(b) The executive director shall determine whether the circumstances for denying an application for an initial license or for renewal or reinstatement of a license would justify calling a special appeals board under Subsection (2). The executive director's decision is not subject to agency review.

(2) A special appeals board shall consist of three members appointed by the executive director as follows:

(a) one member from the occupation or profession in question who is not on the board of that occupation or profession;

(6) Any diversion agreement entered into between the division and the licensee shall contain a full and detailed statement of the requirements agreed to by the licensee and the reasons for diversion.

(8) The director shall dismiss the charges against a licensee who has completed the requirements of his diversion agreement. The licensee may not thereafter be subject to disciplinary action for the conduct involved.

(9) Diversion is not a determination that charges have been proven. If the charges are dismissed following diversion, the matter shall be treated as if the charge had never been filed, except the fact that a licensee has completed a diversion program and the terms and conditions of the diversion program may be considered by the division in determining appropriate disciplinary action to be taken in the event the licensee is charged in the future with the same or a similar offense. No reporting or release of information regarding the diversion program of an individual licensee or the fact that charges were filed may be made to anyone outside the division. The licensee may not be required to report to any person, agency, or corporation the fact that he has been subject to a diversion program if the licensee successfully completes the diversion program. Negotiations or hearings regarding diversion may not be subject to the requirements of Title 52, Chapter 4, Open and Public Meetings.

If, after the hearing, the director finds that the licensee has failed to comply with any terms or conditions of the diversion agreement, the director shall proceed with the charges against the licensee which resulted in the diversion agreement plus any additional charges of unprofessional conduct arising from a violation of the diversion agreement.

(a) double the total number of convictions in the state obtained between July 1, 1982, and June 30, 1983, and during the same period in succeeding years for violation of Section 41-6-44, or an ordinance that complies with the requirements of Subsection 41-6-43(1) or Section 76-5-207, and to that number, add the number of convictions obtained during the same period for all other alcohol-related offenses;

(b) divide the figure equal to the 30% due each city, town, and county by the sum obtained in Subsection (a), to obtain the quotient for alcohol-related offenses statewide; and

(c) multiply the quotient obtained in Subsection (b), by the number of convictions obtained in each city, town, and county between July 1, 1982 and June 30, 1983, and for the same period in succeeding years, for violation of Section 41-6-44, or an ordinance that complies with the requirements of Subsection 41-6-43(1) or Section 76-5-207, and for all other alcohol-related offenses to determine the total revenue due each entity, based on convictions. The number of convictions for purposes of this subsection shall be determined in the manner prescribed in Subsection (a).

(4) For purposes of this section, the number of state stores, package agencies, and licensees located within the limits of each city, town, and county is the number determined by the department to be so located, and includes all private clubs, restaurants, airport lounges, package agencies, and state stores, but not on-premise beer retailer licensees. For purposes of this section, the number of state stores, package agencies, and licensees in a county consists only of that number located within unincorporated areas of the county.

(5) Population figures, for the purposes of this section, shall be determined according to the last decennial census taken by the United States Department of Commerce, or its five-year update, whichever is more recent. If population estimates are not made for any county, city, or town by the United States Bureau of Census, population figures shall be determined according to the biennial estimate from the Utah Population Estimates Committee. A county's population figure for the 25% distribution to cities, towns, and counties shall be determined only with reference to the population in the unincorporated areas of the county, and a county's population figure for the 25% distribution to counties only shall be determined with reference to the total population in the county, including that of cities and towns.

(6)(a) For purposes of this section, a conviction occurs in the city, town, or county that actually prosecutes the offense to judgment. In the case of a conviction based upon a guilty plea, the city, town, or county that, except for the guilty plea, would have prosecuted the offense is entitled to credit for the conviction.

(b) For purposes of this section, "alcohol-related offense" means a violation of Section 41-6-44, or an ordinance that complies with the requirements of Subsection 41-6-43(1) or Section 76-5-207, or an offense involving the illegal sale, distribution, transportation, possession, or consumption of alcohol.

(7) Payments under this section shall be made semiannually to each city, town, and county.

(8)(a) The state court administrator, not later than September 1 each year, shall certify to the State Tax Commission the number of convictions obtained for violation of Section 41-6-44, or an ordinance that complies with the requirements of Subsection 41-6-43(1) or Section 76-5-207, and for other alcohol-related offenses in each city, town, or county in the state during the period specified in Subsection (3)(a), and for the same period each succeeding year.

(b) The State Tax Commission shall prepare forms for use by cities, towns, and counties in applying for revenues. The forms may require the submission of information the State Tax Commission considers necessary to enable it to comply with this section.

Section 59-12-205, Utah Code Annotated 1953, as last amended by Chapters 250 and 287, Laws of Utah 1990, is amended to read:

59-12-205. Ordinances to conform with statutory amendments — Distribution of tax revenue.

(1) (a) Each county, city, and town, in order to maintain in effect sales and use tax ordinances pursuant to this part, shall, within 30 days of any amendment of any applicable provisions of Title 59, Chapter 12, Part 1, adopt such amendments of their respective sales and use tax ordinances to conform with the amendments to Title 59, Chapter 12, Part 1. Insofar as they relate to sales and use taxes.

(b) Any county, city, or town may distribute its sales or use tax revenues by means other than point of sale or use by notifying the commission in writing of such decision, no later than 30 days before commencement of the next tax accrual period. After such notice is given, a county, city, or town may increase the tax authorized by this part to a total of 1% from and after January 1, 1990, of the purchase price paid or charged, excluding a public transit sales and use tax as provided in Section 59-12-501 and a resort communities sales tax as provided in...
Section 59-12-401. This tax shall be collected and distributed as follows:

(1) From January 1, 1990, through June 30, 1991, 85% of the tax revenue shall be paid to each county, city, and town providing notice under this section, based upon the percentage that the population of the county, city, or town bears to the total population of all such entities providing notice under this section; and 15% based upon the point of sale or use of the transaction.

(2) From January 1, 1990, through June 30, 1992, 40% of each dollar collected from the sales and use tax authorized by this part shall be paid to each county, city, and town providing notice under this section, based upon the percentage that the population of the county, city, or town bears to the total population of all such entities providing notice under this section; and 60% based upon the point of sale or use of the transaction.

(3) Notwithstanding any provision of Subsection (2), a county, city, or town that has given notice under this section may not receive a tax revenue distribution less than 3/4 of 1% of the taxable sales within its boundaries. The commission shall proportionally reduce quarterly distributions to any county, city, or town, which, but for the reduction, would receive a distribution in excess of 1% beginning January 1, 1990, of the sales and use tax revenue collected within its boundaries.

(4) Notwithstanding any other provision of this section, from January 1, 1990, through December 31, 1999, the commission shall determine and retain the amount of revenue generated by a 1/64% tax rate and deposit it in the Olympics Special Revenue Fund or funds provided for in Subsection 59-12-103 for the purposes of the Utah Sports Authority described in Title 62, Chapter 1, Part 3.

(5) Population figures for purposes of this section shall be based on the most recent official census or census estimate of the United States Bureau of the Census.

Section 5. Section Amended.

Section 70A-9-403, Utah Code Annotated 1953, as last amended by Chapter 15, Laws of Utah 1984, Second Special Session, is amended to read:

(1) Presentation for filing by the Division of Corporations and Commercial Code, or for recording, indexing, and abstracting by tract by the county recorder of a financing statement and tender of the filing fee or acceptance of the statement by the filing officer constitutes filing under this chapter. The Division of Corporations and Commercial Code shall refuse and the county recorder may refuse to accept the financing statement for filing unless it either contains the statement referred to in Subsection 70A-9-402(6) or is accompanied by a statement signed by either the secured party or the debtor setting forth the statements referred to in said subsection.

(2) Except as provided in Subsection (6), a filed financing statement is effective for a period of five years from the date of filing. The effectiveness of a filed financing statement lapses or, the expiration of the five-year period unless a continuation statement is filed prior to the lapse. If a security interest perfected by filing exists at the time insolvency proceedings are commenced by or against the debtor, the security interest remains perfected until termination of the insolvency proceedings and thereafter for a period of 60 days or until expiration of the five-year period, whichever occurs later. Upon lapse, the security interest becomes unperfected, unless it is perfected without filing. If the security interest becomes unperfected upon lapse, it is deemed to have been unperfected as against a person who became a purchaser or lien creditor before lapse.

(3) A continuation statement may be filed by the secured party within six months prior to the expiration of the five-year period specified in Subsection (2). Any such continuation statement must be signed by the secured party, identify the original statement by file number or by entry numbers and book and page numbers and state that the original statement is still effective. A continuation statement signed by a person other than the secured party of record must be accompanied by a separate written statement of assignment signed by the secured party of record and complying with Subsection 70A-9-405(2), including payment of the required fee. Upon timely filing of the continuation statement, the effectiveness of the original statement is continued for five years after the last date to which the filing was effective whereupon it lapses in the same manner as provided in Subsection (2) unless another continuation statement is filed prior to such lapse. Succeeding continuation statements may be filed in the same manner to continue the effectiveness of the original statement. Unless a statute on disposition of public records provides otherwise, the filing officer may remove a lapsed statement from the files and destroy it immediately if he has retained a microfilm or other photographic record, or in other cases after one year after the lapse. The filing officer shall so arrange matters by physical annihilation of financing statements to continuation statement or other related filings, or by other means, that if he physically destroys the financing statements of a period more than five years past, those which have been continued by a continuation statement or which are still effective under Subsection (6) shall be retained.

(4) Except as provided in Subsection (7), a filing officer shall mark each statement with a file number and with the date and hour of filing and shall hold the statement or a microfilm or other photographic copy thereof for public inspection. In addition, the filing officer shall index the statements according to the name of the debtor and shall note in the index the file number and the address of the debtor given in the statement.

(5) The fees for filing and indexing and for stamping a copy furnished by the secured party to show the date and place of filing for an original financing statement or for a continuation statement shall be determined by the Division of Corporations and Commercial Code pursuant to Subsection 63-38-3(2). The secured party may at his option show a trade name for any person and an extra indexing fee determined by the Division of Corporations and Commercial Code pursuant to Subsection 63-38-3(2) shall be paid with respect thereto.

(6) If the debtor is a transmitting utility (Subsection 70A-9-401(5)) and a filed financing statement so states, it is effective until a termination state-
When a financing statement covers timber to be cut or covers minerals or the like including oil and gas, or accounts subject to Subsection 70A-9-403(6), or is recorded as a fixture filing, the county recorder shall record and index it under the names of the debtor and any owner of record shown on the financing statement in the same fashion as if they were the mortgagees in a mortgage of the real estate described, and under the name of the secured party as if he were the mortgagee thereunder, or where indexing is by description, record and index it in the same fashion as if the financing statement were a mortgage of the real estate described. Original statements, once duly marked and recorded by the county recorder, may be returned to the party making the filing. Except as provided in Subsection 70A-9-404(3), filings made in the office of the county recorder shall be subject to the provisions of Section 70A-9-10315.

Section 6. Section Amended.

Section 70A-9-404, Utah Code Annotated 1953, as last amended by Chapter 50, Laws of Utah 1987, is amended to read:

(1) If a financing statement covering consumer goods is filed on or after July 1, 1977, then within one month or within ten days following written demand by the debtor after there is no outstanding secured obligation and no commitment to make advances, incur obligations, or otherwise give value, the secured party must file with each filing officer with whom the financing statement was filed, a termination statement to the effect that he no longer claims a security interest under the financing statement, which shall be identified by file number or by entry number and book and page numbers. In other cases, whenever there is no outstanding secured obligation and no commitment to make advances, incur obligations, or otherwise give value, the secured party must, upon written demand by the debtor, send the debtor, for each filing officer with whom the financing statement was filed, a termination statement to the effect that he no longer claims a security interest under the financing statement, which shall be identified by file number or by entry number and book and page numbers. A termination statement signed by a person other than the secured party of record must be accompanied by a separate written statement of assignment signed by the secured party of record complying with Subsection (2) of Section 70A-9-405, including payment of the required fee. If the affected secured party fails to file such a termination statement as required by this subsection, or to send such a termination statement within ten days after proper demand therefor, he shall be liable to the debtor for $100, and in addition, for any loss caused to the debtor by such failure.

(2) On presentation to the filing officer of such a termination statement, he must duly file the same. If he has received the termination statement in duplicate, he shall return one copy of the termination statement to the secured party stamped to show the time of receipt thereof. If the filing officer has a microfilm or other photographic record of the financing statement, and of any related continuation statement, statement of assignment and statement of release, he may remove the originals from the files at any time after receipt of the termination statement. If he has no such record, he may remove them from the files at any time after one year after receipt of the termination statement.

(3) No fee shall be charged for filing and indexing a termination statement including sending or delivering the financing statement, except that filings made in the office of the county recorder shall be subject to the provisions of Section 70A-9-10315, 17-5-19.2 in lieu of the fee provisions in this chapter.

Section 7. Repealer.

Section 21-2-1, Collection in advance by county officers, Utah Code Annotated 1953; Section 21-2-2, Fees of county clerk, Utah Code Annotated 1953, as last amended by Chapter 1, Laws of Utah 1992, Third Special Session; Section 21-2-5, Fees of county treasurer, Utah Code Annotated 1953, as last amended by Chapter 5, Laws of Utah 1991; Section 21-2-6, Fees of county auditor, Utah Code Annotated 1953; and Section 21-2-7, Fees of county surveyor, Utah Code Annotated 1953, as last amended by Chapter 33, Laws of Utah 1961, are repealed.

This section does not restrict the rights of dissenting securityholders under Title 16, Chapter 10A, Utah Revised Business Corporations; Corporate Act, unless this election is made under Subsection (7)(a).

All statements, amendments, or other material filed under Subsection (1), and all notices of public hearings held under Subsection (6), shall be mailed by the insurer to its securityholders within five business days after the insurer has received the statements, amendments, other material, or notices. Mailing expenses shall be paid by the person making the filing. As security for the payment of these expenses, that person shall file with the commissioner an acceptable bond or other deposit in an amount determined by the commissioner.

This section does not apply to any offer, request, invitation, agreement, or acquisition which the commissioner by order exempts from the requirements of this section as:

a) not having been made or entered into for the purpose of, and not having the effect of, changing or influencing the control of a domestic insurer; or

b) as otherwise not comprehended within the purposes of this section.

The following are violations of this section:

a) the failure to file any statement, amendment, or other material required to be filed pursuant to Subsections (1) through (3); or

b) the effectuation, or any attempt to effectuate, an acquisition of control of or merger with a domestic insurer unless the commissioner has given his approval to the acquisition or merger.

ii) overall actions involving persons described in Subsection (a) arising out of violations of this section.

Each person described in Subsection (a) is considered to have performed acts equivalent to and constituting an appointment of the commissioner by that person, to be his lawful attorney upon whom may be served all lawful process in any action, suit, or proceeding arising out of violations of this section.

Copies of all lawful process described in Subsection (b) shall be served on the commissioner and transmitted by registered or certified mail by the commissioner to the person at his last known address.

Only these qualified assets may be considered in determining the financial condition of an insurer, except to the extent an insurer has shown to the commissioner under Section 31A-17-203 that the insurer has excess surplus, as defined in Subsection 31A-1-301 (76b).
(2) "Qualified assets" means:

(f) amounts recoverable or receivable from reinsurers under a reinsurance contract which qualifies for reserve credit under Section 31A–17–404;

(g) electronic and mechanical machines constituting a data processing and accounting system, the cost of which is depreciated in full over a period (not to exceed) of five years or less;

(i) cash or currency; and

(j) other assets authorized by rule.

(3) Subject to Subsection (5), assets acquired in the bona fide enforcement of creditors' rights may be counted for the purposes of Subsection (1) and Sections 31A–18–105 and 31A–18–106, for five years after their acquisition if they are real property, and for one year if they are not real property, even if they could not otherwise be counted under this chapter. The commissioner may allow reasonable extensions of these periods, if disposal of the assets within the periods given is not possible without substantial loss. These extensions may not, as to any particular asset, exceed a total of five years.

(4) Subject to Subsection (5), assets acquired in connection with mergers, consolidations, or bulk reinsurance, or as a dividend or distribution of assets, may be counted for the same purposes, in the same manner, and for the same periods as assets acquired under Subsection (3), even though under this chapter the assets could not otherwise be counted.

(5) Assets described under Subsection (3) or (4) may not be counted for the purposes of Subsection (1), except to the extent they are counted as assets in determining insurer solvency under the laws of the state of domicile of the creditor or acquired insurer.

For life insurance, those methods shall be consistent with (Section 31A–17–403) Part 5 of this chapter, Standard Valuation Law. Title insurance reserves are provided for under Section 31A–17–406. In determining the financial condition of an insurer, liabilities include:

(3) for insurance other than life, disability, and title insurance, the amount of reserves equal to the unearned portions of the gross premiums charged on policies in force, computed on a daily or monthly pro rata basis or other basis approved by the commissioner; provided that after adopting any one of the methods for computing those reserves, an insurer may not change methods without the commissioner's written consent.

(4) for ocean marine and other transportation insurance, reserves equal to 50% of the amount of premiums upon risks covering not more than one trip or passage not terminated, and computed upon a pro rata basis or, with the commissioner's consent, in accordance with methods provided under Subsection (3); and

In calculating such reserves, he may use group methods and approximate averages for fractions of a year or otherwise. In lieu of the valuation of the reserves required in this part of any foreign or alien company, he may accept any valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when such valuation complies with the minimum standard provided in this part, and if the official of such state or jurisdiction accepts as sufficient and for all valid legal purposes the certificate of valuation of the commissioner when such certificate states the valuation to have been made in a specified manner according to which the aggregate reserves would be at least as large as if they had been computed in the manner prescribed by the law of that state or jurisdiction.

Section 16. Section Enacted.

The commissioner by rule shall define the specifics of this opinion and add any other items considered to be necessary in order to render the opinion required by this section.

(3) Actuarial analysis of reserves and assets supporting reserves:
(a) Every life insurance company, except as exempted by or pursuant to rule, shall also annually include in the opinion required by Subsection (2), an opinion of the same qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner by rule, when considered in light of the assets held by the company with respect to the reserves and related actuarial items, including but not limited to the investment earnings on the assets and the considerations anticipated to be received and retained under the policies and contracts, make adequate provision for the company's obligations under the policies and contracts, including but not limited to the benefits under the expenses associated with the policies and contracts.

(b) The commissioner may provide by rule for a transition period for establishing any higher reserves which the qualified actuary may consider necessary in order to render the opinion required by this section.

(4) Requirement for opinion under Subsection (3): Each opinion required by Subsection (3) shall be governed by the following provisions:
(a) A memorandum, in form and substance acceptable to the commissioner as specified by rule, shall be prepared to support each actuarial opinion.

(b) If the insurance company fails to provide a supporting memorandum at the request of the commissioner within a period specified by rule or the commissioner determines that the supporting memorandum provided by the insurance company fails to meet the standards prescribed by the rule or is otherwise unacceptable to the commissioner, the commissioner may engage a qualified actuary at the expense of the company to review the opinion and the basis for the opinion and prepare such supporting memorandum as is required by the commissioner.

(5) Requirement for all opinions: Every opinion shall be governed by the following provisions:

(e) For the purposes of this section, “qualified actuary” means a member in good standing of the American Academy of Actuaries who meets the requirements set forth by department rule.

(f) Except in cases of fraud or willful misconduct, the qualified actuary is not liable for damages to any person, other than the insurance company and the commissioner, for any act, error, omission, decision, or conduct with respect to the actuary's opinion.

Section 19. Section Enacted.
Section 31A-17-506, Utah Code Annotated 1953, is enacted to read:
31A-17-506. Computation of minimum standard by calendar year of issue.
(1) Applicability of Section 31A-17-506: The interest rates used in determining the minimum standard for the valuation shall be the calendar year statutory valuation interest rates as defined in this section for:
(a) all life insurance policies issued in a particular calendar year, or after the operative date of Subsection 31A-22-408(6); and
(b) all individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1994;
(c) all annuities and pure endowments purchased in a particular calendar year on or after January 1, 1994, under group annuity and pure endowment contracts; and
(d) the net increase, if any, in a particular calendar year after January 1, 1994, in amounts held under guaranteed interest contracts.
(2) Calendar year statutory valuation interest rates:

1626
(a) The calendar year statutory valuation interest rates, "R," shall be determined as follows and the results rounded to the nearer 1/4 of 1%:

(i) For life insurance:

\[ I = .03 + W(R1 - .03) - W/2 \cdot R2 - .09; \]

(ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options:

\[ I = .03 + W(R - .03); \]

where \( R1 \) is the lesser of \( R \) and .09,

\( R2 \) is the greater of \( R \) and .09,

\( R \) is the reference interest rate defined in Subsection (4), and

\( W \) is the weighting factor defined in this section;

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in Subsection (ii), the formula for life insurance stated in Subsection (i) shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of ten years, and the formula for single premium immediate annuities stated in Subsection (ii) shall apply to annuities and guaranteed interest contracts with guarantee duration of ten years or less;

(iv) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in Subsection (ii) shall apply;

(v) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in Subsection (ii) shall apply.

(b) However, if the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for the immediately preceding calendar year by less than 1/2 of 1%, the calendar year statutory valuation interest rate for such life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980, using the reference interest rate defined in 1979, and shall be determined for each subsequent calendar year regardless of when Subsection 31A-22-408(6)(d) becomes operative.

(3) Weighting factors:

(i) Weighting factors for life insurance:

(B) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in (i) above increased by: .05 .05 .05

(C) For annuities and guaranteed interest contracts valued on an issue year basis, other than those with no cash settlement options, which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than 12 months beyond the valuation date, the factors shown in (A) or derived in (B) increased by: .05 .05 .05

(D) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of 20 years. Plan type as used in the above tables is defined as follows:

Plan Type A: At any time policyholder may withdraw funds only:

(i) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, or (ii) without such adjustment but in installments over five years or more, or (iii) as an immediate life annuity, or (iv) no withdrawal permitted.

Plan Type B: Before expiration of the interest rate guarantee, policyholder withdraws funds over a period of 12 months, ending on June 30 of the calendar year of the change in the fund.

(i) without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, or (ii) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

Plan Type C: Policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either:

(i) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, or (ii) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

(F) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue year basis. As used in this section, an issue year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or purchase of the annuity or guaranteed interest contract, and the change in fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund holds under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.

Reference interest rate: "Reference interest rate" referred to in Subsection (2)(a) is defined as follows:

For all life insurance, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year next preceding the year of issue, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(b) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or year of purchase of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(c) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, excess as stated in Subsection (b), with guarantee duration in excess of ten years, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(d) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in Subsection (b), with guarantee duration in excess of ten years or less, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(e) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(f) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in Subsection (b), the average over a period of 12 months, ending on June 30 of the calendar year of the change in the fund, of the Monthly Average of the Composite Yield on Seasoned Corporate Bonds, as published by Moody's Investors Service, Inc.

(g) Alternative method for determining reference interest rates: In the event that the Monthly Average of the Composite Yield on Seasoned Corporate Bonds is no longer published by Moody's Investors Service, Inc. or in the event that the National Association of Insurance Commissioners determines that the Monthly Average of the Composite Yield on Seasoned Corporate Bonds as published by Moody's Investors Service, Inc. is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate, which is adopted by the National Association of Insurance Commissioners and approved by rule promulgated by the commissioner, may be substituted.
Section 20. Section Enacted.

Section 31A-17-507. Reserve valuation method—Life insurance and endowment benefits.

(1) Except as otherwise provided in Sections 31A-17-508, 31A-17-511, and 31A-17-513, reserves according to the commissioner's reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of (a) over (b), as follows:

(a) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such policy on which a premium falls due; provided, however, that such net level annual premium shall not exceed the net level annual premium on the 19 year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

(b) A net one year term premium for such benefits provided for in the first policy year.

(2) Reserves according to the commissioner's reserve valuation method, for annuity and endowment benefits, shall be the excess, if any, of the amount of such excess future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of (a) over (b), as follows:

(a) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of a pure endowment annuity of any duration, or a combination thereof, in an amount greater than such excess premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than such excess premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than such excess premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium.

(b) A net one year term premium for such benefits provided for in the first policy year.

(3) Reserves according to the commissioner's reserve valuation method, for annuity and endowment benefits, shall be the excess, if any, of the amount of such excess future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of (a) over (b), as follows:

(a) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of a pure endowment annuity of any duration, or a combination thereof, in an amount greater than such excess premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium.

(b) A net one year term premium for such benefits provided for in the first policy year.

Section 21. Section Enacted.

Section 31A-17-508. Reserve valuation method—Annuity and pure endowment benefits.

(1) This section shall apply to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under 26 U.S.C. Sec. 408, as amended.

(2) Reserves according to the commissioner's annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in all policies and contracts, and (d) all other benefits, except life insurance and endowment benefits in life insurance policies and annuities, shall be calculated by a method consistent with the principles of Subsections (1) and (2).

Section 22. Section Enacted.

Section 31A-17-509. Minimum reserves.
(1) In no event shall a company's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, issued on or after January 1, 1994, be less than the aggregate reserves calculated in accordance with the methods set forth in Sections 31A-17-506, 31A-17-508, 31A-17-511, and 31A-17-512 and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.

(2) In no event shall the aggregate reserves for all policies, contracts, and benefits be less than the aggregate reserves determined by the qualified actuary to be necessary to render the opinion required by Section 31A-17-503.

Section 23. Section Enacted.

Section 31A-17-510, Utah Code Annotated 1963, is enacted to read:

31A-17-510. Optional reserve calculation.  
(1) Reserves for all policies and contracts issued prior to January 1, 1994, may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for all such policies and contracts than the minimum reserves required by the laws in effect immediately prior to that date. Reserves for any category of policies, contracts, or benefits as established by the commissioner, issued on or after January 1, 1994, may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard herein provided, provided the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided therein.

(2) Any such company which at any time shall have adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum herein provided; provided, however, that, for the purposes of this section, the holding of additional reserves previously determined by a qualified actuary to be necessary to render the opinion required by Section 31A-17-502 shall not be considered to be the adoption of a higher standard of valuation.

Section 24. Section Enacted.

Section 31A-17-511, Utah Code Annotated 1963, is enacted to read:

31A-17-511. Reserve calculation — Valuation net premium exceeding the gross premium charged.  
(1) If in any contract year the gross premium charged by any life insurance company on any policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve thereon but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for such policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for such policy or contract, or the reserve calculated by the method actually used for such policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in Sections 31A-17-504 and 31A-17-506.

Section 25. Section Enacted.

Section 31A-17-512, Utah Code Annotated 1953, is enacted to read:

31A-17-512. Reserve calculation — Indeterminate premium plans.  
(1) In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurance company based on then estimates of future experience, or in the case of any plan of life insurance or annuity which is of such a nature that the minimum reserves cannot be determined by the methods described in Sections 31A-17-507, 31A-17-508, and 31A-17-511, the reserves which are held under any such plan must:

(a) be appropriate in relation to the benefits and the pattern of premiums for that plan; and

(b) be computed by a method which is consistent with the principles of this part, as determined by rules promulgated by the commissioner.

Section 26. Section Enacted.

Section 31A-17-513, Utah Code Annotated 1953, is enacted to read:

31A-17-513. Minimum standards for disability plans.  
The commissioner shall promulgate a rule containing the minimum standards applicable to the valuation of disability plans.
Section 27. Section Amended.

Section 31A-21-104, Utah Code Annotated 1953, as last amended by Chapter 21, Laws of Utah 1991, is amended to read:

31A-21-104. Insurable interest and consent.

(1) No insurer may knowingly provide insurance to a person who does not have or expect to have an insurable interest in the subject of the insurance. No person may knowingly procure, directly, by assignment, or otherwise, an interest in the proceeds of an insurance policy unless he has or expects to have an insurable interest in the subject of the insurance. Any insurance provided in violation of this subsection is subject to Subsection (5).

(2) As used in this chapter:

(a) "Insurable interest" in a person means, for persons closely related by blood or by law, a substantial interest engendered by love and affection, or in the case of other persons, a lawful and substantial interest in having the life, health, and bodily safety of the person insured continue. Policyholders in group insurance contracts need no insurable interest if certificate holders or persons other than group policyholders who are specified by the certificate holders are the recipients of the proceeds of the policies. (Every) Each person has an unlimited insurable interest in his own life and health. A shareholder or partner has an insurable interest in the life of other shareholders or partners for purposes of insurance contracts (which) that are an integral part of a legitimate buy-sell agreement respecting shares or a partnership interest in the business.

(b) "Insurable interest" in property or liability means any lawful and substantial economic interest in the nonoccurrence of the event insured against.

(3) Except as provided in Subsection (4), an insurer may knowingly issue an individual life or disability insurance policy to a person other than the one whose life or health is at risk unless that person, who is 18 years of age or older and not under guardianship under Title 75, Chapter 5, Protection of Persons under Disability and their Property, has given written consent to the issuance of the policy. [Consent may be expressed] The person shall express consent either by signing an application for the insurance with knowledge of the nature of the document, or in any other reasonable way. Any insurance provided in violation of this subsection is subject to Subsection (5).

(4) (a) A life or disability insurance policy may be taken out without consent in the following cases:

(i) A person may obtain insurance on a dependent who does not have legal capacity.

(ii) A creditor may, at his own expense, obtain insurance on the debtor in an amount reasonably related to the amount of the debt.

(iii) A person may obtain life and disability insurance on immediate family members living with or dependent on the person.

(iv) A person may obtain a disability insurance policy on others that would merely indemnify the policyholder against expenses he would be legally or morally obligated to pay.

(v) The commissioner may adopt rules permitting issuance of insurance for a limited term on the life or health of a person serving outside the continental United States who is in the public service of the United States, if the policyholder is related within the second degree by blood or by marriage to the person whose life or health is insured.

(b) Consent may be given by another in the following cases:

(i) A parent, a person having legal custody of a minor, or a guardian of the person under Title 75, Chapter 5, Protection of Persons under Disability and their Property, may consent to the issuance of a policy on a dependent child or on a person under guardianship under Title 75, Chapter 5, Protection of Persons under Disability and their Property.

(ii) A grandparent may consent to the issuance of life or disability insurance on a grandchild.

(iii) A court of general jurisdiction may give consent to the issuance of a life or disability insurance policy on an ex parte application showing facts the court considers sufficient to justify the issuance of that insurance.

(5) No insurance policy is invalid because the policyholder lacks insurable interest or because consent has not been given, but a court with appropriate jurisdiction may order the proceeds to be paid to some person who is equitably entitled to them, other than the one to whom the policy is designated to be payable, or it may create a constructive trust in the proceeds for a part of them on behalf of such a person, subject to all the valid terms and conditions of the policy other than those relating to insurable interest or consent.

(6) [Nothing in this] This section [shall not] does not prevent any organization described under [Section 501(c)(3)] (except a corporation that is both a corporation described under [Section 501(c)(3)] and a private foundation described under [Section 504(b) of the Internal Revenue Code of 1986] 26 U.S.C. Sec. 501(c)(3), (e), or (f), as amended, and the regulations promulgated thereunder, and which is regulated under Title 13, Chapter 22, Charitable Solicitations Act, from soliciting and procuring, by assignment or designation as beneficiary, a gift or assignment of an interest in life insurance on the life of the donor or assignee or from enforcing payment of proceeds from that interest.

Section 28. Section Amended.

Section 31A-23-501, Utah Code Annotated 1953, as enacted by Chapter 258, Laws of Utah 1992, is amended to read:

(1) A person, firm, association, or corporation may not act in the capacity of a managing general agent with respect to risks located in this state for an insurer licensed in this state unless the person is a licensed producer in this state.

(2) A person, firm, association, or corporation may not act in the capacity of a managing general agent
representing an insurer domiciled in this state with respect to risks located outside this state unless the person is licensed as a producer in this state pursuant to this chapter. The license may be a nonresident license.

13) The commissioner may require a bond in an amount he finds acceptable for the protection of (the) each insurer represented.

14) The commissioner may require the managing general agent to maintain an errors and omissions policy or other security acceptable to the commissioner.

Section 29. Section Amended.

Section 31A-23-503, Utah Code Annotated 1953, as enacted by Chapter 268, Laws of Utah 1992, is amended to read:

31A-23-503. Duties of insurers.

(1) The insurer shall have on file an independent financial examination, in a form acceptable to the commissioner, of each managing general agent with which it has done business.

(2) If a managing general agent establishes loss reserves, the insurer shall annually obtain the opinion of an actuary attesting to the adequacy of loss reserves established for losses incurred and outstanding on business produced by the managing general agent. This is in addition to any other required loss reserve certification.

(3) The insurer shall at least semiannually conduct an on-site review of the underwriting and claims processing operations of the managing general agent.

(4) Binding authority for all reinsurance contracts or participation in insurance or reinsurance syndicates shall rest with an officer of the insurer, who may not be affiliated with the managing general agent.

(5) Within 30 days of entering into or terminating a contract with a managing general agent, the insurer shall provide written notification of the appointment or termination to the commissioner. (Note: A notice of appointment of a managing general agent shall include:

(a) a statement of duties (which) that the applicant is expected to perform on behalf of the insurer;
(b) the lines of insurance for which the applicant is to be authorized to act; and
(c) any other information the commissioner may request.

(6) An insurer shall review its books and records each quarter to determine if any producer, as defined by Subsection 31A-23-102(12), has become a managing general agent as defined in Subsection 31A-23-102(10). If the insurer determines that a producer has become a managing general agent, the insurer shall promptly notify the producer and the commissioner of the determination. The insurer and producer (must) shall fully comply with the provisions of this chapter within 30 days.

(7) An insurer may not appoint (to its) board of directors officers, directors, employees, subproducers, or controlling shareholders of its managing general agents (such that) these persons would constitute more than 25% of the (of) its board of directors.

This subsection does not apply to relationships governed by Title 31A, Chapter 16, Insurance Holding Companies, or Chapter 23, Part 6, Broker Controlled Insurers, if it applies.

Section 30. Section Amended.

Section 31A-23-602, Utah Code Annotated 1953, as enacted by Chapter 268, Laws of Utah 1992, is amended to read:

(1) [t]hese provisions of this section (apply) applies if, in any calendar year, the aggregate amount of gross written premium on business placed with a controlled insurer by a controlling broker is equal to or greater than 5% of the admitted assets of the controlled insurer, as reported in the controlled insurer's insurer's quarterly statement filed as of September 30 of the prior year.

[t]hese provisions of this section (do not apply if):

(i) [it]he controlling broker +(4H) places insurance only with the controlled insurer, or only with the controlled insurer and members of the controlled insurer's holding company system, or with the controlled insurer's parent, affiliate, or subsidiary and receives no compensation based upon the amount of premiums written in connection with the insurance placed; and

(ii) [the] the controlling insurer accepts insurance placements only from nonaffiliated subbrokers, and not directly from insureds; and

(iii) [the] the controlled insurer, except for insurance business written through a residual market facility, accepts insurance business only from a controlling broker, a broker controlled by the controlled insurer, or a broker that is a subsidiary of the controlled insurer;

(iv) the controlling insurer is exempted by order of the commissioner upon his finding of no negative impact on the insurance buying public.

(iii) A controlled insurer may not accept business from a controlling broker and a controlling broker may not place business with a controlled insurer unless there is a written contract between the controlling broker and the insurer (which) that specifies the responsibilities of each party (which) and that has been approved by the board of directors of the insurer. The contract shall contain the following minimum provisions:

(a) The controlled insurer may terminate the contract for cause, upon written notice to the controlling broker. The controlled insurer shall suspend the authority of the controlling broker to write business during the pendency of any dispute regarding the cause for the termination.
(b) The controlling broker shall render accounts to the controlled insurer detailing all material transactions, including information necessary to support all commissions, charges, and other fees received by, or owing to, the controlling broker.

t) The controlling broker shall remit all funds due under the terms of the contract to the controlled insurer at least monthly. The due date shall be fixed so that premiums or premium installments collected shall be remitted no later than 90 days after the effective date of any policy placed with the controlled insurer under the contract.

d) All funds collected for the controlled insurer's account shall be held by the controlling broker in a fiduciary capacity, in one or more appropriately identified bank accounts in banks that are members of the Federal Reserve System FDIC, in accordance with applicable provisions of this title. However, funds of a controlling broker not required to be licensed in this state shall be maintained in compliance with the requirements of the controlling broker's domiciliary jurisdiction.

(e) The controlling broker shall maintain separately identifiable records of business written for the controlled insurer.

(f) The contract may not be assigned in whole or in part by the controlling broker.

(g) The controlled insurer shall provide the controlling broker with its underwriting standards, rules, procedures, and manuals setting forth the rates to be charged, and the conditions for the acceptance or rejection of risks. The controlling broker shall adhere to the standards, rules, procedures, rates, and conditions shall be the same as those applicable to comparable business placed with the controlled insurer by a broker other than the controlling broker.

(h) The contract shall state the rates and terms of the controlling broker's commissions, charges, or other fees and the purposes for those charges or fees. The rates of the commissions, charges, and other fees may not be greater than those applicable to comparable business and services placed with the controlled insurer by brokers other than controlling brokers. For purposes of this subsection and Subsection (g), examples of "comparable business and services" include the same lines of insurance, same kinds of insurance, same kinds of risks, similar policy limits, and similar quality of business.

(i) If the contract provides that the controlling broker, on insurance business placed with the insurer, is to be compensated contingent upon the insurer's profits on that business, then the compensation may not be determined and paid until at least five years after the premiums on liability insurance are earned, and at least one year after the premiums are earned on any other insurance. In no event may the commissions be paid until the adequacy of the controlled insurer's reserves on remaining claims has been independently verified pursuant to Subsection (3).

(j) The contract shall include a limit on the controlling broker's writings in relation to the controlled insurer's surplus and total writings. The insurer may establish a different limit to each line or subline of business. The controlled insurer shall notify the controlling broker when the applicable limit is approached and shall not accept business from the controlling broker if the limit is reached. The controlling broker may not place business with the controlled insurer if it has been notified by the controlled insurer that the limit has been reached.

(k) The controlling broker may negotiate but may not bind reinsurance on behalf of the controlled insurer on business the controlling broker places with the controlled insurer. However, the controlling broker may bind facultative reinsurance contracts pursuant to obligatory facultative agreements if the contract with the controlled insurer contains underwriting guidelines including, for both reinsurance assumed and ceded, a list of reinsurers with which the automatic agreements are in effect, the coverages and amounts or percentages that may be reinsured, and commission schedules.

(l) Every (4) Each controlled insurer shall have an audit committee of the board of directors. The audit committee shall annually meet to review the adequacy of the insurer's loss reserves. The committee shall meet with management, the insurer's independent certified public accountants, and an independent casualty actuary or any other independent loss reserve specialist acceptable to the commissioner.

(4) (5) (a) In addition to any other required loss reserve certification, the controlled insurer shall file with the commissioner on April 1 of each year an opinion of an independent casualty actuary, or any other independent loss reserve specialist acceptable to the commissioner. The opinion shall report loss ratios for each line of business written and shall attest to the adequacy of loss reserves established for losses incurred and outstanding as of year-end on business placed by the producer including losses incurred but not reported.

(b) The controlling insurer shall annually report to the commissioner the amount of commissions paid to the broker, the percentage that amount represents of the net premiums written, and comparable amounts and percentage paid to noncontrolling brokers for placements of the same kinds of insurance.

Section 31. Section Amended.
Section 31A-29-111, Utah Code Annotated 1953, as enacted by Chapter 232, Laws of Utah 1990, is amended to read:

31A-29-111. Eligibility — Limitations.

(1) Any person who has resided in this state for at least one year 12 consecutive months immediately preceding the date of application or who is a dependent child 24 years of age or less of such a person (who has resided in this state for at least one year) is eligible for pool coverage if the person pays the established premium and provides evidence of:

(a) a rejection or refusal by an insurer to issue health insurance coverage similar to the pool's coverage for reasons relating to health; or
(h) a refusal by an insurer to issue the insurance except at a rate exceeding the pool rate for reasons relating to health.

(2) The board shall promulgate a list of medical or health conditions for which a person is eligible for plan coverage without applying for health insurance coverage under Subsection (1). A person who demonstrates the existence or history of any medical or health condition on the list promulgated by the board is eligible to apply directly to the pool for coverage.

(3) A person is not eligible for coverage under this chapter if:

(a) at the time of pool application, the person is eligible for health care benefits under Medicaid or Medicare, except as provided in Section 31A-29-112;

(b) the person has terminated coverage in the pool, unless:

(i) 12 months have elapsed since the termination date; or

(ii) the person demonstrates that continuous other coverage has been involuntarily terminated for any reason other than nonpayment of premium;

(c) the pool has paid the maximum lifetime benefit to or on behalf of the person;

(d) the person is an inmate of a public institution; or

(e) the person is eligible for other public programs for which medical care is provided.

(4) In addition to other reasons for termination, if a person with pool coverage establishes residency outside Utah for three consecutive months, the person's coverage terminates.

(5) (a) Any person whose health insurance coverage from a state health risk pool with similar coverage is terminated because of nonresidency in another state may apply for coverage under the pool.

(b) If the coverage is applied for within 31 days after the termination and if premiums are paid for the entire coverage period under the pool, the effective date of the pool's coverage shall be the date of termination of previous coverage.

(c) The waiting period of a person with a preexisting condition applying for coverage under this chapter shall be waived if the waiting period was satisfied under a similar plan from another state and that state's benefit limitation was not reached.

(6) Although the pool is open to application from individual members of an employee group, the pool may not accept a person from a group that is capable of offering health insurance or a self-insurance arrangement to all of its employees or members and that has unreasonably excluded that person from eligibility in the group's plan. The board shall establish policies and guidelines to assist the pool administrator in evaluating applications from persons who are employees or members of a group that offers health insurance or a self-insurance arrangement to employees or members of the group.

(7) The board may determine the total number of persons that shall be enrolled for coverage by the pool at any time for the purpose of controlling expenditures so they do not exceed available revenues and shall permit and prohibit enrollment in order to maintain the number authorized. Nothing in this subsection authorizes the board to prohibit enrollment for any reason other than to control the number of persons in the pool.

Section 32. Section Amended.

Section 59-9-105, Utah Code Annotated 1953, as last amended by Chapter 74, Laws of Utah 1991, is amended to read:

Every insurer providing coverage for motor vehicle liability, uninsured motorist, and personal injury protection shall pay to the State Tax Commission on or before March 31 of each year, a tax of 0.01% on the total premiums received for these coverages during the preceding calendar year from policies covering motor vehicle risks in this state.

(2) The taxable premium under this section shall be reduced by all premiums returned or credited to policyholders on direct business subject to tax in this state.

(3) All money received by the state under this section shall be deposited in the General Fund as a dedicated credit for the purpose of providing funds to pay for any costs and expenses incurred by the Insurance Department in conducting, maintaining, and administering the relative value study referred to in Section 31A-22-307.

(2)(a) To establish a voted leeway program, a majority of the electors of a district voting at an election in the manner set forth in Section 53A–16–110 must vote in favor of a special tax.

(b) The district may maintain a school program which exceeds the cost of the program referred to in Section 53A–17a–145 with this voted leeway.

(c) In order to receive state support the first year, a district must receive voter approval no later than December 1 of the year prior to implementation.

(d) The additional program is the state-supported voted leeway program of the district.

(3)(a) Under the voted leeway program, the state shall contribute an amount sufficient to guarantee the following:

- $21.50 per weighted pupil unit for each .0002 of the first .0004 per dollar of taxable value and $.56 per weighted pupil unit for each additional .0002 per dollar of taxable value raised locally not to exceed .002 per dollar of taxable value.

(b) A majority vote opposing a modification does not deprive the district of authority to continue an existing program.

(c) If adoption of a leeway program is contingent upon an offset reducing other local school board levies, the board must allow the electors, in an election, to consider modifying or discontinuing the program prior to a subsequent increase in other levies that would increase the total local school board levy.

(d) Nothing contained in this section terminates, without an election, the authority of a school district to continue an existing voted leeway program previously authorized by the voters.

certified in writing that its class size needs are already being met and has identified the other school purposes for which the monies will be used to the State Board of Education and the state board has approved their use for other school purposes.

(2)(a) The state shall contribute an amount sufficient to guarantee $19.386 per weighted pupil unit for each .0002 per dollar of taxable value.

(b) The guarantee shall increase in the same years and for the same amounts as provided for the voted leeway guarantee in Section 53A-17a-133.

(3) The levy authorized under this section is not in addition to the maximum rate of .002 authorized in Section 53A-17a-133, but is a board-authorized component of the total tax rate under that section.

(4) As an exception to Section 53A-17a-133, the board-authorized levy does not require voter approval, but the board may require voter approval if requested by a majority of the board.

(5) An election to consider disapproval of the board-authorized levy is required, if within 60 days after the levy is established by the board, referendum petitions signed by the number of legal voters required in Section 20-11-22, who reside within the school district, are filed with the school district.

(6)(a) A local school board shall establish its board-approved levy by April 1 to have the levy apply to the fiscal year beginning July 1 in that same calendar year except that if an election is required under this section, the levy applies to the fiscal year beginning July 1 of the next calendar year.

(b) The approval and disapproval votes authorized in Subsections (4) and (5) shall occur at a general election in even-numbered years, except that a vote required under this section in odd-numbered years shall occur at a special election held on a day in odd-numbered years that corresponds to the general election date. The school district shall pay for the cost of a special election.

(7)(a) Modification or termination of a voter-approved leeway rate authorized under this section is governed by Section 53A-17a-133.

(b) A board-authorized leeway rate may be modified or terminated by a majority vote of the board subject to disapproval procedures specified in this section.

(8) As an exception to Section 20-11-3, a board levy election does not require publication of a voter information pamphlet.

There is appropriated $3,464,550 from the Mineral Lease/Bonus Account and $1,493,450 from Uniform School Fund monies to the State Board of Education for the state's contribution to the school building supported program for the fiscal year ending July 1, 1994.

A CONCURRENT RESOLUTION OF THE LEGISLATURE AND THE GOVERNOR REQUESTING THE STATE BOARD OF EDUCATION AND THE STATE BOARD OF REGENTS FORM AN AD HOC COMMITTEE TO DEVELOP TEACHER PRESERVICE AND INSERVICE PROGRAMS STRUCTURED TO MEET THE EDUCATIONAL NEEDS OF THE 21ST CENTURY.

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS the Legislature has formally recognized in the Utah Strategic Planning Act for Educational Excellence that public education's mission in the state is to assure Utah the best educated citizenry in the world and each individual the training to succeed in a global society;

WHEREAS the State Board of Education and the State Board of Regents have been given a charge to review and revise teacher certification requirements to be consistent with teacher preparation for participation in personalized education programs within the public schools;

WHEREAS a number of recent state and national projects and programs such as America 2000, A Shift in Focus, and the Utah Strategic Planning Act for Educational Excellence have clearly indicated a renewed impetus to attract and retain excellent teachers for every classroom in order to provide quality instruction based on the personal needs of each student;

WHEREAS in the past the State Board of Education and the State Board of Regents have formed ad hoc committees such as the Collaboration Committee for Teacher Preparation to explore ways in which public and higher education could work more closely to benefit the preservice and inservice training of teachers:

WHEREAS the introduction of technology into the state's public education system on a large scale through such programs as the Educational Technology Initiative has raised additional concerns over the need to have teachers adequately trained to not only utilize but be able to maximize the potential of such technology in the classroom;

WHEREAS while much has been done to provide quality teacher preservice and inservice programs at both the state and local level, a perception exists that much more could be done through coordinated ongoing efforts by public and higher education;

WHEREAS the State Collaboration Committee for Teacher Preparation is currently involved in a review of preservice and inservice processes and content; and

WHEREAS a subcommittee formed through the Education Interim Committee of the Legislature has determined that while much has been done with teacher inservice programs throughout the state, there is a critical need to consider restructuring both inservice processes and content to meet the ever changing needs of both teachers and students in the classroom:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the State of Utah, the Governor concurring therein, request the State Board of Education and the State Board of Regents to form an ad hoc committee to develop recommendations for teacher preservice and inservice programs structured not only to help accomplish the mission of public education in the state but also to meet the state's educational needs for the 21st Century and report its recommendation to the Education Interim Committee and the Governor prior to the 1994 General Session.

BE IT FURTHER RESOLVED that copies of this resolution be sent to the State Board of Education, the State Superintendent of Public Instruction, the State Board of Regents, the Commissioner of Higher Education, and the State Collaboration Committee for Teacher Preparation.

A CONCURRENT RESOLUTION OF THE LEGISLATURE AND THE GOVERNOR MEMORIALIZING CONGRESS TO PASS LEGISLATION THAT WOULD AUTHORIZE EXCHANGES OF SCHOOL TRUST LAND INHOLDINGS DESCRIBED IN THE "UTAH SCHOOLS AND LANDS IMPROVEMENT
EXCHANGE ACT** THAT WAS CONSIDERED DURING THE 2ND SESSION OF THE 102ND CONGRESS.

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS upon its achieving statehood in 1896, Utah received four sections of land in every township from the federal government as trust lands for the support of the state's common schools;

WHEREAS the state's obligations concerning the administration of these trust lands are governed by its Enabling Act and Constitution;

WHEREAS the Enabling Act and Constitution have created a solemn compact between the United States and the State of Utah, with the state assuming trust administration responsibilities over these lands;

WHEREAS in its capacity as trustee, the state has a duty of undivided loyalty to the trust beneficiaries and an obligation to prudently manage the trust assets while seeking to maximize revenues, consistent with the balancing of short-term and long-term interests;

WHEREAS while a portion of Utah's trust lands has been sold or exchanged since statehood, approximately 3.7 million acres of surface and 4.6 million acres of subsurface trust lands remain as trust assets, geographically represented by several thousand parcels of land scattered throughout the state, many of which are located within federal reserves such as national parks, military installations, wilderness study areas, and Indian reservations;

WHEREAS state trust lands located within federal reserves generate little if any revenue for the trust beneficiaries and the potential for future development of those lands to generate any significant revenues is, at best, remote;

WHEREAS Utah continues to have critical funding needs for its ever-expanding student population in public and higher education;

WHEREAS the scattering of trust lands throughout the state has, in many instances, hindered the state in fulfilling its fiduciary responsibilities to the beneficiaries;

WHEREAS the inholdings issue has been a problem the state has struggled with for many years and efforts to overcome this problem in the past have, in large part, met with little or no success;

WHEREAS during the 2nd Session of the 102nd Congress the Utah Congressional delegation introduced bills in both the United States Senate and House of Representatives, collectively titled the "Utah Schools and Lands Improvement Act of 1992", designed to exchange approximately 200,000 acres of school trust lands that lie within National Parks, Indian Reservations, and National Forest Lands for equitable federal lands or interests in lands;

WHEREAS the Act was written in close cooperation with the appropriate federal agencies and had the full support of the U.S. Forest Service, the Bureau of Land Management, the National Park Service, and the Office of Management and Budget as well as those affected in Utah at the state and local level, and represented a major effort on the part of all concerned interests to move forward with positive action:

WHEREAS during the 2nd Session, the House of Representatives passed, HR 5118, and the Senate subsequently passed an amended version; and

WHEREAS just prior to final approval of the amended changes in the legislation the Congress adjourned sine die, thereby precluding final action on the Act:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the State of Utah, the Governor concurring therein, memorialize Congress to give its final approval through legislative action to the provisions embodied in the "Utah Federal Lands Exchange Act of 1992" during the 1st Session of the 103rd Congress to provide for the exchanges anticipated in the Act.

BE IT FURTHER RESOLVED THAT copies of this resolution be sent to the U.S. Department of the Interior, to the U.S. Department of Agriculture, to Utah's Congressional delegation, to the leadership of the United States Senate and the United States House of Representatives, and to the President of the United States.

A CONCURRENT RESOLUTION OF THE LEGISLATURE AND THE GOVERNOR EXPRESSING THEIR INTENT REGARDING THE COMPLETION AND FUNDING OF THE CENTRAL UTAH WATER PROJECT.

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS in 1964, people of vision and foresight created the Central Utah Water Conservancy District to administer the development of the various proposed units of the Central Utah Project;

WHEREAS Utah's Congressional delegation has fought for the authorizations and appropriations necessary to begin and continue construction of the project;

WHEREAS delivery of Central Utah Project water is vital to the continued long-term prosperity of the state;

WHEREAS Congress approved the Central Utah Project Completion Act in 1992;

WHEREAS the 1992 Completion Act represents a new era in the process by which these projects are constructed, requiring, as a condition to the federal government's further participation, that those who will receive the benefits of the project contribute a significant percentage (35 to 50%) of the up front costs of the design and construction costs on a concurrent or "as needed" basis;
WHEREAS the district and the state must find new sources of funding, because the district's existing funding sources are committed to current debt and operating expenses;

WHEREAS new sources of funding are as difficult for the district and the state as they are for the federal government;

WHEREAS the district and the state want to be assured that each individual feature of the project is wanted and needed, meets the test of economic and environmental viability, and that the people are willing to pay for each individual feature of the project under the new payment scheme;

WHEREAS many varied financing tools and combinations of tools are available to fund the district's and state's portion of the project, including bonding, property taxes, appropriations, water and power rate revenues, water development funds or loans, and other similar financing tools;

WHEREAS the district and the state must evaluate the environmental and economic effects of project features and receive federal appropriations within five years, or the authorizations contained in the Completion Act expire;

WHEREAS the Secretary of the Interior must enter into a cost-sharing agreement with the district within 120 days of passage of the Completion Act;

WHEREAS that 120 day period expires in early March 1993; and

WHEREAS the district will cover the nonfederal match for the first year's federal appropriation and the district will make the mitigation account contributions for the first year:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein:

A CONCURRENT RESOLUTION OF THE LEGISLATURE AND THE GOVERNOR EXPRESSING OPPOSITION TO ANY PROPOSAL TO DEDUCT ADMINISTRATIVE AND OPERATING COSTS FROM GROSS RECEIPTS FOR FEDERAL MINERALS, NATIONAL FORESTS, AND OTHER CONGRESSIONALLY AUTHORIZED STATE AND COUNTY SHARED RECEIPTS.

Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:

WHEREAS state shared receipt programs were basic to the congressional compromise which led to the retention of significant federal land and mineral interests in the western states;

WHEREAS state and county shared receipts are an important revenue source for impact assistance such as education, roads and highways, sewer and water, and other public facilities and programs needed to support the industries and work forces engaged in development activities on federal lands;

WHEREAS western state and local governments expend significant amounts of their own-source revenues for the planning, accommodation, and regulation of federal land and mineral resource development and management activities;

WHEREAS congressional authorizations for state and local shares of federal receipts have historically and consistently been interpreted to mean gross receipts and not net receipts, nor receipts less administrative costs;

WHEREAS current appropriations legislation requires that half of the federal administrative costs be deducted from gross federal onshore mineral leasing receipts before dividing the remainder between the federal and affected state governments;
WHEREAS this policy contradicts the position of the authorizing committees and means a loss of over $38 million to the western states in this fiscal year; and

WHEREAS in previous years there have been proposals that an even larger share of the costs be deducted from both mineral and timber revenues before dividing them between the federal government and the state or counties; and

WHEREAS although the return from state audits of federal mineral royalties from oil, gas, coal, and geothermal leases has far exceeded the costs, contracts for states to audit coal and geothermal leases were abruptly canceled without an adequate explanation from the Department of the Interior:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the Governor concurring therein, express opposition to any proposal to deduct administrative and operating costs from gross receipts for federal minerals, national forests, and other congressionally authorized state and county shared receipts.

BE IT FURTHER RESOLVED that copies of this resolution be sent to the president of the United States, the director of the Office of Management and Budget, the Secretary of the Interior, the Secretary of Agriculture, the chairman and ranking minority members of both the authorizing and appropriations committees of the United States Congress, and Utah's congressional delegation.

RESOLUTION URGING TAX EQUITY FOR NONCOMMUNITY PROPERTY STATES

H. J. R. NO. 5
Passed February 8, 1993
Effective February 8, 1993
By Fred R. Hunsaker

A JOINT RESOLUTION OF THE LEGISLATURE URGING THE UNITED STATES CONGRESS TO AMEND THE INTERNAL REVENUE CODE TO ENSURE TAX EQUITY IN THE DETERMINATION OF THE TAX BASIS ON THE PROPERTY OF DECEDENTS REGARDLESS OF WHETHER THE STATE IS A COMMUNITY PROPERTY OR COMMON LAW JURISDICTION.

Be it resolved by the Legislature of the state of Utah:

WHEREAS Section 1014(b)(6) of the Internal Revenue Code provides a tax benefit for citizens of community property states that common law states do not receive;

WHEREAS in community property states, the tax basis on property received from a decedent is determined by applying a stepped-up basis to the entire community interest;

WHEREAS in common law states, the tax basis is determined by applying the stepped-up basis only to the portion of the property actually received;

WHEREAS this inequity between community property and common law states can be removed by amending Section 1014(b)(6) to extend the tax benefit currently enjoyed by community property states to common law states; and

WHEREAS any tax benefit as significant and basic as that derived from the treatment of the property of decedents should be equally applied to all Americans regardless of where they live:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah urge the United States Congress to amend Section 1014(b)(6) of the Internal Revenue Code to provide that the current determination of tax basis on the property of decedents that is applied in community property states be extended to common law states to ensure tax equity for all Americans.

BE IT FURTHER RESOLVED that copies of this resolution be sent to the majority and minority leadership of both houses of the United States Congress and Utah's congressional delegation.

RESOLUTION URGING ESTABLISHMENT OF MEDICAL CARE SAVINGS ACCOUNTS

H. J. R. NO. 22
Passed February 28, 1993
Effective February 28, 1993
By Evan L. Olsen

A JOINT RESOLUTION OF THE LEGISLATURE URGING THE UNITED STATES CONGRESS TO CHANGE FEDERAL TAX LAW TO PERMIT THE ESTABLISHMENT OF A MEDICAL CARE SAVINGS ACCOUNT PROGRAM AS A COST-EFFECTIVE METHOD OF PROVIDING AFFORDABLE HEALTH CARE FOR ALL AMERICANS; AND RECOMMENDING THAT BUSINESSES AND INDIVIDUALS STUDY SUCH PROGRAMS.

Be it resolved by the Legislature of the state of Utah:

WHEREAS health care costs in the United States are quickly spiraling out of control;

WHEREAS the solutions to this crisis currently under the scrutiny of the United States Congress consist basically of private or market-based reforms, mandated employer coverage, and government-sponsored national health insurance;

WHEREAS a market-based solution the United States Congress should consider is a Medical Care Savings Account program based on the idea that one of the main reasons for the high cost of health insurance is the high cost of processing small claims;
pay for routine medical bills each year and buys a policy providing 100% catastrophic coverage for each employee and their family;

WHEREAS providing both the set amount for routine care and purchasing catastrophic coverage may be more cost effective for the employer;

WHEREAS if employees lose or change jobs they retain the unused balance deposited into the medical care savings account for that year;

WHEREAS at the end of the year any unused portion of the account is retained by the employee and can be spent subject to the required income taxes or kept and invested like an IRA;

WHEREAS since new taxes are needed to pay for the establishment of the Medical Care Savings Account program, businesses and individuals may benefit greatly by establishing such programs; and

WHEREAS the program may be an economically sound proposal to overhaul our crumbling health care cost system:

NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah urge the United States Congress to change federal tax law to allow the establishment of Medical Care Savings Account programs throughout the United States as an efficient and effective method of resolving the nation's health care cost crisis.

BE IT FURTHER RESOLVED that copies of this resolution be sent to the President of the United States, President of the United States Senate, the Speaker of the House of Representatives, and the members of Utah's congressional delegation.

This act takes effect upon approval by a constitutional two-thirds vote of all the members of the Senate.
Section 2. SR-23.11 is enacted to read:

**SR-23.11 Types of Citations; Use of Citations.**

(1) There are two types of legislative citations: individual and by one or both houses of the Legislature.

(2) With the approval of the presiding officer, an individual legislator may request the Secretary of the Senate to prepare a commendation or condolence citation for the Senator's own signature. This citation is done without any floor action.

(3) During a session of the Legislature, a legislator may request the Committee of the Senate to prepare a commendation or condolence citation for the Senator's sponsor's signature, which citation shall also be presented to the Senate, by motion, to authorize the President of the Senate to sign on behalf of the Senate; or to one house and then the other for the approval of both the Senate and the House. This motion is in order as an item of personal privilege.

(4) When the Legislature is not in session, a legislator may request a commendation or condolence citation for the Senator's and the President's signature, for the Senator's sponsor's, the President's, and the Speaker's signature.

Section 3. SR-23.12 is enacted to read:

**SR-23.12 Standing Committee Review of Fiscal Impact Bills.**

All bills, including those with fiscal impact, shall be reviewed by the standing committees of both houses before being held in the opposite house because of fiscal impact.

Section 4. SR-23.13 is enacted to read:

**SR-23.13 Printing Certain Fiscal Bills.**

On the last Monday of the annual general session, the following bills shall be completed by the Appropriations Executive Committee, printed, and available to all legislators: the appropriations act, any supplemental appropriations acts except the supplemental appropriation act that funds the bills passed during that session, the school finance act, and any bonding act.

Section 5. SR-23.14 is enacted to read:

**SR-23.14 Standing Committee Review.**

(1) The Senate may not pass a bill during the annual general session which has not had standing committee review.

(2) This rule does not apply to:

(a) any resolution regarding legislative rules or legislative personnel;

(b) bills that have been approved by an interim committee;

(c) the revisor's statute; or

(d) the appropriations act, the supplemental appropriations acts, the school finance act, and any bonding act which has been reviewed and approved by the Appropriations Executive Committee.

Section 6. SR-23.15 is enacted to read:

**SR-23.15 Passing Bills with Negative Fiscal Impact.**

(1) All bills which have a negative fiscal impact on the state shall be acted upon by 12 noon on the last day of the annual general session.

(2) Any bill with a negative fiscal impact which has not been passed by the Senate by the time frame in subsection (1) shall be sent to Senate Rules Committee.

Section 7. SR-25.05 is amended to read:

**SR-25.05 Second Reading Calendar.**

(1) After consideration of all bills on third reading calendar, bills on second reading calendar shall be considered. Each bill listed shall be read by title, unless the Senate suspends this requirement by a two-thirds vote. (cf. SR-27.16)

(2) The Secretary of the Senate shall send the committee report. A motion to adopt a "favorable" committee report places the bill before the Senate with all committee amendments. If a motion to adopt a "favorable" committee report does not receive a majority vote, the bill will be returned to the Senate Rules Committee.

(3) If a bill has not received a Senate standing committee or interim committee review and approval, the reading clerk shall note that.

(4) The final question on second reading calendar is: "Shall the bill (resolution) be read a third time?" The question shall be decided on a roll call vote. A constitutional majority vote is required to pass the bill on the second reading calendar.

Section 8. Effective Date.

This act takes effect upon approval by a constitutional two-thirds vote of all the members of the Senate.

**RESOLUTION ON YEAR OF THE BUFFALO**

S. R. NO. 4
Passed February 15, 1993
Effective February 15, 1993

By David H. Steele

A RESOLUTION OF THE SENATE DESIGNATING 1993 AS THE ANTELOPE ISLAND BISON-TEENIAL.

Be it resolved by the Senate of the state of Utah:

WHEREAS on February 15, 1893, a group of 12 bison consisting of four bulls, four cows, and four calves were loaded on a stock boat at Farmington and ferried to Antelope Island:
WHEREAS the near extinction of the American Bison, or buffalo, is one of the greatest tragedies in our nation's history;

WHEREAS it is estimated that as many as 60,000,000 bison once freely roamed the prairies of North America;

WHEREAS in 1889 the Smithsonian Institution reported that only 1,091 bison remained;

WHEREAS the movement to save the American Bison from extinction began in the 1880's when a few individuals sought out the bison in order to protect them and give them a permanent home;

WHEREAS one of these men, Charles J. "Buffalo" Jones of Garden City, Kansas, scoured the plains of Kansas and Texas capturing buffalo calves to raise on his ranch;

WHEREAS after purchasing 70 additional bison while in Canada, Jones sold some of the bison to William Glassman of Salt Lake City who planned to establish a zoological garden with a "Buffalo Park" on the south shore of the Great Salt Lake in Tooele County;

WHEREAS when the venture failed some of the bison were sold to John E. Dooly, who owned most of Antelope Island;

WHEREAS over the century since the animals were transported to the island they have become a prize and treasure for the people of the state of Utah and remain a connection between Utahns and their western heritage; and

WHEREAS today the bison are one of the great attractions at Antelope Island State Park:

NOW, THEREFORE, BE IT RESOLVED that the Senate of the State of Utah designate 1993 as the Antelope Island Bison-tennial year in recognition of the many efforts to preserve the bison from extinction which have given us a tangible link to our past.

BE IT FURTHER RESOLVED that copies of this resolution be sent to the Department of Natural Resources and the Division of Parks and Recreation.
BILLS VETOED BY THE GOVERNOR
The Honorable Rob W. Bishop  
Speaker of the House  
and  
The Honorable Arnold Christensen  
President of the Senate  

Dear Speaker Bishop and President Christensen:

This is to inform you that on March 23, 1993, I have vetoed HB 202,  
CREDIT LIFE AND DISABILITY INSURANCE PREMIUM AMENDMENTS,  
and have transmitted it to the Lieutenant Governor for filing.

This bill repeals an existing statutory protection for consumers who pay premiums for credit life and disability. By vetoing this bill, I leave the protection in place.

Sincerely,

Michael O. Leavitt  
Governor
The Honorable Rob W. Bishop  
Speaker of the House  
and  
The Honorable Arnold Christensen  
President of the Senate  

Dear Speaker Bishop and President Christensen:

This is to inform you that on March 23, 1993, I have vetoed HB 217, 
MOTOR VEHICLE INSURANCE DATABASE, and have transmitted it to the 
Lieutenant Governor for filing.

This bill raises motor vehicle registration fees to fund an insurance 
database that will provide the Drivers License Division with information on who is 
and is not carrying motor vehicle insurance. The bill's sponsor is to commended 
for his laudable attempt to solve the problem of uninsured motorists on Utah 
Highways. However, the database has not been fully tested to assure that there 
will not be citations mistakenly given to motorists who may be insured but who 
the database shows are not.

The bill contains stiff penalties for not having insurance and so it is crucial 
that this database be as accurate as possible. I will work, and I urge the 
Legislature to join me in working to solve this problem without unduly harming or 
harassing the innocent citizen.

Sincerely,

Michael O. Leavitt  
Governor
February 26, 1993

The Honorable Arnold Christensen
President of the Senate
and
The Honorable Rob W. Bishop
Speaker of the House

Dear President Christensen and Speaker Bishop:

This is to inform you that on February 26, 1993, I have vetoed SB 2, Disability Insurance Amendments, and have transmitted it to the Lieutenant Governor for filing.

This bill was proposed and passed with a laudable goal to better notify holders of disability insurance policies of certain reductions in benefits. This can be accomplished by another means which is preferable to passing a new statute. Accordingly, I have directed the Insurance Commissioner to make rules to provide the same protection for consumers as SB 2 attempted to do.

Senate Bill 2 also raised constitutional concerns over the impairment of existing contracts. In addition, compliance with this bill would impose an undue financial hardship on the many disability insurance carriers that serve the citizens of Utah.

Sincerely,

Michael O. Leavitt
Governor
March 23, 1993

The Honorable Arnold Christensen
President of the Senate
and
The Honorable Rob W. Bishop
Speaker of the House

Dear President Christensen and Speaker Bishop:

This is to inform you that on March 23, 1993, I have vetoed SB 67,
EMPLOYEE INFORMATION REGARDING TOBACCO SMOKE HAZARDS, and
have transmitted it to the Lieutenant Governor for filing.

This bill requires employers to provide information regarding health
hazards of smoking to its employees. This imposes administrative burdens on
employers without any substantial benefit for the general public as a whole.

Sincerely,

Michael O. Leavitt
Governor
The Honorable Arnold Christensen  
President of the Senate  
and  
The Honorable Rob W. Bishop  
Speaker of the House  

Dear President Christensen and Speaker Bishop:  

This is to inform you that on March 23, 1993, I have vetoed SB 199, EDUCATION CAPITAL OUTLAY AND DEBT SERVICE AMENDMENTS, and have transmitted it to the Lieutenant Governor for filing.  

All citizens of Utah understand and acknowledge the critical needs for school buildings in certain districts. This bill, though laudable in its purpose, provides an unnecessary property tax increase to provide this critical funding. I have developed an alternative, non-tax increase way to fund the critical school needs of this state.  

As you know, I have called a special session on March 31st, to ask the Legislature to consider this alternative plan and provide the needed funding to solve this serious problem.  

Sincerely,  

Michael O. Leavitt  
Governor
The Honorable Arnold Christensen
President of the Senate
and
The Honorable Rob W. Bishop
Speaker of the House

Dear President Christensen and Speaker Bishop:

This is to inform you that on March 23, 1993, I have vetoed SB 270, HOUSE INSPECTION REGISTRATION, and have transmitted it to the Lieutenant Governor for filing.

This bill provides for the registration of home inspectors by the state. As a condition of registration, the bill requires each applicant to obtain a performance bond, letter of credit, or certificate of deposit. Setting qualification requirements for entry into a profession is appropriate. This bill bars entry into a profession, through a financial requirement only.

Sincerely,

Michael O. Leavitt
Governor
March 23, 1993

The Honorable Rob W. Bishop
Speaker of the House

and

The Honorable Arnold Christensen
President of the Senate

Dear Speaker Bishop and President Christensen:

This is to inform you that on March 23, 1993, I have vetoed the following line items in HB 337, APPROPRIATIONS ACT II, and have transmitted it to the Lieutenant Governor for filing.

Item 33 - To the Department of Community and Economic Development, $9,900 to implement the provisions of SB 140. This amount was appropriated in SB 140 and is duplicated in HB 337.

Item 66 - To Department of Public Safety, $531,000 to implement the provisions of HB 217. Since I have vetoed HB 217 this appropriation is no longer necessary.

Sincerely,

Michael O. Leavitt

53A-16-104.5, AS AMENDED BY CHAPTER 306, LAWS OF UTAH 1993

ENACTS:
53A-21-111.5, UTAH CODE ANNOTATED 1953
53A-21-111.7, UTAH CODE ANNOTATED 1953

Be it enacted by the Legislature of the state of Utah:

Section 1. Section Amended.

Section 53A-16-104, Utah Code Annotated 1953, as last amended by Chapter 292, Laws of Utah 1992, is amended to read:

(1) (a) Each local school board shall impose a tax rate of [.0004] .0001 per dollar of taxable value for a school district equalized capital outlay and debt service foundation program.

(b) The [.0004] .0001 tax rate shall be considered a part of the .0024 tax rate authorized under Subsection (1)(d) [1].

[1] The equalized tax rate established in Subsection (1)(a) shall increase to .0006 beginning July 1, 1993; to .0008 beginning July 1, 1994, and to .001 beginning July 1, 1996.

(d) A school board may levy a tax not to exceed .0024 per dollar of taxable value for debt service and capital outlay.

If a school district has imposed a .0024 tax rate under this section and more than 75% of the revenues from that tax rate must be used for debt service, then the district may impose an additional tax rate to offset any lost revenue under Subsection (1)(a).

(2) In order to qualify for equalization monies under this section, a school district shall:

(a) [shall] impose a minimum basic tax rate of [.0029] .0023 per dollar of taxable value for capital outlay and debt service in addition to the rate required under Subsection (1)(d); and

(b) be below the state average yield per student on the [.0029] tax rate; and

(c) certify to the state board that the district has implemented a building use program that includes year round schools, double sessions, or a similar concept for the maximum effective use and design of buildings under rules adopted by the State Board of Education.

(3) (a) The State Board of Education shall [collect by January 1 of each fiscal year the revenues raised under Subsection (1)(a) from the school districts and] distribute [them] the monies in the foundation program in accordance with [a] the distribution formula developed by the State Office of Education [by July 31, 1992], in consultation with the Office of Planning and Budget and the Legislative Interim Education Committee, subject to the limitations established in Subsection (4).

(i) The formula shall include the following components:

(A) consideration of the assessed valuation per student of real property within the school district;

(B) projected growth in the district as related to unhoused students;

(C) the district's total tax rate levied for capital outlay and debt service; and

(D) the district's outstanding and authorized bonded indebtedness; and

(E) the district's use of alternative programs, such as extended days, double sessions, and year round schools in compliance with state laws and authorized rules on school building utilization.

(ii) The distribution of monies under this section shall be reviewed annually by the Education Appropriations Subcommittee.

(b) The revenues raised under Subsection (1)(a) shall be used solely for school district capital outlay and debt service purposes.
The State Office of Education shall determine the monies raised in Subsection (1)(a) as follows:

(a) Any district that has not levied a .002 tax rate under this section as of January 1, 1992, shall contribute to the foundation program an amount equal to the product of the percentage by which the district is below the .002 tax rate and the amount the district would have contributed under full equalization.

(b) Any district that has not levied a .002 tax rate under this section as of January 1, 1992, shall contribute to the foundation program an amount equal to the product of the percentage by which the district is below the .002 tax rate and the amount the district would have contributed under full equalization.

(c) A district that is below the state average yield on the .0004 tax rate does not participate in the contribution required under Subsection (b).

(d) If beginning in fiscal 1996-97, full equalization of all eligible monies shall begin with the first .0004 being equalized for all districts that:

(1) Have no bond issue outstanding or authorized as of January 1, 1992; or

(2) Have no outstanding or authorized bond obligations as of June 30, 1996, that were outstanding or authorized as of January 1, 1992.

(e) Those districts that have a bond issue outstanding or authorized that was outstanding or authorized as of January 1, 1992, shall have the rates outlined in Subsection (4)(b) modified as follows:

(A) The value of the bond issue that was outstanding or authorized as of January 1, 1992, shall be divided into the value of the bond issue that is still outstanding or authorized to determine the percent of bond issue retired.

(B) The percent determined in Subsection (A) shall be used to adjust the rate outlined in Subsection (4)(b) by multiplying the rate by the percent, and this adjusted rate shall be used for all levies that are subject to full equalization.

(G) A district that had a bond issue authorized but not issued as of January 1, 1992, may not be held harmless for the authorized issue after June 30, 2010.

(D) When a district retires all bond issues that were outstanding or authorized as of January 1, 1992, that district is subject to full equalization according to the following schedule: .0004 in fiscal 1996-97; .0006 in fiscal 1997-98; .0008 in fiscal 1998-99; and .001 in fiscal 1999-2000.

Section 2. Section Amended.

Section 53A-16-104.5, Utah Code Annotated 1953, as amended by Chapter 306, Laws of Utah 1993, is amended to read:

53A-16-104.5. State contribution to foundation program.

(1) The state contribution toward the cost of the equalized capital outlay foundation program authorized in Section 53A-16-104 for the fiscal year ending June 30, 1994, shall consist of an appropriation of $4,958,000 from the Uniform School Fund to the State Board of Education.

(2) The distribution shall be based on the formula distribution established under Subsection 53A-16-104(3).

(3) The appropriation under this section is in addition to any state appropriation for the school building aid program established in Title 53A, Chapter 21.

(4) Beginning July 1, 1993, the State Board of Education, the governor, through the State Office of Planning and Budget, and the Office of Legislative Fiscal Analyst shall prepare their respective public education budget recommendations to reflect increases in the contribution to the foundation program as follows:

(a) For the fiscal year ending June 30, 1995, a total appropriation of not less than $4,450,000;

(b) For the fiscal year ending June 30, 1996, a total appropriation of not less than $7,300,000; and

(c) For the fiscal year ending June 30, 1997, and for each year thereafter a total appropriation of not less than $8,800,000 per fiscal year.

Section 3. Section Enacted.

Section 53A-21-111.5, Utah Code Annotated 1953, is enacted to read:

53A-21-111.5. State appropriations—Subsequent years.

(1)(a) There is appropriated $2,400,000 from the uniform school fund to the state board of education for the state's contribution to the critical and continuing school building programs authorized under this chapter for the fiscal year ending June 30, 1994.

(b) This amount is in addition to the $4,958,000 appropriated for the school building state supported program in Section 32 of S.B. 267, Minimum School Program Act Amendments, enacted during the 1993 General Session.
(2) (a) Beginning July 1, 1993, the State Board of Education, the governor, through the State Office of Planning and Budget, and the Office of Legislative Fiscal Analyst shall prepare their respective public education budget recommendations to reflect an increase in the contribution under Subsection (1)(a) of not less than $2,850,000, so that the total appropriation under this section for the fiscal year ending June 30, 1996, shall be at least $10,208,000.

(b) The $10,208,000 shall increase to not less than $13,058,000 for the fiscal year ending June 30, 1996, and for the fiscal year ending June 30, 1997, and for each fiscal year thereafter to a total of not less than $14,558,000 per fiscal year.

Section 4. Section Enacted.

Section 53A-21-111.7, Utah Code Annotated 1953, is enacted to read:

53A-21-111.7, Revenue sources for state contribution.

(1) (a) For the fiscal year ending June 30, 1995, and for each fiscal year thereafter, the state contributions described in Sections 53A-16-104.5 and 53A-21-111.5 shall be funded from revenues realized as a result of the review of sales tax exemptions and related issues under Section 53A-16-104.5.

(b) Nothing in Subsection (1)(a) may be construed to require that state revenues generated under Section 59-12-104.5, in excess of the amount required under Subsection (1)(a), be used to further fund those programs or for any other public education program.

(2) If revenues generated under Subsection (1) are inadequate to fund the state contributions, then the contributions shall also be funded from other state revenues as needed and appropriate.

(3) (a) If total revenues under Subsections (1) and (2) are inadequate to fund the state contributions, then the balance shall be made up of revenues generated by equalization of property tax revenues from a tax rate, not to exceed 0.001 in any fiscal year.

(b) The tax rate under Subsection (a) shall be considered part of the 0.0024 tax rate authorized in Section 53A-16-104 for school districts and is in addition to the rate required under Subsection (1)(a) of that section.

(c) Subsection 53A-16-104(1d) applies in the event of a school district's need to offset loss revenues under Subsection (1)(a).

14(1) A school district may not use the state revenues it receives under the critical and continuing school building programs in Title 53A, Chapter 21, or the state and local revenues it receives under the equalized capital outlay and debt service foundation program in Title 53A, Chapter 14, to supplant or offset any other school district revenue sources for purposes of maintenance and operation costs listed in Subsection 53A-17a-103.5(5c).

(b) The Legislature shall review Subsection (14) during the 1994 General Session to assess its impact on the state's 40 school districts and determine if the provision should be modified.

Section 5. Section Amended.

Section 59-12-104.5, Utah Code Annotated 1953, as enacted by Chapter 126, Laws of Utah 1993, is amended to read:

59-12-104.5. Review of sales tax exemptions.

(1) The Tax Review Commission, in cooperation with the Governor's Office and the State Tax Commission, shall conduct a review of the following sales tax exemptions and related issues created in Section 59-12-104 within the following period of time:

(a) Subsections 59-12-104(4)-(5), and (3), (6), (7), (11), (15), (17), (24), and (31) before October 1, 1993, and every eight years thereafter;

(b) Subsections 59-12-104(14), (5), (16), (18), (20), (21), (22), (23), (24), and (25) before October 1, 1996, and every eight years thereafter;

(c) Subsections 59-12-104(19), (20), (22), (24), and (26) before October 1, 1999, and every eight years thereafter;

(d) Subsections 59-12-104(31) before October 1, 1999, and every eight years thereafter.

(2)(a) The Tax Review Commission and the Revenue and Taxation Interim Committee shall make recommendations to the [Revenue-and-Taxation-Interim-Committee] governor and the Legislature, on or before the [committee's] October interim meeting in the year the study is required to be completed under this section, concerning whether the exemption listed in Subsection (1) should be continued, modified, or repealed.

(b) In its report to the governor and the Revenue and Taxation Interim Committee, the commission review shall include at least:

(i) the cost of the exemption;

(ii) the following criteria for granting or extending incentives for businesses:

(A) the business must be willing to make a substantial capital investment in Utah, signaling that it will be a long-term member of the community;

(B) the business must bring new dollars into the state, which generally means the business must export goods or services outside of Utah, not just recirculate existing dollars;

(C) the business must pay higher than average wages in the area where it will be located, increasing Utah's overall household income; average wage calculations are not to include local, state, or federal government or school district employees;

(D) the same incentives offered the outside business must be available to existing in-state businesses so as not to discriminate against homegrown businesses; and
(E) the incentives must clearly produce a positive return on investment as determined by state economic modeling formulas;

(iii) the Legislature's sales and use tax policy positions adopted in H.J.R. 32 of the 1990 General Session;

(iv) the purpose and effectiveness of the exemption; and

(v) the benefits of the exemption to the state.

(iii) Item 43, in H.B. 337, enacted during the 1993 General Session, is transferred from the Tax Commission to the Tax Review Commission to implement this section.

Section 6. Effective Date.

This act takes effect on July 1, 1993.
