to approve or reject such resolution. After the approval of such resolution by such other board or boards, the [board-of county] [commissioners] legislative body of the county adopting the original resolution shall thereafter have complete jurisdiction over the entire district and its creation, and shall proceed as hereinafter provided in all respects as though only a single county were involved.

Section 197. Section Amended.

Section 17A-2-304, Utah Code Annotated 1953, as renumbered and amended by Chapter 186, Laws of Utah 1990, is amended to read:

(1) (a) After the resolution described in Section 17A-2-303 has been adopted by the [board-of county] [commissioners] legislative body, the governing body shall give notice of:

(i) its intent to establish the improvement district; and

(ii) a public hearing to discuss the establishment of the improvement district.

(b) That notice shall:

(i) define the area to be included in the district;

(ii) define the district's boundaries;

(iii) describe the nature and extent of the improvements proposed;

(iv) estimate the cost of the proposed improvements;

(v) estimate the amount of bonds proposed to be issued;

(vi) designate whether these bonds are to be payable from taxes, from operating revenues of the district, or from both; and

(vii) designate a time for the public hearing that is not more than 40 days after and not less than 21 days after such notice.
days after the notice required by Subsection (3) is first published.

c) The estimates required in this subsection may not be construed as establishing a limit upon the costs of the improvements constructed or upon the amount of the bonds issued.

(2) If the district is an electric service district, the notice shall contain a statement that the district complies with the requirements of Section 17A-2-302.

(3) (a) The county [governing] legislative body shall publish the notice once a week for three successive weeks in a newspaper of general circulation in each county that contains some or all of the proposed district.

(b) Any taxpayer within the district may, on or before the date of the public hearing, protest against the establishment of the district by filing a signed written protest with the county clerk of the county in which the district is located.

(c) If, at or before the time fixed in the notice, a written protest is filed that is signed by more than 25% of the real property owners within the proposed district, according to the last assessment roll for county taxes completed prior to publishing the notice, the district may not be established.

(d) Any person who has filed a protest and wishes to withdraw that protest, or who has filed a protest, withdrawn the protest, and wishes to cancel the withdrawal, shall do so on or before the date set for the public hearing.

(e) The board may require:

(i) the county surveyor to check and report on the accuracy of the proposed boundaries of the district; and

(ii) the officials who prepared the assessment roll to segregate and certify to the governing authority the taxable value of the real property appearing on the roll that lies within the proposed boundaries of the district.

(f) A written protest filed by a corporation owning real property in the district is sufficient if it is signed by the president, vice-president, or duly authorized agent of the corporation.

(g) (i) Where title to any real property in the district is held in the name of more than one person, all of the persons holding the title to that property must join in the signing of the written protest.

(ii) The deed records of the county shall be accepted as final and conclusive evidence of the ownership of the real property in the district.

(h) If any written protests are filed, and the board determines that the protests filed represent less than 25% of the property owners in the district, the resolution of the governing authority establishing the district shall contain a recital to that effect and that recital is binding and conclusive for all purposes.

(i) In the resolution establishing the district, the county [governing] legislative body shall eliminate from the proposed district any property originally included in the district that it determines will not be benefited by the proposed improvements.

(j) At the public hearing, or at any subsequent time to which the hearing may be adjourned, the county [governing] legislative body shall give full consideration to all protests that have been filed and shall hear all persons desiring to be heard.

(k) Following the hearing, the county [governing] legislative body shall adopt a resolution either creating the district or determining that it may not be created.

(l) Any resolution creating a district may contain any changes considered by the body to be equitable and necessary, including changes in the boundaries of the district, to assure that the district does not contain property that will not be benefited by the proposed improvements.

(4) After an improvement district is established, a property owner may petition the district court for a writ of review of the actions of the governing authority in establishing the district if:

(a) the person filed a written protest as provided in Subsection (3);

(b) the petition is filed within 30 days after the date of the resolution establishing the improvement district; and

(c) (i) the petition alleges that the person's property will not be benefited by one or more of the services to be provided by the improvement district; or

(ii) the petition alleges that the procedures used to establish the improvement district violated the law.

(5) If a petition for a writ of review is not filed within the time limits established by this section, owners of property and qualified voters within the improvement district may not object to the establishment of the district.

(6) The provisions of this section may not be considered to be a limitation on the rights of the governing authority to submit a bond issue in whatever amount and for whatever improvements that may be found desirable after the district has been organized.

Section 198. Section Amended.

Section 17A-2-310, Utah Code Annotated 1953, as renumbered and amended by Chapter 186 and last amended by Chapter 314, Laws of Utah 1990, is amended to read:

1. Except as to bonds issued payable solely from revenues derived from the district's facilities, it is the duty of each board of trustees which has issued bonds under this part to certify annually to each ap-
proprin[board-off county (commissioners) legislative body as provided in Section 17A-2-308, and it is the duty of the (board-of) county (commissioners) legislative body to levy annually until principal and interest shall have been fully paid, taxes on all taxable property in the district, sufficient to assure the prompt payment of principal and interest as each falls due, all as provided in Section 17A-2-309.

(2) If any bonds issued under this part are issued in a manner as not to be payable from taxes but to be payable solely from the revenues to be derived by the district from the operation of its facilities, the bonds so issued shall be payable from and secured by the pledge of all or any specified part of the revenues to be derived by the district from the operation of its facilities; and where the bonds are so issued, it is the duty of the board of trustees to impose for all services rendered thereby rates fully sufficient to pay principal of and interest on the bonds in that year as the board may provide in the resolution authorizing the bonds. The board may in the resolution enter into such covenants with the future holders of the bonds as to the management and operation of the facilities, the imposition and collection of fees and charges for water and services furnished by these facilities, the disposition of these fees and revenues, the issuance of future bonds and the creation of future liens and encumbrances against these facilities and the revenue from them, and carrying of insurance on the facilities, the keeping of books and records, and other pertinent matters, as considered proper by the board of trustees to assure the marketability of the bonds. The board may undertake in the resolution to make the revenues of the facilities sufficient to pay the expense of their operation and maintenance and may undertake to make the revenues or net revenues of the facilities sufficient to produce in each year an amount in such specified excess of actual requirements for principal and interest on the bonds in that year as the board may consider necessary to assure the highest marketability of the bonds. If the board provides in the resolution authorizing the revenue bonds for the creation of a reserve fund to assure the prompt payment of principal and interest, the board may provide for the accumulation of this fund not only from the revenues of the facilities but also through the payment into it of such part of the bond proceeds as it may consider advisable. A proposition of issuing general obligation bonds and a proposition of the issuance of revenue bonds, or any combination of them, may be voted upon at the same election.

(3) When bonds are issued under this part in whole or in part for sewer purposes and the district operates a waterworks system, provision may be made in the bond resolution under which charges for sewer service and water are to be billed in a single bill to each customer and payment of the charge for water accepted only when the charge for sewer service is paid at the same time. The board may agree to suspend water or sewer service, or both, to any customer who shall become delinquent in the payment of any charges due the district. Whether or not a district operates a waterworks system, any unpaid and delinquent charges for sewer or water service shall be certified to the clerk of the district to the treasurer or assessor of the county in which the delinquent premises are located. The amount of the delinquent charges, together with interest and penalties, shall immediately upon the certification become a lien on the delinquent premises on a parity with and collectible at the same time and in the same manner as general county taxes are a lien on the premises and are collectible. All methods of enforcement available for the collection of general county taxes, including sale of the delinquent premises, shall be available and shall be used in the collection of the delinquent sewer charges. However, when the customer is a renter of residential property covered by Title 57, Chapter 22, any unpaid and delinquent charges are a personal liability for the customer and may not be placed as lien on the property.

Section 198. Section Amended.

Section 17A-2-317, Utah Code Annotated 1953, as renumbered and amended by Chapter 186, Laws of Utah 1990, is amended to read:

Whenever any district has been heretofore created or purported to be created under authority of Chapter 25, Laws of Utah 1947, Chapter 24, Laws of Utah 1949, or the act hereby amended and where proceedings have been adopted by the governing body of such district for the purpose of authorizing the bonds of such district, and such things are payable from operating revenues or from taxes or both, and whether or not such bonds have been heretofore delivered, all proceedings had in connection with the creation of such district, the organization of the governing body thereof, and all proceedings had in connection with the authorization of such bonds, and, when duly delivered and paid for as required by such proceedings, the bonds themselves are hereby validated, ratified and declared to be binding and effective in accordance with their terms notwithstanding any failure to comply with any one or more pertinent statutory provisions and notwithstanding whether such proceedings have been continuously in effect from the date of their adoption to the date of the passage of this part.

Where any district has been originally initiated or created under authority of either Part 3, Chapter 2 or Part 2, Chapter 3, the governing authority of such district may proceed to issue bonds and operate facilities under the authority of the law under which it
was created or may, if in so doing provision is made for the payment in full of all expenses and obligations heretofore incurred by such district for legal, engineering, fiscal agent's and other proper services, make such changes and amendments in the proceedings for the authorization of such bonds as may be necessary to effect the authorization and issuance of such bonds under the provisions of this part as amended, and to that end, may increase or decrease the amount of bonds so authorized, may make such bonds payable in whole or in part from the operating revenues of the district or from taxes or both as herein provided, and may make any other changes in such proceedings it may deem to the best interests of the district. If any such change has the effect of pledging or allocating to the payment of any such bond taxes to be levied by such district, such amendatory proceedings shall become effective only when there shall have been given the notice contemplated by Section 17A-2-304 hereof, and when the hearing required by such section shall have been held and appeals taken therefrom, if any, terminated. For the purpose of this section, the board of county commissioners legislative body under district initiated or created under said Part 2, Chapter 3, shall at its option, if it elects hereafter to proceed hereunder, exercise all duties and functions provided by this part to be exercised by the board of trustees of any district created hereunder or may cause an election to be held for the election of trustees in accordance with the provisions of this part.

If the commissioners, after hearing any and all competent evidence that may be offered before it for and against the said petition, shall find the same has not been signed as hereinbefore provided, said petition shall be dismissed at the cost of the petitioners; but if the commissioners shall find that the petition has been signed as hereinbefore provided, the commissioners shall so find, and such finding shall be conclusive upon the landowners of such district that they have assented to and accepted the provisions of this part; and the [board-of county [commissioners] legislative body may make such changes in the proposed boundaries as they may find to be proper, and shall establish and define such boundaries; provided, that said [board] body shall not modify said boundaries so as to except from the operation of this part any territory within the boundaries of the district proposed by said petitioners which is susceptible of drainage by the system of works applicable to the other lands in such proposed district; provided, that any person whose lands will not, in the opinion of said [board] body, be benefited by drainage by said system, may have such lands excluded from such district upon application to said [board] body, except as provided in Section 17A–2–616; and provided, further, that any person whose lands are susceptible of drainage by the same system may, in the discretion of the [board-of county [commissioners] legislative body, upon application of the owner to said [board], have such lands included in said districts. It shall be the duty of the board of supervisors to lay out and construct such proposed work, and to levy a tax upon the lands in said drainage district, subject to the approval of the [board-of county [commissioners] legislative body, as hereinafter provided. If said [board-of county [commissioners] legislative body shall find that the establishment and creation of such drainage district will be a benefit as hereinbefore set forth, said board shall, within ten days, proclaim such district created, and such proclamation shall be published for at least ten days thereafter by posting in three public places within said county or counties at least one of which places shall be within said drainage district, or by publishing the said proclamation in some newspaper of general circulation published in the county and if the district embraces lands in more than one county, then in a newspaper of general circulation published in each such county, or if there be no such paper published in any such county or counties, then in some newspaper having a general circulation in such county or counties, and the said proclamation shall be substantially in the following form:

Section 251. Section Amended.

Section 17A-2-719, Utah Code Annotated 1953, as renumbered and amended by Chapter 186, Laws of Utah 1990, is amended to read:

It shall be the duty of the county assessor of any county embracing the whole or a part of any irrigation district to assess and enter upon his record as assessor in its appropriate column the assessment of all real estate, to which water has been allotted, exclusive of improvements, situata, lying and being within any irrigation district in whole or in part in such county. The assessor shall assess the lands on the basis of the value per acre-foot of water allotted to the lands within the district; provided, that the board of directors of any such irrigation district may divide the district into units and fix a different value per acre-foot of water, or other units of measurement, to cover the service, turnout, construction, distribution charges, or other charges, if any, in the respective units, and in such case, the assessor shall assess the lands within each such unit upon the same basis of value per acre-foot of water, or other units of measurement, to cover the service, turnout, construction, distribution charges, or other charges, if any, within such unit; and the assessor shall enter on his assessment roll the amount of special benefits assessed against each tract of land within any local improvement district situate in the irrigation district as the same is shown on the equalized benefit assessment roll of said improvement district. Immediately after said assessment shall have been extended as provided by law, the assessor shall make returns of the total amount of such assessment to the county [commissioners] legislative body of the county in which the office of said district is located.

In case of contract with the United States, however, under the federal laws, the assessment of real estate within the district may be otherwise apportioned in the following manner:

(1) It may be provided by contract with the United States that assessments shall conform to the requirements of the federal reclamation laws now enacted or which may hereafter be enacted.

(2) It may be provided by contract with the United States that water shall be furnished to the district, or to part of the irrigable lands thereof, upon a temporary rental basis, whereupon lands of the district for which rental charges for any given year are not required to be paid to the United States by the district shall not be taxed for such purposes.

(3) District lands shall not be taxed for purposes of payment to the United States in any year when, and to the extent, on account of exceptional difficulties of reclamation, the district shall be exempted by contract with the United States from said payment to the United States for such lands.

(4) The lands of any irrigation district may be by contract with the United States, divided into units and placed upon a basis of repayment to the United States in successive units, which shall not necessarily be composed of contiguous lands, and in such event the lands of units not yet, in any year, placed upon the repayment basis shall not during such year be subject to taxation for payment of building costs.

(5) In case lands, which shall have been irrigated by means of ditches, canals and reservoirs constructed prior to the organization of any district shall be included within such district under the terms of Section 17A-2-701, equitable credit shall be given in the making of assessments for any water and ditch rights appurtenant to such lands, such adjustment shall be made by the board of directors of such irrigation district, which adjustment shall be equitably made so that the cost of the additional rights, property, or benefits acquired by the district under contract from the United States will be fairly and equitably apportioned between the lands having rights in such old ditches, reservoirs or other works, and the lands of the district having no such rights, and due and equitable allowance made to the lands to which any such rights may be appurtenant; provided, that before making any such adjustment or allowance, the board of directors shall publish notice for a period of at least three weeks in a newspaper published in the county in which the greater portion of the irrigable lands of the district are located or if there be no such newspaper published in such county, then in some newspaper of general circulation in that county, which notice shall state that a meeting of the board will be held for the purpose of making such adjustment and allowance, and that all parties interested therein who desire to be heard on the matter will be given an opportunity to appear and present evidence, and such notice shall state the date, the day and hour that such meeting will be held and the place of meeting, and at the date and place provided in the notice the board shall proceed to hear such evidence, if any be presented, and to make such adjustment or allowance in the manner herein prescribed. After such adjustment and allowance by the board of directors, the board shall proceed in the manner prescribed in Sections 17A-2-749, 17A-2-750, 17A-2-751, 17A-2-752, and 17A-2-753 to have such adjustment and allowance duly confirmed by decree of court in similar manner to that provided in said sections with reference to confirmation of the bond issue, and the court shall proceed in like manner as provided in said sections.
ty of the adjustment or allowance made by the board, and should the court find said proceedings regular and said allowance or adjustment equitable, then the court shall file its findings and decree confirming the said allowance and adjustment, but if the court shall find that such allowance and adjustment is not equitable, then the court shall itself make an allowance and adjustment which shall be just and equitable as between the various classes of lands in the district, and shall file a decree, confirming such apportionment in like manner and with like effect as the findings and decree provided for in said Section 73-7-53, provided, that in no case shall any land be taxed for irrigation purposes under this part, which from any natural cause cannot be irrigated, or is incapable of cultivation.

Section 252. Section Amended.

In fixing the rates of levy the basis shall be the total assessment returned for the district, except that in the case of districts under contract with the United States, all amounts assessed against land held by the county on district tax sales shall be excluded. The rates of levy as above determined shall be increased 15% to cover delinquencies; except that in fixing the rate necessary to meet all payments due or to become due under any contract with the United States such further and additional increases above said 15% shall be made if so provided in said contract as are sufficient to cover any deficit that may have resulted from delinquent assessments for any preceding year. For the purposes of said district it shall be the duty of the county [commissioners] legislative body of each county in which any irrigation district is located, in whole or in part, at the time of making levy for county purposes, to make a levy at the rates above specified, upon all real estate in said district within their respective counties. It shall furthermore be the duty of the county [commissioners] legislative body of each county embracing any portion of said district when sitting as a board of equalization for general county taxes to equalize district taxes. All taxes levied under this part are special taxes.

For the purpose of defraying the expenses of the organization of the district, and the construction, care, operation, management, repair and improvements of all canals, ditches, reservoirs and works, including salaries of officers and employees, or for the payment of charges to the United States for any of said purposes, or for rental of water, the board may either fix rates of tolls and charges and collect the same from all persons using said canal and water for irrigation, or other purposes, or in the case of such charges to be paid to the United States the same shall be collected from lands for which water service can be made, pursuant to contract with the United States, and in addition thereto may provide, in whole or in part, for the payment of such expenditures by levy of assessments therefore, as herefore provided, or by both tolls and assessments, provided that if contract be made with the United States the charges for operation and maintenance or rental, as the case may be, may be fixed in accordance with the federal laws, notice and rules, and the contract with the United States; provided, further, that in case the money raised by sale of bonds issued be insufficient, or in case bonds be unavailable for the completion of the plans by causing to be levied assessments for the completion in the same manner in which levy of assessments is made for the other purposes provided for in this part. All tolls and charges other than regular assessments levied by the [board of] county [commissioners] legislative body of the counties in which any portion of the district is situated shall be collected by the secretary of the district and shall be by him deposited to the credit of the district designating the funds to which such moneys shall be credited.

Upon the filing of such petition the court shall give
such notice regarding the hearing thereof as it shall deem necessary and shall proceed to hear all objections against such dissolution. If no bonds have been issued or other obligations incurred which may not be paid by a pro rata assessment against the landowners within said district, or if no contract has been entered into with the United States or other persons which cannot be abrogated or the value of which cannot be assessed as liquidated damages, the court shall order a dissolution of the district upon the payment by each person therein of his pro rata share of the obligations of the district, provided that if it shall appear to the court that there are lands within the district the value of which will not satisfy such pro rata share, then assessment against the remaining lands shall be increased in an amount sufficient to repay the total obligations of the district. If any landowner shall fail to pay the amounts so assessed against him, such amount shall be a prior lien against his land and the same shall be sold by court order as upon a tax sale as provided in Section 17A-2-722, and the proceeds of the sale shall be applied toward the payment of the amount assessed against him. All powers, privileges, and duties vested in or imposed upon any district incorporated hereunder shall be exercised and performed by and through a board of directors which shall have authority to delegate the exercise of any and all executive, administrative, and ministerial powers to any of the offices created under this part.

Members of the board of directors shall be selected as follows:

(1) If the district serves a population of less than 200,000 people residing within the district boundaries, the board of directors shall consist of directors appointed by each municipality, county, or unincorporated area within any county on the basis of one director for each full unit of regularly scheduled passenger routes proposed to be served by the district in each municipality or unincorporated area within any county in the next following calendar year. The number of service miles comprising a unit shall be determined jointly by the governing bodies of the municipalities or counties comprising the district. Directors shall thereafter be appointed and added to the board or omitted from the board at the time scheduled routes are changed, or as municipal- administrative, and ministerial powers to any of the offices created under this part.

(2) If the district serves a population of more than 200,000 people residing within the district boundaries, the board of directors shall consist of one director appointed by each county within the district or one director appointed by each municipality or combination of municipalities annexed to the district after January 1, 1984, and located outside a county not incorporated into the district having a population of at least 20,000 within the district based upon its membership in the district, plus one additional director for each 120,000 population residing within the county or municipality or combination of municipalities and within the district. Directors representing counties should be designated and appointed by the chief executive officer of the county with the consent and approval of the governing body of the county, and any other censuses agreed upon by the governorship of the municipalities or counties comprising the district.

Each director shall be a bona fide resident of the municipality, county, or unincorporated area or areas which he is to represent for at least six months before date of appointment, and must continue in such residency to remain qualified to act as a director. Directors shall be designated and appointed by the chief executive officer of their respective municipality or county with the consent and approval of the governing body thereof (or by each chief executive officer and governing body which they represent in the case of directors appointed from a combination of municipalities, counties, or unincorporated areas as above provided). Each director shall be entitled to cast one vote on all questions, orders, resolutions, and ordinances coming before the board. A majority of all members of the board shall constitute a quorum for the transaction of business, but if less than a majority is present, a majority of those present may adjourn the meeting from time to time without further notice. The affirmative vote of a majority of all directors present at any meeting at which a quorum was initially present shall be necessary and, except as otherwise provided, shall be sufficient to carry any order, resolution, ordinance, or proposition coming before the board. An attendance fee of $25 per board or committee meeting attended, but not to exceed $75 in any calendar month to any member plus reasonable mileage and expenses necessarily incurred to attend said meetings shall be paid to members of the board.

Members of the board so constituted shall convene at the time and place fixed by the chief executive officer of the entity initiating the proceedings hereunder and, immediately upon convening, the board shall elect from its membership a president, vice-president, and secretary, who shall serve for a period of two years or until their successors shall be elected and qualified.

No director shall hold any elected public office with the United States, the state of Utah or any political subdivision of either, or any employment (except as an independent contractor) with a county or municipality within the district at the time of his appointment or during his tenure in office. The appointment of directors shall be made without regard to partisan political affiliation from among citizens of the highest integrity, attainments, competence, and standing in the community.

The terms of office of the members of the board shall be three years, except the initial directors. At the first meeting of the directors the directors shall
designate by the drawing of lots one-third of their number to serve for one year terms, one-third for two year terms, and one-third for three year terms. No director shall be appointed for more than two successive full terms. Vacancies, however occurring, shall be filled by the official appointing the member creating the vacancy for the unexpired term, unless the official shall fail to fill any vacancy within 60 days following the creation thereof, and then such vacancy shall be filled by the board of directors of the authority.

Each director before entering upon the duties of his office shall take an oath of office which shall be filed with the lieutenant governor and a copy thereof with the secretary of the district. Whenever a vacancy occurs on the board, it shall be filled by the governing body of the entity represented by the director through whom the vacancy occurs.

17A-2-1424. Board may sell or lease water to municipalities upon petition — Levy and collection of special assessments under class B.

To levy and collect special assessments under class B as herein provided, the board shall make an allotment of water to each petitioning municipality in the district in the manner as hereinbefore provided, in such quantity as will in the judgment of the board, when added to the then present supply of water of such municipality, make an adequate supply for such municipality, and shall fix and determine the rate or rates per acre-foot, or other units of measurement, the service, turnover, construction, distribution system charges, or other charges, if any, and terms at and upon which water shall be sold, leased or otherwise disposed of, for use by such municipalities; provided, however, that such rates and charges shall be equitable although not necessarily equal or uniform for like classes of services throughout the district. In the event of any city, city and county, or town shall desire to purchase, lease or otherwise obtain the beneficial use of waters of the district for domestic or irrigation purposes, the legislative body of such municipality shall by ordinance authorize and direct its mayor and clerk to petition the board for an allotment of water, upon terms prescribed by the board, which petition shall contain inter alia, the following:

(1) Name of municipality.

(2) Quantity of water to be purchased or otherwise acquired.

(3) Price per acre-foot or other unit of measurement, and the amount of any service, turnover, connection, distribution system charge or other charges to be paid.

(4) Whether payments are to be made in cash or annual installments.

(5) Agreement by the municipality to make payments for the beneficial use of such water together with annual maintenance and operating charges and to be bound by the provisions of this part and the rules and regulations of the board.

Neither the quantity of water to be acquired, nor the rates or charges as specified in such petition, need be the same in each year to be covered by the petition. Any such petition and order may provide for water for such municipality for such term of years as may be fixed therein and the procedure herein provided for the determination of the amount of taxes necessary to be levied each year shall be operative in each year over such term of years without the filing of a new petition or the entering of a new order.

The secretary of the board shall cause notice of the filing of such petition to be given and published once each week for two successive weeks, in a newspaper published in the county in which said municipality is situated, which notice shall state the filing of such petition and giving notice to all persons interested to appear at the office of the board, at a time named in said notice, and show cause, in writing, if any they have, why the petition should not be granted, and such persons may advance reasons and arguments to show that the municipality and its inhabitants will not be benefited by the proposed petition and order to the amount of such taxes. The board at the time and place mentioned in said notice or at such time or times at which the hearing of said petition may adjourn, shall proceed to hear the petition and objections thereto, presented, in writing, by any person showing cause as aforesaid, shall be deemed and taken as an assent on his part to the granting of said petition. The board may at its discretion, accept or reject the said petition, but if it deems it for the best interest of the district that said petition be granted, and if it finds that said municipality and its inhabitants will be benefited thereby to an amount not less than the taxes which will be imposed, it shall enter an order granting the said petition and from and after such order the said municipality shall be deemed to have purchased, leased or otherwise acquired the beneficial use of water as set forth in said order. If said petition is granted, the board shall, in each year, determine the amount of money necessary to be raised by taxation from property within such municipality to pay the annual installments and a fair proportionate amount of estimated operating and maintenance charges for the next succeeding year, as provided in the order granting said petition, and prepare a statement showing the tax rate to be applied to all property in such municipality, which rate shall be the rate fixed by resolution of the board modified to the extent necessary to produce from each such municipality only the amount of money apportioned thereto in said resolution, less any amount paid or undertaken to be paid by such municipality in cash or as credited thereto by payments from the other funds of such municipality. In fixing the rate of taxes to be levied in each year the board shall give due consideration to probable delinquencies in tax payments and shall fix such rate as will assure the prompt collection of taxes sufficient to make up the amount needed for such year despite the fact that a part of the taxes so levied may be delinquent when due. Upon receipt by the [board of county [commissioners] legislative body of each county, wherein such municipality is located, of a certified copy of such resolution showing the tax rate to be applied to all property in each municipality and showing the municipalities and the property which is exempt therefrom, if any, it shall be the duty of the county officers to levy and collect such tax in addition to such other tax as may be levied by [such board of the county [commissioners] legislative body at the rate so fixed and determined.

The hearing on the petition for which provision is hereinabove required and the finding as to benefits
which will be made by the board shall take into consideration a tax to be levied on all real and personal property in the petitioning municipality and the class B assessments which will be levied pursuant to the provisions of this section shall be in the nature of ad valorem taxes to be levied on all real and personal property in the municipality with the exception of property exempt from taxation under the provisions of the Constitution and statutes of Utah or Section 17A-2-1431.

Section 273. Section Amended.

Section 17A-2-1430, Utah Code Annotated 1983, as renumbered and amended by Chapter 186, Laws of Utah 1990, is amended to read:

17A-2-1430. Tax sales.

If the taxes and assessments levied are not paid as herein provided, then the real property shall be sold at the regular tax sale for the payment of said taxes and assessments, interest and penalties, in the manner provided by the statutes of the state of Utah for selling property for payment of general taxes. If there are no bids at said tax sale for the property so offered under class A and class B, said property shall be struck off to the county, and the county shall account to the district in the same manner as provided by law for accounting for school, town and city taxes. And if there are no bids for the property so offered under class C and class D, said property shall be struck off to the district and the tax certificate shall be issued in the name of the district and the board shall have the same power with reference to sale of said tax certificate, as now vested in the county legislative body and county treasurers when property is struck off to the counties.

Section 274. Section Amended.

Section 17A-2-1437, Utah Code Annotated 1983, as renumbered and amended by Chapter 186, Laws of Utah 1990, is amended to read:

(1) The boundaries of any district organized under this part may be changed as provided by this section, but the change of boundaries of the district shall not impair or affect:

(a) its organization;

(b) its rights in or to property;

(c) any of its other rights or privileges; or

(d) any contract, obligation, lien, or charge for or upon which it might be liable or chargeable had the change of boundaries not been made.

(2) (a) The owners of lands which are either contiguous or noncontiguous to the district and to each other may file a written petition with the board re-

quiring that their lands be included in the district. The petition shall contain:

(i) a description of the tracts or body of land sought to be included; and

(ii) the signatures, acknowledged in the same form as conveyances of real estate, of the owners of the lands.

A petition filed in this form will be considered to give assent of the petitioners to the inclusion within the district of the lands described in the petition.

(b) The board shall, within 90 days after the filing of the petition, set and convene a hearing to consider the petition and all objections.

(c) The secretary of the board shall cause notice of the filing of the petition to be given and published in the county in which the lands are situated. This notice shall state:

(i) the names of petitioners;

(ii) a description of lands mentioned;

(iii) the request of the petitioners; and

(iv) that all persons interested must appear at the office of the board at the time named in the notice and state in writing why the petition should not be granted.

(d) The board shall at the appropriate time, proceed to hear the petition and review the written objections to the petition. The failure of any person to show cause, in writing, shall be considered to be his assent to the inclusion of these lands within the district.

(e) If the petition is granted, the board shall make an order to that effect and file the petition with the clerk of the court and upon order of the court the lands shall be included in the district.

(3) (a) In addition to the method provided in Subsection (2), additional areas may be included in a district by petition as described in this subsection. A written petition may be filed to include:

(i) irrigated lands;

(ii) nonirrigated lands;

(iii) land in towns and cities;

(iv) other lands; or

(v) any combination of lands under this subsection. These lands may be contiguous or noncontiguous to the district and to each other.

(b) The petition must:

(i) be filed in the district court of the county in which the petition for organization of the original district was filed;

(ii) include the signatures, acknowledged in the same form as conveyances of real estate, of not fewer than 20% or 500, whichever is the lesser, of the owners of irrigated lands in the area, but outside the corporate limits of a city or town;

(iii) include the signatures, acknowledged in the same form as conveyances of real estate, of not fewer
than 5% or 100, whichever is the lesser, of the owners of nonirrigated lands and lands within the incorporated limits of a city or town, which are within the area specified in the petition;

(iv) a description of each tract of land owned by the signer opposite the name of the signer, with an indication that each tract, together with its improvements, has a taxable value of not less than $300; and

(v) set forth:

(A) a general description of the territory in the area sought to be included in the district;

(B) the name of the district in which it is sought to be included;

(C) the terms and conditions upon which inclusion is sought;

(D) a statement that the property sought to be included will be benefited by the accomplishment of the purposes for which the original district was formed; and

(E) a request for inclusion of the area in the district.

(c) No petition with the requisite signatures shall be declared null and void because of alleged defects, but the court may permit the petition to be amended to conform to the facts by correcting any errors. However, similar petitions or duplicate copies of the petition for the inclusion of the same area may be filed and shall together be regarded as one petition. All petitions filed prior to the hearing on the first petition shall be considered by the court the same as though filed with the first petition. In determining whether the requisite number of landowners has signed the petition, the names as they appear upon the tax roll shall be prima facie evidence of their ownership.

(d) At the time of filing the petition or at any time before, and prior to the time of hearing on the petition, a bond shall be filed, with security approved by the court sufficient to pay all expenses connected with the proceedings in the case. If at any time during the proceeding the court determines that the first bond is insufficient, the court may require that an additional bond be obtained within ten days following the court's request. If the petitioner fails to obtain a bond, the petition shall be dismissed.

(e) Immediately after the filing of the petition, the district court of the county where the petition is filed shall fix a place and time between 60 and 90 days after the petition is filed for a hearing. The clerk of the court shall then publish notice of the pendency of the petition and of the time and place of hearing. The clerk of the court shall also mail a copy of the notice by registered mail to:

(i) the board of directors of the district;

(ii) the [board of] county [commissioners] legislative body of each of the counties with land within the area proposed to be included in the district; and

(iii) the governing body of each of the cities or towns having territory within the area proposed to be included within the district.

(f) After the filing of a petition for inclusion of an additional area and at least 30 days prior to the time fixed by the court for the hearing on the petition, a petition protesting the inclusion of the lands within the district may be filed in the clerk's office of the court where the proceeding for inclusion is pending. The protest petition must contain the signatures, acknowledged in the same form as conveyances of real estate, of at least:

(i) 35% of the owners of irrigated lands in the area sought to be included, but not within the incorporated limits of a city or town;

(ii) 20% of the owners of nonirrigated lands and lands within the incorporated limits of a city or town within the area proposed to be included within the district; and

(iii) a description of each tract of land opposite the name of the signer, with an indication that each tract, together with its improvements, has an assessed value of at least $300.

(g) A landowner may protest if he:

(i) did not sign the petition for inclusion; and

(ii) owns land, including improvements thereon, which had a taxable value of at least $300 as shown by the last preceding assessment.

(h) If a petitioner signs the petition both as owner of irrigated and nonirrigated land, his name counts only as an owner of irrigated lands.

(i) On the day set for the hearing on the original petition, if it appears to the court that the protesting petition does not meet the requirements of Subsection (f), the court shall dismiss the protesting petition and proceed with the original hearing as provided in this section. If the court finds from the evidence that the protesting petition does qualify, the court shall dismiss the original petition for inclusion. The finding of the court upon the question of valuation, the genuineness of the signatures, and all matters of law and fact incident to this determination shall be final and conclusive on all parties in interest whether appearing or not, unless within 30 days from entry of the order of dismissal an appeal is taken to the Supreme Court.

(j) (i) Any owner of real property in the proposed area who did not individually sign a petition for the inclusion, but who desires to object to the inclusion, may, on or before ten days prior to the date set for the cause to be heard, file an objection to the inclusion. This objection shall be heard by the court as an advanced case without unnecessary delay.

(ii) An owner of irrigated lands may file a petition asking to have his irrigated lands excluded from the inclusion pursuant to the requirements of Subsection (3)(j)(i). This petition shall be heard by the district court on the date set for the hearing of the petition for inclusion of the area and the district court shall exclude these irrigated lands from the area proposed for inclusion within the district.
(k) If it appears at the hearing that a petition for the inclusion has been signed and presented as provided in Subsections (a) and (b), that the allegations of the petition are true and that no protesting petition has been filed, or if filed has been dismissed as provided in Subsection (3)(i), the court shall:

(i) adjudicate all questions of jurisdiction;

(ii) find that the property described in the petition will, if included, be benefited by the accomplishment of the purposes for which the original district was formed;

(iii) declare the area included in the district;

(iv) declare whether the area is annexed to an existing division, or constitutes a separate division; and

(v) declare whether the area can be properly represented by existing directors or whether the number of directors shall be increased to provide for representation of the area annexed. However, prior to the entry of its decree including such area within the district, the court shall obtain the verified consent of the board of directors of the district to the inclusion of such area.

(l) If the court finds that the petition for inclusion has not been signed and presented pursuant to this section or that the material facts are not as set forth in the petition filed, it shall dismiss the proceedings and adjudge the costs against the signers of the petition in such proportion as it considers just and equitable. An appeal to the Supreme Court shall lie from an order dismissing the proceeding. Nothing in this part shall be construed to prevent the filing of a subsequent petition or petitions for similar purposes, and the right to renew such proceeding is expressly granted.

(4) (a) If lands are annexed into a public corporation which corporation is already part of the district described in this part and these annexed lands are not located within the district's boundaries, the board may make a finding that these lands are not part of the district, and that these lands are or may be benefited from the service provided by the district. Upon making this finding, the board shall set a time and place for a public hearing to hear objections as to why these lands should not be annexed and included within the district. The secretary of the board shall cause notice of the time and place of the hearing to consider the inclusion of the lands within the district to be given and published in the county in which the lands are situated. The notice shall:

(i) state a general description of the lands;

(ii) state that the lands are being considered for inclusion within the district; and

(iii) give notice to all interested persons to appear at the time and place named in the notice and show cause, in writing, as to why the lands should not be included within the district. The secretary shall mail a copy of the notice by registered mail to the governing body of the public corporation and to the landowners.

(b) The board shall at the time and place named in the notice or at any time at which the hearing may be adjourned, proceed to hear all objections to the inclusion of the lands within the district. The failure of any interested person to appear or show cause, in writing, shall be taken as an assent on his part to the inclusion of the lands within the district. If, after hearing all objections to the inclusion of the land within the district, the board determines that the lands will be benefited by inclusion within the district, the board shall make an order to that effect. Upon filing the order with the clerk of the court and upon order of the court, the lands shall be included in the district.

(c) A finding by the board that the lands will not be benefited by inclusion within the district shall not preclude the board at any subsequent date from finding that changed conditions or circumstances now benefit the lands. After making this finding the board may renew the proceedings for inclusion of these lands in whole or in part and find that the lands will be benefited by inclusion in the district and make an order to that effect. Upon filing the order with the clerk of the court and upon order of the court, the lands shall be included in the district.

(d) If the board finds that any portion of land to be annexed into the district is presently receiving water from another public water system, the board shall exclude that portion of land from the land to be annexed into the district.

(e) Upon the entry of the decree, the clerk of the court shall transmit to the Division of Corporations and Commercial Code and the county recorder in each of the counties having lands in the area, copies of the findings and decrees of the court. The findings and decrees shall be filed with the Division of Corporations and Commercial Code pursuant to the general laws concerning corporations. Copies shall also be filed in the office of the county recorder in each county in which the district is located where they will become permanent records. The recorder in each county shall receive the fee designated by the county [governing] legislative body for filing and preservation. The Office of the Lieutenant Governor shall receive fees as may be provided by law for like services in similar cases.

(f) If an order is entered establishing the inclusion of the area into the district, such order shall be final unless within 30 days an appeal is taken to the Supreme Court. The entry of a final order shall conclusively establish the inclusion of the area against all persons, except that the state may file an action in the nature of a writ of quo warranto, commenced by the attorney general within three months after the decree declaring the area included. The inclusion of the area shall not be directly or collaterally questioned in any suit, action, or proceeding, except as expressly authorized.

(g) Any area included in a district pursuant to this part shall be subject to taxes and assessments levied for the payment of indebtedness of the district which was outstanding at the time of the entry of the order for inclusion, and for the payment of indebtedness thereafter incurred as if the area were a part of the district as originally established.
The boundaries of any subdistrict may be changed in the manner provided in this part for the change of the boundaries of districts.

Section 19-6-205, Utah Code Annotated 1953, as renumbered and amended by Chapter 112, Laws of Utah 1991, is amended to read:

(1) After completion of the guidelines, the board shall prepare and publish a preliminary siting plan for the state. The preliminary siting plan is not final until adopted by the board in accordance with Subsection (2) and shall be based upon the guidelines adopted under Section 19-6-204 and be published within one year after adoption of the guidelines.

(2)(a) After completion of its guidelines, the board shall publish notice of intent to prepare a siting plan. The notice shall invite all interested persons to nominate sites for inclusion in the siting plan. It shall be published at least twice in not less than two newspapers with statewide circulation and shall also be sent to any person, business, or other organization that has notified the board of an interest or involvement in hazardous waste management activities.

(b) Nominations for the location of hazardous waste sites shall be accepted by the board for a period of 120 days after the date of first publication of notice. Nominations may include a description of the site or sites suggested or may simply suggest a general area. In addition, any nomination may provide data and reasons in support of inclusion of the site nominated.

(c) The board, in cooperation with other state agencies and private sources, shall then prepare an inventory of:

(i) the hazardous wastes generated in the state;

(ii) those likely to be generated in the future;

(iii) those being generated in other states that are likely to be treated, disposed of, or stored in the state;

(iv) the sites within the state currently being used for hazardous waste and those suggested through the nomination process;

(v) the treatment, storage, and disposal processes and management practices that are required to comply with Section 19-6-108; and

(vi) an estimate of the public and private costs for meeting the long-term demand for hazardous waste treatment, disposal, and storage facilities.

(d) (i) After the hazardous waste inventory and cost estimate are complete, the board, with the use of the guidelines developed in Section 19-6-204, shall provide for the geographical distribution of enough sites to fulfill the state's needs for hazardous waste disposal, treatment, and storage for the next 25 years.

(ii) The board shall not exclude any area of the state from consideration in the selection of potential sites but, to the maximum extent possible, shall give preference to sites located in areas already dedicated through zoning or other land use regulations.
to industrial use or to areas located near industrial uses. However, the board shall give consideration to excluding an area designated for disposal of uranium mill tailings or for disposal of nuclear wastes unless the proposed disposal site is approved by the affected county through its (board-of-county [commissioners]) executive and county legislative body.

(c) The board shall also analyze and identify areas of the state where, due to the concentration of industrial waste generation processes or to favorable geology or hydrology, the construction and operation of hazardous waste treatment, disposal, and storage facilities appears to be technically, environmentally, and economically feasible.

(3) (a) The preliminary siting plan prepared pursuant to Subsection (2) shall, before adoption, be distributed to all units of local government located near existing or proposed sites.

(b) Notice of the availability of the preliminary siting plan for examination shall be published at least twice in two newspapers, if available, with general circulation in the areas of the state that potentially will be affected by the plan.

(c) The board shall also issue a statewide news release that informs persons where copies of the preliminary siting plan may be inspected or purchased at cost.

(d) After release of the preliminary siting plan, the board shall hold not less than two public hearings in different areas of the state affected by the proposed siting plan to allow local officials and other interested persons to express their views and submit information relevant to the plan. The hearings shall be conducted not less than 60 nor more than 90 days after release of the plan. Within 30 days after completion of the hearings, the board shall prepare and make available for public inspection a summary of public comments.

(4) (a) The board, between 30 and 60 days after publication of the public comments, shall prepare a final siting plan.

(b) The final siting plan shall be widely distributed to members of the public.

(c) The board, at any time between 30 and 60 days after release of the final plan, on its own initiative or that of interested parties, shall hold not less than two public hearings in each area of the state affected by the final plan to allow local officials and other interested persons to express their views.

(d) The board, within 30 days after the last hearing, shall vote to adopt, adopt with modification, or reject the final siting plan.

(5) (a) Any person adversely affected by the board's decision may seek judicial review of the decision by filing a petition for review with the district court for Salt Lake County within 90 days after the board's decision.

(b) Judicial review may be had, however, only on the grounds that the board violated the procedures set forth in this section, that it acted without or in excess of its powers, or that its actions were arbitrary or capricious and not based on substantial evidence.

(6) If the final siting plan is adopted, the board shall cause it to be published.

(7) After publication of the final siting plan, the board shall engage in a continuous monitoring and review process to ensure that the long-range needs of hazardous waste producers likely to dispose of hazardous wastes in this state are met at a reasonable cost. An annual review of the adequacy of the plan shall be conducted and published by the board.

(8) (a) If necessary, the board may amend the siting plan to provide additional sites or delete sites which are no longer suitable.

(b) Before any plan amendment adding or deleting a site is adopted, the board, upon not less than 20 days' public notice, shall hold at least one public hearing in the area where the affected site is located.

(9) After adoption of the final plan, an applicant for approval of a plan to construct and operate a hazardous waste treatment, storage, and disposal facility who seeks protection under this part shall select a site contained on the final site plan.

(10) Nothing in this part, however, shall be construed to prohibit the construction and operation of an approved hazardous waste treatment, storage, and disposal facility at a site which is not included within the final site plan, but such a facility is not entitled to the protections afforded under this part.

The security shall be deposited with the commission within 30 days of proper notice by the commission that the security is required. Notice by registered mail to the last-known address as shown in the records of the commission constitutes proper notice.

(2) The security may be sold by the commission at public sale in order to recover any tax, interest, or penalty due. Notice of the sale may be personally served upon the person who deposited the securities, or served by registered mail sent to the last-known address as shown in the records of the commission. Following the sale, any surplus amount shall be returned to the person who deposited the security.

(3) If the security is not deposited or before the due date, the commission may declare the tax for that year and any preceding year, if unpaid, in jeopardy, and may proceed to collect the tax under this chapter.

(4) (1) Following recourse to the security, or to jeopardy proceedings under Part 13 of this chapter, the person engaged in using the properties shall deposit any new security required by the commission prior to resuming operations.

(5) The ad valorem tax imposed upon metalliferous mining claims and properties is a personal obligation of the owner or operator of the affected claims or properties, and the obligations are not satisfied until paid in full. If a mining claim or property is sold at preliminary or final sale under Part 13 of this chapter, the sale does not extinguish the personal obligation of the owner or operator of the claim or property. The personal obligation continues to exist against the owner or operator of the claim or property until paid or otherwise satisfied. Other real or personal property of the owner or operator may be seized or sold to satisfy the personal obligation. This remedy is not exclusive, but is in addition to any other remedy provided by law for the collection of these taxes. Nothing contained in this section abrogates existing powers of the commission or a county governing legislative body to compromise or adjust the assessment of taxes.
Section 334. Section Amended.
Section 59-2-314, Utah Code Annotated 1953, as enacted by Chapter 4, Laws of Utah 1987, is amended to read:

Any assessor who fails to complete and deliver the assessment book to the county auditor within the time prescribed by law, or who fails to transmit the information required under Section 59-2-313 to the commissioner, shall pay a penalty of $1,000, to be recovered upon the assessor's official bond, for the use of the county, or deducted from salary by the county [governing] legislative body.

Section 335. Section Amended.
Section 59-2-315, Utah Code Annotated 1953, as last amended by Chapter 3, Laws of Utah 1988, is amended to read:

(1) The assessor and sureties are liable on the official bond for all taxes on property within the county which, through willful failure or neglect, is not assessed or which has been willfully assessed at less than its fair market value.

(2) The county attorney shall, upon showing of proper evidence and upon written demand by the commission or the county [governing] legislative body, commence and prosecute to judgment an action on the assessor's bond for all taxes lost from willful failure or neglect in assessing property.

(3) If, during the trial of the action against the assessor, the value of the unassessed or underassessed property is determined, the assessor is liable for the difference between the amount of taxes collected and the amount of taxes which should have been collected pursuant to law.

Section 336. Section Amended.
Section 59-2-402, Utah Code Annotated 1953, as enacted by Chapter 4, Laws of Utah 1987, is amended to read:

(1) If any taxable transitory personal property, other than property exempted under Subsection (2), is brought into the state at any time after the assessment date, a proportional assessment shall be made in accordance with rules adopted by the commission based upon the length of time that the property is in the state, but in no event may the minimum assessment be less than 25% of the full year's assessment.

(2) The following property is exempt from proportional assessment under Subsection (1) for the year in which the license fee or tax is paid:

(a) property acquired during the calendar year;
(b) registered motor vehicles with a gross laden weight of 27,000 pounds or less; and
(c) vehicles which are registered and licensed in another state.

(3) If any taxable transitory personal property is brought into the state at any time during the year, the owner of the property, or the owner's agent, shall immediately secure a personal property report form from the assessor, complete it in all pertinent respects, sign it, and file it with the assessor of the county in which the property is located.

(4) If the owner of the taxable transitory personal property, or the owner's agent, fails to secure, complete, and file a personal property report form with the county assessor, the assessor shall estimate the value of the property in accordance with Subsection 59-2-307(2). Any failure on the part of the owner or agent to report as required by this subsection subjects the property owner to a penalty of 50% of the amount of tax finally determined to be due.

(5) If property is exempt on the assessment date but subsequently becomes taxable, it shall be assessed in accordance with Subsection (1).

(6) An owner of taxable transitory personal property, except motor vehicles with a gross laden weight of 27,000 pounds or less, who has paid taxes on the personal property and who removes the property from the state prior to December, is entitled to a rebate of a proportionate share of the taxes paid as determined by the commission. If a claim for rebate or adjustments is filed with the county auditor by December 10, the auditor shall immediately submit the claim with a recommendation to the county [governing-body] executive for its approval or denial. If the claim is not approved prior to the end of the calendar year, or within 30 days after its submission, or if the claim is submitted after December 10, it shall be considered denied, and the owners of the property may file an action in the district court for a refund or an adjustment.

Section 337. Section Amended.
Section 59-2-902, Utah Code Annotated 1953, as last amended by Chapter 3, Laws of Utah 1988, is amended to read:
59-2-902. Minimum basic tax levy for school districts.

(1) If any county fails to comply with Section 59-2-704, then this section determines the adjustment of the basic school levy for school districts within the county. Before June 15, the commission shall ascertain from the State Board of Education the number of weighted pupil units in each school district in the state for the school year commencing July 1 of the current calendar year, estimated according to the Minimum School Finance Act, and the money necessary for the cost of the operation and maintenance of the minimum school program of the state for the school fiscal year beginning July 1 of the current calendar year. The commission shall then estimate the amounts of all surpluses in the Uniform School Fund, as of July 1 of the current cal-
endear year, available for the operation and maintenance of the program, and shall estimate the anticipated income to the fund available for those purposes for the current school year from all sources, including revenues from taxes on income or from taxes on intangible property pursuant to Article XIII, Sec. 12, Utah Constitution.

(2) The commission shall then determine for each school district the amount to be raised by the minimum basic tax levy as its contribution toward the cost of the basic state-supported program, as required by the Minimum School Finance Act.

(3) Each county auditor shall be notified by the commission that the minimum basic tax levy shall be imposed by the school district, to which shall be added an additional amount, if any, due to local undervaluation as provided in this section. The auditor shall inform the county (governing) legislative body of the amount of the levy. The county legislative body shall at the time and in the manner provided by law make the levy upon the taxable property in the school district together with further levies for school purposes as may be required by each school district to pay the costs of programs in excess of the basic state-supported school program.

(4) If the levy applied under this section raises an amount in excess of the total basic state-supported school program for a school district, the excess amount shall be remitted by the school district to the State Board of Education to be credited to the Uniform School Fund for allocation to school districts to support the basic state-supported school program. The availability of money shall be considered by the commission in fixing the state property levy as provided in the Minimum School Finance Act.

(5) If the levy does not raise an amount in excess of the total basic state-supported school program for a district, then the difference between the amount which the local levy will raise within the district, and the total cost of the basic state-supported school program within the district shall be computed. This difference, if any, shall be apportioned from the Uniform School Fund to each school district as the contribution of the state to the basic state-supported school program for the district, subject to the following conditions:

(a) Before the apportionment is made, the commission shall determine if the local taxable valuation of any school district is undervalued according to law and if so, the dollar amount of the undervaluation. The dollar amount of the undervaluation shall be multiplied by the district basic uniform school levy at 98%. The resulting dollar amount shall be divided by the current year estimated yield of .002 per dollar of taxable value at 98% based on the district's taxable valuation prior to adjusting for undervaluation.

(b) The resulting levy amount shall be added to the required district basic uniform levy to determine the combined district basic school levy adjusted for undervaluation. The combined rate of levy shall be certified to the county auditor and employed by the auditor and the county (governing) legislative body in lieu of the required basic school local levy.

(2) Upon the retirement of bonds issued for the development of a convention complex described in Section 17-12-4, and notwithstanding Section 59-2-908, any county of the first class may continue to impose a property tax levy equivalent to the average property tax levy previously imposed to pay debt service on those retired bonds. The advertisement shall be run once each week for the two weeks preceding the adoption of the final budget. The advertisement shall state that the taxing entity will meet on a certain day, time, and place fixed in the advertisement, which shall be not less than seven days after the day the first advertisement is published, for the purpose of hearing comments regarding any proposed increase and to explain the reasons for the proposed increase. The meeting on the proposed increase may coincide with the hearing on the proposed budget of the taxing entity.

(ii) $______ if the proposed increase in budgeted property tax revenues exclusive of new growth is adopted.
All concerned citizens are invited to attend a public hearing on the tax increase to be held on (date and time) at (meeting place).

(3) The commission shall adopt rules governing the joint use of one advertisement under this section or Section 59-2-918 by two or more taxing entities and may, upon petition by any taxing entity, authorize either:

(a) the use of weekly newspapers in counties having both daily and weekly newspapers where the weekly newspaper would provide equal or greater notice to the taxpayer; or

(b) the use of a commission-approved direct notice to each taxpayer if the cost of the advertisement would cause undue hardship and the direct notice is different and separate from that provided for in Subsection (4).

(4) In addition to providing the notice required by Subsection (1), the county auditor, on or before July 22 of each year, shall notify, by mail, all owners of real estate as defined in Section 59-2-102 shown on the assessment roll, on a form approved by the commission, which shall be uniform in content in all counties throughout the state, of the value of the property, the date the county board of equalization will meet to hear complaints on the valuation, itemized tax information for all taxing entities, the tax impact on the property, and the time and place of the required public hearing for each entity. This notice shall be mailed at least ten days before the county board of equalization meets and at least ten days before the public hearing on the proposed increase in the certified tax rate.

(5) The taxing entity, after the hearing has been held in accordance with the above procedures, may adopt a resolution levying a tax rate in excess of the certified tax rate. If the resolution adopting the tax rate is not adopted on the day of the public hearing, the scheduled time and place for consideration and adoption of the resolution shall be announced at the public hearing. If the resolution is to be considered at a day and time that is more than two weeks after the public hearing, the taxing entity shall advertise the date of the proposed adoption of the resolution in the same manner as provided under Subsections (1) and (2).

(6) All hearings shall be open to the public. The governing body of the taxing entity conducting the hearing shall permit all interested parties desiring to be heard an opportunity to present oral testimony within reasonable time limits.

(7) Each taxing entity shall notify the county legislative body by March 1 of each year of the date, time, and place of its public hearing. A taxing entity may not schedule its hearing at the same time as another overlapping taxing entity in the same county, but all taxing entities in which the power to set tax levies is vested in the same governing board or authority may consolidate the required hearings into one hearing. The county legislative body shall resolve any conflicts in hearing dates and times after consultation with each affected taxing entity.

(ii) who resides for not less than ten months of each year in the residence for which the tax relief, deferral, or abatement is requested; and

(iii) who is unable to meet the tax assessed on the person's residential property as the tax becomes due.

(b) "Residence" includes a mobile home as defined under Section 59-2-601.

(4) The commission shall adopt rules to implement this section.

(5) Any poor person may qualify for the deferral of taxes under Section 59-2-1108, or if the person meets the requisites of this section, for the abatement of taxes under Section 59-2-1107, or both.

Section 350. Section Amended.

Section 59-2-1202, Utah Code Annotated 1953, as last amended by Chapter 169, Laws of Utah 1988, is amended to read:

As used in this part:

(1) "Claimant" means a homeowner or renter who has filed a claim under this part and is domiciled in this state for the entire calendar year for which a claim for relief is filed under this part and who has reached the age of 65 prior to the close of that calendar year. A surviving spouse, who otherwise qualifies under this section, is an eligible claimant regardless of age. If two or more individuals of a household are able to meet the qualifications for a claimant, they may determine among them as to who the claimant shall be, but if they are unable to agree, the matter shall be referred to the county [governing] legislative body for a determination of the claimant of an owned residence and to the commission for a determination of the claimant of a rented residence.

(2) "Gross rent" means rental actually paid in cash or its equivalent solely for the right of occupancy, at arm's-length, of a residence, exclusive of charges for any utilities, services, furniture, furnishings, or personal appliances furnished by the landlord as a part of the rental agreement. If a claimant occupies two or more residences in the year and does not own the residence as of the lien date, gross rent means the total rent paid for the residences during the one-year period for which the renter files a claim under this part.

(3) "Homeowner's credit" means a credit against a claimant's property tax liability.

(4) "Household" means the association of persons who live in the same dwelling, sharing its furnishings, facilities, accommodations, and expenses.

(5) "Household income" means all income received by all persons of a household in the calendar year next preceding the year in which property taxes are due or, in the case of renters, the year in which a claim is filed.

(6) "Income" means the sum of federal adjusted gross income as defined in the Internal Revenue Code and all nontaxable income, including, but not limited to, the amount of capital gains excluded from adjusted gross income, alimony, support money, nontaxable strike benefits, cash public assistance, and relief, the gross amount of any pension or annuity, including Railroad Retirement Act benefits and veterans disability pensions, all payments received under the Federal Social Security
and state unemployment insurance laws, nontaxable interest received from the federal government or any of its instrumentalities, workman’s compensation, and the gross amount of “loss of time” insurance. Income does not include gifts from nongovernmental sources or surplus foods, other relief in kind supplied by a public or private agency, or relief provided under this part.

17. “Property taxes accrued” means property taxes, exclusive of special assessments, delinquent interest, and charges for service, levied on a claimant’s residence in this state, and in the case of a mobile home includes taxes imposed on both the land upon which the home is situated and also on the structure of the home itself, whether classified as real property or personal property taxes. For purposes of this subsection property taxes accrued are levied on the lien date. If a claimant owns a residence on the lien date, property taxes accrued mean taxes levied on the lien date, even if that claimant does not own a residence for the entire year. When a household owns and occupies two or more different residences in this state in the same calendar year, property taxes accrued shall relate only to the residence occupied on the lien date by the household as its principal place of residence. If a residence is an integral part of a large unit such as a farm or a multipurpose or multifamily building, property taxes accrued shall be the same percentage of the total property taxes accrued as the value of the residence is of the total value. For purposes of this subsection, “unit” refers to the parcel of property covered by a single tax statement of which the residence is a part.

(8) “Renter’s credit” means a credit measured by reference to 10% of the gross rent.

(9) “Residence” means the dwelling, whether owned or rented, and so much of the land surrounding it, not exceeding one acre, as is reasonably necessary for use of the dwelling as a home, and may consist of a part of a multifamily or multipurpose building and a part of the land upon which it is built and includes a mobile home or houseboat but does not include personal property such as furniture, furnishings, or appliances. For purposes of this subsection, “owned” includes a vendee in possession under a land contract or one or more joint tenants or tenants in common.
